Kidney and Bladder Troubles Quickly Cured.

You May Have a Sample Bottle of the Great Discovery Dr. Kilmer's Swamp-Root Sent Free by Mail.

People doctor their troubles and try different medicines so often without benefit, that they get discouraged and skeptical. In most cases such serious mistakes are made in doctoring and not knowing exactly what our trouble is or what makes us sick. The unmistakable evidences of kidney trouble are pain or dull ache in the back, too frequent desire to pass water, scanty supply, scalding irritation. As kidney disease advances the face looks sallow or pale, eyes puffy, the feet swell and sometimes the heart acts badly. Should further evidence be needed to find the cause of sicknesss, then set urine aside for twenty-four hours; a sediment or settling is also convincing proof that our kidneys

and bladder need doctoring. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney semedy, is soon realized. It stands highest for its wonderful cures. Sold by drugcists, price fifty cents and one dollar. So universally successful has Swamp-Root been in quickly curing even the most distressing cases, that if you wish to prove its wonderful may have a sample bottle and a book, both sent absolutely free by mail. C. W. Hall, farmer and stockman, Eustis, Neb., writes under date of August 24, 1897: "Dr. Shepard: An emphatic statement of my case, in a few words, is only a matter of justice to you. When I went to you for treatment I had a severe catarrh, with neuralgia. It had become chronic, causing frequent headaches and obstruction of the nasal passages. I could scarcely breathe through them. In each nostril large tumors had developed, which you removed. I am now free from headaches, breathe perfectly well, and my general health is much im-proved. I am certain that my cure is permanent.

An Editor's Wife.

Mrs. C. E. Byars, wife of C. E. Byars, editor of the Valley (Neb.) Enterprise, writes, Sept. 5, 1897; "I was troubled with catarrh nearly from childhood and at last had quinsy nearly every month. These attacks prostrated me fearfully, and nearly choked me to death every time. It seemed as though my en-tire system was filled with catarrh. I am entirely cured of my quinsy, not having had a sign of it since my treatment with Dr. Shepard. My general health since then has been better than for many years before. I can say to those whom it concerns that Dr. Shepard is, in my opilnon, a com-petent, careful physician, for he treated me with the best of success."

Class in History of Painting. About twenty-five young women, eachers, met at the First Congregational hurch yesterday morning and organized a class in the history of painting with Mrs. W. W. Keysor as teacher Perhaps this should be called a reorganization, for the class has been in seesion year after year since 1889. Heretofore the subject of study has been either English or American literature, but this year they begin the study of art.

Mrs. Keysor announced the theme of the first lesson, to be given at the church next Saturday at 10:30 o'clock, to be the terms used in painting. Van Dyke's "How to Study a Picture" and "Art for Art's Sake," were given as reference books, while "Heaton's Concise History of Art' and Redeliff's "Masters and Schools of Painting" were suggested as good books to serve as texts. If the class is large enough to warrant, a stereoption will be used in connection with Mrs. Keysor's lectures and the topical work by the class.
