MADRID, Oct. 1 .- Senor Sagasta says he is willing to undertake the construction of a cabinet, and it is hoped that the crisis will be solved tomorrow.

Marshal Mortinez Campos was in conference with the queen regent today for an hour and a half. He expressed the opinion that a change of policy was possible with the present chamber if the majority supported the new cabinet, new economic measures and attitude toward the colonies. After the queen regent receives Senor Sagasta and Senor Pidal, president of the chamber of deputies, tomorrow, she will make her de cision. Her majesty today expressed a desire to retain, if possible, the recent chambers, believing that a general election would hav cabinet would be necessary.

None of the liberals are inclined to accept office, for they would only find themselves at he mercy of the conservative the arrangement whereby the chambers might be retained in case the liberals were cessful. During the conference of the mem bers of the dissident conservatives with the queen regent Senor Silva declared that in view of the difficulties in the way of dissolution, it would be best to retain the con-servatives in office under the leadership of Campos, and he said in assumption that the cabinet would receive the support of all elements; a majority of his own sec

fon would give it enthusiastic support.

## WOODFORD'S MESSAGE TO SPAIN.

Simply a Tender of Kindly Offices of United States. CHICAGO, Oct. 1.-A Washington special to the Times-Herald says: It is now possible for the Times-Herald to give, not the exac

text of the famous Woodford note to Spain,

but a fair statement of its substance. This now celebrated and much discussed ument simply expresses on the part of United States the hope that the war be brought to a close as speedily possible, but there is no date fixed when the consummation is to be reached and that the

consummation is to be reached and that the interests of Spain, no less than the interests of the United States, the interests of humanity and the interests of the world at large are reasons why the war should be ended with the least possible delay.

And with that in view, acting as a friend of Spain, because of the great stake which the United States has in Cuba, financially red otherwise, because of the armoyance to which the United States has been put by

as a friend between the mother country and her rebellious colony in the hope that she may be able to effect a settlement and bring he warfare to a clone

This is all there is in the note. There is not the faintest suggestion of this government forcing upon Spain her good offices if she does not care to voluntarily accept them, nor is there an intimation that the war must be brought to an end within a certain time, or that Spain must answer this note within

It is stated that last Tuesday Mrs. Truitt. knowing that her husband loved another, attempted to take her life by swallowing a big dose of morphine.

CHICAGO, Oct. 1 .- A unique exhibit has been opened at the Art institute here. For first time in any city, there is an exposi-tion of ideal schoolroom decorations. Three women have brought this about—Miss Josephine Locke, Mws Ellen G. Starr and Mis. T. N. Sherwood, all three of whom have been for the last three years assiduous in their ef-forts to beautify the public school and famil-iarize the children with good works of art. The exhibition is intended to show parents teachers and children what is suitable and beautiful for schoolroom decoration and at the same time to inform them of the price of the different pictures and where they can

# SHOW UP GERALDINE

Superintendent of Construction for the Exposition Must Explain.

HIS PECULIAR METHODS ARE MADE PUBLIC

Complaints of Long Standing Have at Last Come to a Focus.

RESOLUTION DEMANDS HIS RESIGNATION

Executive Committee Holds an Interesting Session on This Topic.

MANAGER ROSEWATER STARTS THE BALL

He Calls for Geraldine's Dismissal and Presents a Series of Memoranda Upon Which He Bases His Reasons.

The murmurs of dissatisfaction which have been heard in all quarters for the last three or four months against the arbitrary methods 80 and peculiar practices of D. Geraldine, superintendent of construction for the Department of Buildings and Grounds of the exposition, broke out at the regular meeting of the executive committee yesterday afternoon when summary discharge of Geraldine for cause. This resolution was accompanied by a written memorandum setting forth at length a few of the reasons why Geraldine should be the special order of business at a special meeting of the executive committee to be HENRY GEORGE IS NAMED AGAIN. Conway submitted two bids, one for al the labor and material on the latter propo sition, \$7,100, and one for the labor of \$2,100. Under the original plan his was for materials and labor \$7,900. Un

the last proposal the specifications were On August 13 a contract for sheet piling which Creedon & Mahoney were allowed to carry out, there was a saving of about 60,000 feet of lumber, which, at \$14 per 1,000 feet for yellow pine, would amount to \$840, mak-ing the total cost on the revised plan equal to \$7,376.50, as against \$7,100 bid by Conway. In addition to this there was omitted from Creedon & Mahoney's work all the iron Creedon & Mahoney's work all the fron work, worth at least \$200, making a total of \$7,576.50. In substituting yellow pine of second quality for white pine of first quality, there is a difference of \$4 per 1,000 feet. Estimating the quantity of lumber used at 170,000 feet, this would make a saving to the contractor of \$680, making in all \$8,255.50 as against \$7,900 as originally bid under the first plants and specifications by Conway. will be read, it is announced, accepting the as against the nomination. one foot of lumber all around the lagoon, DONATION TO THE CONTRACTORS. Another and very extraordinary feature of this contract was this: Early in June the expesition was induced to contract with the Cady Lumber comeany for an involce of yellow cine lumber which in the aggregate was to cost \$3,000. It was represented by was to cost \$3,000. It was represented by Mr. Geraldine that this purchase would save the exposition several hundred dollars, as the lumber was furnished at a cut rate, much below the prevailing market price. When the contract to Creedon & Mahoney was awarded this invoice was turned over to the contractors at the instance of Mr. Geraldine, ontractors at the instance of Mr. Geraldine, and thus Creedon & Mahoney were given the advantage, as then represented, of about \$1.50 per 1,000 on the yellow pine which they purchased, equal to a donation of \$250. Mr. Conway, who was competing with Creedon & Mahoney, had no such offer, and it is doubtful whether any bidder besides Creeder & Mahoney had the slightest intimation that he would have the privilege of taking this lumber off the hands of the exposition at the

cut rate at which it was bought.

The specifications of Creedon & Mahoney's contract provide that cement is to be used at each sheet piling, but may be omitted at the option of the exposition. The cement was omitted, by order of the superintendent, but no allowance whatever was made by the contractor for this omission. Mr. Geraldine, when asked about this, stated that the cost of cement is no greater than the tamping of

the dirt. the dirt.

Conway's bid under the supplementary specifications was 5%.

Deduct from this difference in quantity of lumber, 6,000 freet white pine at 18 per 1,000.

Deduct for iron work.

Difference in cost of white and yellow pine, 175,000 feet at 14 per 1,000.

Cost of sheet piling.

Total deductions

The exposition paid Creedon & Mahoney \$5,936.50, thus raying \$1,495.50 more than it should have paid had the contract been awarded on an honest competitive bid. This is not taking into consideration the advantage of not less than \$250 which was given to Creedon & Mahoney by turning over to them the lumber bought by the exposition at

ut rates. It also transpires that the wood-

work on the lagoon still remains unfinished and will require a great deal more lumber Mill Starts After Year's Idleness. and carpentry work. EMPLOYMENT OF AN ASSISTANT On August 27 a request for the employ-ment of H. W. Tamm as assistant super-intendent of construction was made by Mr.
