FREE SILVER IS NO LONGER AN ISSUE

Chairman Jones, Governor Stone, Altgeld, Dick Croker and Carter Barrison Concoct Plans for the Undeling of Bryan.

CHICAGO, Sept. 25 .- An article in today's Times Herald says that the most important political event since the election tast fall was the meeting in this city yesterday and the day before of James K. Jones, chairman of the democratic national committee; Governor W. J. Stone of Missouri, ex-Governor John P. Altgeld of Hilnois, Richard Croker, leader of Tammany in New York City, and Mayor Carter H. Harrison of Chleago. The purpose of this conference was to consider the best methods of managing the local campaigns this year, for the interests of the democratic party as a whole. The reputed result of the conference is that Witliam Jennings Bryan is to be practically turned down with his free sliver theories, and that unti-monopoly is to be the watchword of the democrats till something bette and more certain to unite the party puts in

has been given out that the assembling of these democratic leaders in this city at one and the same time was purely an acci-

Senator Hill of New York is said to be one of the powers behind the scheme to dethrone the silver issue and supplant it with one which will be nearly as popular with the public and more easily understood. and Secutor Jones, chairman of the national committee, and Governor Stone and Governor Altgeld are not averse to making the

The result is, in a few words, that Mr. Bryan will not be invited to take part in the Ohlo campaign, where his unguarded enthusiasm might allegate a large per cent of the democratic vote, and he will be kept out of New York. In the latter state the silver issue will not be mentioned in the campaign, but the agitation against monopo-iles will be taken up and becomed for al it is worth. The same course will be taken in Indiana in the local campaigns. NO USE FOR BRYAN.

Mr. Bryan is at present in lows teaching his peculiar doctrines, and an effort will be made to take him out of that state, but with what result is not now known. The feeling among these dismorats is that the party would would stand a better chance for winning in the Hawkeye state if the ex-democratic candidate were prevented from stirring up feeling among the members of the democratic

The ultimate result of this impremptu con ference in this city will be to eventually take the silver question out of the politics of the democratic party. The leaders of the party, who are not so much wrapped up in the question as their late presidential candidate, see that silver is a dead issue, and want to get rid of it in the most graceful

The visiting democrats left town last even went to New York with Senator Cantor and his bride after having, as he put it, "a very satisfactory talk with Senator Jones." He would not repeat what had taken place in a private conversation.

Chairman Jones and his party went to Minocqua, Wis, to catch musk llunge. With him were William J. Stone, Missouri's former governor, Colonel M. C. Wetmore, president of the Liggett & Myers Tobacco company of St. Louis; Major J. seph McCann of Springfield. Mo.; Major Salman of Clinton, Mo., and Frank II. Ray of Chicago.

Whites and Indians.

SILOAM SPRINGS, Ark., Sept. 25 .court house, in the Cherokee nation, the scene of Monday night's triple tragedy, report a very grave state of affairs. It is feared that further trouble will result on account of the bad feeling engendred among the different factions. The sheriffs from Flint and Going Stake districts and several United States marshals are on the ground endeavoring to make arrests and if possible prevent further bloodshed. There is a bitter enmity of long standing between the white adopted citizens and the full blood Indians and extra precautions have been taken to agd extra precautions have been taken to guard against an open rupture and loss of life on both sides. Some of the white citizens who have been notified to leave have done so, but most of them, men of nerve, say they will remain and fight

The first report brought down last night by men who had braved perils of flood and precipice to get out was that not less than seven men had been killed and dozens maimed and hurt. Later reports, confirmed by a hundred witnesses, brought the certain death loss down to one, a man named Choynski of San Fran-cisco, said to be a cousin of the pugilist of the same pame. > PROPERTY LOSSES Tents, goods and provisions of all kinds are buried in an indescribable manner for nearly a mile from the head of Sheep Camp down the canyon. Forty tents, occupied by probably over 100 persons are buried in the ruins. All is confusion. Many discouraged, disheartened pligrims have come down toga intending to take the first steamer for home. Some of them have not a dollar to their names, still the most of them saved their money. One man lost \$400, which was found by digging where his tent had gone down. Four saloons ous of six were wiped out of existence, but the log houses which had been built higher up the slope were left standing. The toll bridge was washed out, as well as several feet along the trail, but Healy and Wilson have set a force of men t work repairing the bridge and trail so that it will be passable for horses again in a few days. Men have felled trees across several places and it is again possible to get along on foot. There are hundreds of discouraged men tonight at Sheep Camp. They know not what to do. Professional packers who have been at work for some time are sick from exposure and overwork. The course of the avalanche was not over 200 feet in any place and only those who had not selected ordinary precautions for camping were injured, bu lost their all. At Finnegan's Point the river rose nearly a foot in two hours, but has gone their stuff ahead again.
