WATCH.

Watch your foot-steps; you may slip and njure yourself.

3

Watch your habits; they may grow upon you unawares and get beyond your control. Watch the tendency of the times. The world is moving and changing every day and

you cannot afford to be left behind. Watch the course of events. It may mean o you the securing of a fortune or the loss

of what you already possess. Watch carefully the interests of your true friends. They are always few in number, and you cannot do too much for those who have been tested and tried.

Watch above all things your health. It s the most precious possession you can ever

have in this life. Watch for the first signs of a cold, a cough, and symptoms of malaria, pneumonia r consumption, and bear in mind that there but one thing that can check these troubjes quickly, and that is a pure stimulant. Watch carefully those who try to persuade you to take false stimulants, and bear in mind that there is but one pure, scientific, medicinal stimulant, and that is Duffy's Pure Malt Whiskey.

Watch the effects which follow the use of this great discovery, and you will find that if taken in time and according to directions, the annoying symptoms which, unless checked, will lead to certain sickness or death, will disappear, and you will be by this means restored to health and happiness, and thus secure a new lease of life.

SOUTH DAKOTA SCHOOL LAND.

Magnificent Endowment for Educational Purposes Held. CHAMPERLAIN, S. D., Oct. 3 .- (Special.

Hon. J. L. Lockhart, state commissioner of school and public lands, has completed an inspection of the state lands in this vicinity He gives some interesting information con-

cerning the school land and the land turne over to the state in settlement by W. W Taylor, ex-treasurer, Commissioner Lock hart reports that up to the present time the state has received \$2,140,000 from the small portion of the school land which has been sold, and that the average price per acre for all school land sold up to date has been a little over \$14. Should the land yet unsold Omaha, clear North Platte, part cloudy.... Sait Lake City, part cloudy. Cheyenne, cloudy Rapid City, cloudy. Huron, raining bring only the minimum price as provided by the state constitution, \$10 per acre, i would swell the fund to \$30,000,000, while the present average price is obtained for the balance unsold it would make a fund of 'hicago, clear . Williston, clear nearly \$45,000,000. This latter amount at 43 St. Louis, clear, St. Paul, cloudy per cent interest would bring in an annual ncome for the use of the public schools felena, clear Kansas City, clear...

amounting to over \$2,000,000. When the time comes that the income from the fund touches the \$2,000,000 mark the regular school tax will be a very light burden. Even now the income from the fund on hand is alding very materially in the maintenance of the public schools. Thus far this year \$105,000 about \$1 for every child of school age in the

state, has been distributed among the sev-eral counties in the state, and in January about \$60,000 more will be apportioned, although the law requires the commissioner to make only the July apportionment during each year. The prospect now is that there will be quite a demand for school land next spring, and that the price will be fully up to the average received for what has already ocen sold

Speaking of the Taylor lands the commissioner said that he was now advertising the greater portion of them to be sold at public sale during the fall. They must first be of-fered at public sale before they can be sold at private sale. After they have all been offered at public sale, those remaining unsold will be disposed of at private sale if the commissioner can find buyers to take them the appraised value. Thus far but little of this land has been disposed of.

When resort was made to the ournals for this purpose it was the duty of the courts to take notice of everything in the journals with relation to the passage of the law. A resort to the journals of the Wyoming legislature disclosed that the act in question, as enrolled, had never received a vote of a majority of all the members elected to each house, and it was the duty of the court to therefore declare the entire act vold, as not having received the sanc-
