honest men to another party underrates republican party for causing all the impudent impostor.

The republican party was in uninter rapted power in Nebraska for twenty replied power in Nebraska for twenty rehould be addressed: To the Editor, odd years and in that time many abuses crept in which were condemned by the rank and file. According to its own exhibit, the World-Herald admits that up populist county and city treasurers since 1890 exceed \$125,000.

> The heavy losses by defalcation and bank-wrecking have occurred within the past six years. In those six years Ne braska has had four governors, Thayer for eight months, Boyd for sixteen Holcomb since January, 1895. Each of of the executive department and whatever losses the state has sustained by 617,995 his neglect or failure to enforce strict 5.825 necountability in the state's finances is chargeable to him and indirectly to the party he represents. Why then should ministration. As a large majority of the republican party be charged with all the stealings and losses that date from under Holcomb's administration? The biggest defalcation, that of Bartley, amounting to \$537,000, could not have occurred had Governor Holcomb done his duty fearlessly when forewarned more than two years ago that Bartley would fall short in his accounts.

It is beneath contempt for any news paper pretending to common decency to charge the republican party with the responsibility for the discrepancies in the State fair gate receipts when it knows that the State Board of Agriculture is not a political body and its membership is made up from men of all parties. More than that it is simply outrageous for the Bryanite organ to reproduce The Bee's denunciation of slot-machine gambling as a proof of republican depravity when it knows that the popocratic reform police commission has extended police protection to this lawless business.

An honest paper will stand up for the public welfare and denounce corrupt practices and abuses of trust regardless of party. A thieves' fence and beneficiary of embezzlers may be expected to keep still while robbery is being perpetrated and to cry wolf after the burglars have made away safely with the booty.

A COMPLICATED SITUATION.

The political situation in Greater New York is complicated. Three mayoralty nominations have been made. The Citimonths, Crounse for two years and zens' union, claiming to represent 130 000 voters, nominated Mr. Seth Low as a these governors was in absolute control non-partisan candidate, hoping that he does not commit suicide. would be endorsed by the republicans. Efforts to secure such endorsement, however, failed and the republicans nominated Hon, Benjamin F, Tracy, who was secretary of the navy in the Harrison adthose in the Citizens' union are republicans there will be division in the repub-Boyd's term or that have been entailed lican ranks if both Mr. Low and General Tracy remain in the field, a situation that would be very certain to result in democratic success if the democrati were united. As matters now look there seems to be little probability that either Low or Tracy will withdraw.

> The democrats are in a dilemma. The free silver faction has nominated Henry George, the well known advocate of the single land tax and an uncompromising champion of the free and unlimited coin age of silver at 16 to 1. The regula democracy, which is Tammany, is divided on the question of reaffirming the Chicago platform, If it should do this it would lose the support of the gold standard democrats, who are numerous in New York-undoubtedly more so now than a year ago. On the other hand the endorsement of the Chicago platform would give Tammany the free silver vote, because in that case George would undoubtedly withdraw. But the ques tion troubling the Tammany leaders is not one of principle, but of votes. They are looking after the spoils and Croker and Sheehan are figuring as to which course will give them the best chance of achieving success in the first election of Greater New York. They would not hesitate a moment about endorsing the Chicago platform if they felt at all confi-

> dent that would do it. With such a situation any prediction as to the result of the election would be wholly valueless, but the campaign pos sesses an interest for the entire coun

> > A NEED OF THE NAVY.

We referred recently to the fact that two of the battleships of the United States navy had to be sent to Halifax for repairs, this country having no drydock available for the purpose. The failure to provide adequate dockage for our pets that an enthusiastic blowout has naval vessels, it is needless to say, is wholly the fault of congress, which has B. C. Reform club, at which scathing from time to time been made fully aware of this necessity. It will have its atten tion again directed to the matter at the coming session, a report having been have pulled the wool over the eyes of made to the Navy department by a the taxpayers, looted the treasuries and special board in which the need of the robbed the people without conscience navy in the matter of drydocks is fully pointed out.

According to this report the govern ment should expend from \$10,000,000 to \$12,000,000 in constructing docks. This is a considerable sum, but if we are to took the business men of Omaha to task | have a navy we must make proper and adequate provision for taking care of it and this requires liberal expenditure It was in accord with the eternal fit- It is manifestly out of the question that ness of things that these resolutions we should depend upon foreign 'ryshould be promulgated from a reform docks for the repair of our war vessels, club whose president was sentenced to for we might be unable to avail ou solves of these in an extremity, while in case of for swindling practices and that each war we should of course not be allowed to use them. It seems that of eleven meeting was a piebiter holding office naval drydocks in the United States now through the influence of the political there is at present but one which can take in our battleships and that one is in Puget sound. The dereliction of congress in this matter is unaccountable, but it should not be allowed to continue

The people of Omaha and Nebraska should not forget that Friday, October 8, has been designated Nebraska day at that it is to their interest individually and collectively to have Nebraska well represented at Nashville for the occasion. The Nashville exposition is one in which whose plaintive melody lamented the the promoters rightfully take pride as the most comprehensive exhibit of that has ever been made. Sailing Under False Colors,

The interesting report comes from Nebraska hat the silver republicans will claim the egal right to go on the ticket as the repubcan party of the state. If this is one of Bryan's great conceptions he proposes o make the Chicago olatform the test of re-ublicanism. The 102,000 Nebraska repubcans who voted against him will have some thing to eay about this little game.

Spanish Force in Cuba.

The statement we have repeatedly made hat more than 200,000 Spanish troops were employed in Cuba, is confirmed by an official that was printed a few days ago the Madrid Heraldo. This document of the ninistry of war contains the following sen-

"Between November, 1895, and May 1897, he government sent to Cuba 181,738 soldiers ommanded by 6,261 officers, forty of whom were generals."

Besides this expeditionary force, there was a Cuba at the outbreak of the war an army f occupation of 21,000 men. It is thus seen that the number of Spanish service against the Cuban insurcops on service against the Cuban insur-ction has exceeded 200,000. It is doubtful

whether Weyler could now put one-half of that number in the field. Hence it is that einforcements from Spain are needed for the winter campaign.
Again, besides the Spanish regulars here numerated, there are the Spanish-Cuban colunteers for the defense of Havana and

other places, perhaps 20,000 of them. Rising Tide of Prosperity.

Buffalo Express No one can survey the field of business erations in the United States at present without being profoundly gratified at the progress which is being made by the moveent toward better times. The industrial and trade features unquestionably are those to which attention must be chiefly directed in arriving at an accurate estimate of the situation. When these are considered, the only conclusion which is permissible is that the season is fully meeting the expectations of the most sanguine midsummer prophets. If a slight check in the demand for staple articles is admitted, in deference to the view of Bradstreet's, it may be credited in large part to the influence of the yellow fever quarantine. If a lull exists, it is hardly discernible. Certainly the reports on railcad carnings do not point to any appreciable change. Bank clearings, also, were less than 2 per cent below the total for the preceding which showed a remarkable record. ast year there was a gain of 60 per cent If the fever were not in the south it is an parent that results would be still more satisfactory.

MEN NOT DISLODGED BY WOMEN. Instructive Statistics on an Inter esting Question.

Are women really hurting the chances of men in industrial and business occupa-tions? The developments of the last several years have certainly tended to pro luce a very strong impression among male wage-earners that the opening of so many trades and professions to women has injuriously affected the position of men; that he employment of women means the crowdng out of a corresponding number of men. To what extent is this true?

The question is not one which can be fully and accurately answered by any sta-tistical inquiry, but Colonel Wright, the federal commissioner of labor, shows in an ateresting paper in the Chautauquan that such statistical data as exist in reference to this subject do not warrant any widespread apprehension. He recognizes that in special classes of employment, like those of book-keepers, stenographers, clerks, etc., there there has been a serious encroachment that has ago, was the founder of the Sage public injured the opportunities of men to support library in Bay City, Mich., where he acthemselves and their families. But two things are to be considered: First, that as men have been forced out of old employents, invention and the rapid extension of certain old industries have provided new avenues for them, and second that, after all, when we consider the whole number of persons engaged in gainful ocupations, the invasion of women has not been very alarm-Thus railroad construction and the nderful development of the electrical lustry have opened opportunities in which have not met with much considera-Many occupations not known before have increased the demand for male labor. so that men have not suffered as much as is popularly assumed. Colonel Wright points out a fact which affords cause for congratulation from another that

larger standpoint than men's industrial interests. reports indicate that more generally taking the of children rather than that of men. Through the action of law as well as through the operation of economic factors the number of children employed in manufactures is connumber of persons employed in man-ufacturing was 5:58, while in 1890 it was only 2.68. The decrease since 1890 must have continued at the same rate at least. If it is true, then, that women have dis lodged adult male labor, the result is distinctly beneficial to society. Child labor is an anomaly and a deeply regretted necessity even within the marrowest limits, and the evidence adduced by Colonel Wright will be gratifying to all true humanitarians.

Visitors Somewhat Backward Abov Expressing Their Views on Annexation-England Playing to Secure Neckar Island.

SAN FRANCISCO, Sept. 29.—The steamship Australia arrived this morning from Honolulu with the following Hawaiian advices up to September 22:

Representative J. G. Cannon of Illinols. H. C. Loudenslager of New Jersey, A. S. cisco today after a short stay in this country. Senator Morgan will remain several weeks longer. During the party's stay they have terest and have had everything pertaining to Hawaii explained to them. Many social functions have been given in their honor On the evening of the 20th a public reception was tendered Senator Morgan at the United States legation and was largely attended:

Senator Morgan and the congressmen visited Pearl Harbor yesterday. The latest charts, together with a brief sketch of the work already accomplished by the Bennington survey party were laid before the senator and his colleagues.

It has been asserted that Representative Cannon is opposed to annexation. In an interview he said: "You can rest assured of England and Canada over the entrance of that I have not committed myself against Russia and Japan into the coming seal conference at Washington seems worked up by to the contrary, no man can say that I am main force, inasmuch as the conference is pledged against annexation of the islands to the United States. I dislike going into particulars on this question at this time came here for pleasure and to see and learn all I possibly could during the short period of my stay. I can truthfully say that I am greatly impressed with my trip to Hawaii." Congressman Cannon is on the committee appropriations of the house and has always opposed large appropriations for the im

evement of Pearl Harbor. Congressman Berry talks freely. He says 'I was favorable to political union before I came here and my visit has only strength ened me in my position. I feel confident that annexation will come during the next will be annexed in some manner.

POSTPONES HIS TALK. Congressman Loudenslager was noncommittal when interviewed. It is understood he favors annexation. He said: "Not being on American soil I would prefer not to talk on the subject. I do not think it would b right for me to do so. You will hear very shortly how I feel about the matter, for I intend to ventilate my views when I return home. I can say that I am favorably im pressed with the American colony in Hawai They are intelligent and law-abiding and are worthy of their flag and country. The French cruiser Duguay Truin arrived from Tahita yesterday with who has been in command of the French have

in the Pacific for some years. It will remain here about α week and will then proceed to San Francisco.
When the question of the annexation o the Hawaiian islands comes up before the United States senate England make a protest. This protest

a belligerent of of the nature and is only to obtain control of Neckar island for cabl purposes. For some time past English was vessels have been seizing islands in the Pa cific, but have kept their hands off Hawalia In May, 1894, President Dole has reason to

lieve that England had its eyes on Necka island. He acted promptly and on May 25 a essel was chartered and sailed the san day for the island. Captain J. A. King, the minister of the interior, was in charge of the expedition. The island was reached two days ater and the following proclamation was

"I, James A. King, minister of the interi of the provisional government of the Ha-wallan islands, in pursuance of a commision granted me by his excellency, Sanford B. Dole, president of the provisional government of the Hawaiian islands, do hereby in the name of the provisional government of the Hawailan islands, take possession of this island, known as Neckar island, as a part of Hawaiian territory; the in 23 degrees 35 minutes north latitude and longitude 164 degrees 30 minutes west, and having been claimed by the Hawaiian gov-ernment as Hawaiian territory since the year 1845, when an expedition under Captain Paty was sent to survey said island. WILLING TO PART TITLE.

Both the United States and Hawaiian gov. ernments know positively that England does ot object to the annexation of the islands out it must have a cable landing near Hone lulu, and the landing must be on Britisl soil. Neckar island is practically worthless to Hawaii and it is believed that this government will readily cede the barren rook to please England. Had it not been for the ecent death of British Commissioner Hawes England's request for the island, it is be lleved would have been presented to this government. As the case now stands nothing will be done until a new commissioner is appointed. When Captain King visited Neckar island it was found to be almost a sterile heap of volcanic rocks, nearly 300 fee high, with a few patches of coarse grass on its surface.

RUMORED SALE OF GREENLAND Englishmen of the Opinion the United States Wants It.

LONDON, Sept. 29.—There is a rumor in Canadian circles that the government of the United States has made overtures to the government of Denmark with the object of acquiring Greenland from the latter country The Evening News gives prominence to the rumor and says: "Under ordinary circum-stances, even if true, the report would excite little interest, but coupled with the news of the hoisting of the union jack over Baffin's land, it becomes of great moment. t appears that Baffin's land was never fo mally acquired by the English, although i has been regarded as English for half a century. Hudson's strait is destined a become part, in the future of a great graincarrying route between Liverpool and Winni-peg which will be a powerful rival of the American land routes. The Americans have no port or footing on the easiern shores of the continent north of Maine, and if they are to participate in the advantages of the 1743-son bay route it has been apparently urged that their government secure some land or perinsula without delay."

The Evening News adds to this comment an interview with unuamed Canadian officials, to the effect that the hoisting of the officials, to the effect that the housing of the union jack over Baffia's land was undoubt-edly evoked by the report that the United States government had its eye upon that territory. According to the official quoted, there is nothing to prevent the United States ourchasing Greenland from Denmark. the Americans acquire Greenland there will be difficulties ahead for our transatlantic commerce and international relations. It

to prevent our securing It?" LONDON, Sept. 29.—The Berlin correspondent of the Daily News says: The statement that the German and Austrian emperors have lecided to intervene between the United states and Spain is unfounded. opinion here favors Spain, but there is juestion of the German cabinet making itself catspaw for Spain, while Austrian diplo-mats will not allow its foreign policies to be

nfluenced by certain dynastic interests.

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adoit. All who try it, like it GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress & the price of coffee. Isc and 250 per package. Sold by all grocers.

IOWA PRESS COMMENT.

Davenport Republican: Governor Gear's recent statement of the situation in lows is being widely quoted in other states. The f 7 per cent loans on lowa farms are lowa farmers have got a surplus, lows banks are full of money, lows farmers in future will do the lending. This is Sensor Gear's terse way of summing up the farmers' good fortune.

Waterloo Courier: One of the changes in he lows election law as promulgated by the general assembly in special sesion, and one that will meet with universal approval, is the provision looking to an earlier counting of the votes. The hours for opening the polls in the country precincts is to be 8 o'clock in the morning; in towns and cities it will be at 1 o'clock. All the polls in the state will close at 6 o'clock p. m. The provision is a wise one and will facilitate matters greatly.

Dubuque Times: The proposed erection of a monument to Julien Dubuque honors the pro-jectors not less than the memory of that plo-neer of the then far west. It should be a monument that is worthy of the people of the of his inestimable contribution to the civi-lization of the west. There is now nothing to hinder the completion of the work. The committee charged with the duty of obtain-ing means to forward the work reported on Wednesday night that it was ready to pro-ceed with the erection of the monument.

Sloux City Tribune: The literary end of the popocratic campaign in lowe keeps com-plaining of "the infamous partisan legisla-tion known as the anti-fusion law." The purpose of that act may have been to pre-vent fusion of the forces opposed to the republican party, but certainly that has not been the effect of the act. The effect has been rather to force a union in the most effective way possible. The Tribune pointed out that this would be the effect at the time and that it would tend to destroy the party which fused under another name, There is no people's party now, except that allowing the Weeks crowd in the middle of
