construction of a gigantic "footocycle," which, it is asserted, is the legitimate co'd wat least three battles between "big" teams. It has come to be definitely understood that there will be no game between Princeton and Pennsylvania this year, because of the bitter feeling which has been evidenced since their last contest, in 1894. In that game the Quakers were charged with "unnecessary roughness," and they were guilty of it, indeed, to such an extent that several of the Princeton players were not presentable in society for some time after. Yale has broken with them for the same cause, and Princeton declares, after that terrific struggle that they had had enough of the prize fight style of foot ball in which the Quakers indulged.

As a result there was no game in 1895 or 1898, and though Pennsylvania has made repeated advances the Tigers have rejected.

or 1896, and though Pennsylvania has made repeated advances the Tigers have rejected them all. Harrison Hall, the Princeton manager, has stated emphatically that no action has been taken concerning the arranging of a game with Pennsylvania, and that the schedule, as it now stands, will not be changed. This means that there will be no game with Pennsylvania, and this will be a great disappointment to thousands of foot ball enthusiasts, who con-

The contest with Latayette will probably be hard enough, out then it does not come under the head of a big game, and this is what the undergraduates want.

In the west there will be some fits—twenty first class game.

Omaha gets the Toankrajiving day game between Nebraska and Iowa, and the situation from a local point of view promises to be the best which the hatrons of the game in this city have ever had a chance to enjoy. Omaha is the making of one of the best foot ball towns in the west. > WESTERN LEAGUE MAGNATES MEET. No Action Taken in Regard to Sale of

Grand Rapids Franchise. CHICAGO, Oct. 7.—The annual meeting of the directors of the Western Base Ball league was held in the Great Northern hotel here today. Those present were: Ban hotel here today. Those present were: Ban Johnson, Ton Loftus of Columbus, who was accompanied by Gas Schmelz, formerly manager of the Washington National League club: M. R. Killiea, Milwaukee; Charles Comiskey, St. Paul; W. H. Walking, representing Indianapolis; M. P. Havne and C. H. Saulspaugh of Minneapolis; Manager Kitchell of the Pennsylvania and Ohio Coal company, Minneapolis, was also present at the meeting. The question as to the disposal of the Grand Rapids franchise was not taken up, as Robert Leadley, the former owner, had not filed official isformation concerning the sale of the franchise to M. R. Harriman of Des Molnes. There appears to be no doubt, however, of the bona fide nature of the sale, and it was generally understood that Mr. Harriman, who has plenty of financial backing, will manage the team next year. This will be officially brought before the board at its next meeting, November 10, and will be ratified.

In regard to the stock of John Goodnow of the Minneapolis club, and now United States consul at Sharghai, Mr. Kitchell informed the board that Goodnow some time ago mortgaged his half interest in the team to the Pennsylvania and Ohio Coal Johnson, Tom Loftus of Columbus, who was

ago mortgaged his half interest in the team to the Pennsylvania and Ohlo Coal company. The mortgage has been fore-closed, Mr. Kitchell said, and the company has determined to retain the interest in the club and be joint owner with Messrs, Hayne and Saulspaugh. This, it is said, came as a desarrecable surprise to the latter gentlemen, who have been cherishing hopes of securing the coveted stock for themselves.

Two committees were appointed, the committee on schedule for 18%, which will report at the meeting November 19, and a committee to prepare a petition to the National league. This petition will pray for amendment to the present drafting rules, giving the minor league clubs two years protection from the operation of the draft, instead of one as at present.

This committee will be made up of President Johnson, M. R. Killilee and Marcus Hayne. The gertlemen will go before the National league board, which will meet at Philadelphia November 9, in order to secure better legislation and arrangements in regard to the drafting of players.

On the motion of President Johnson it was decided to obtain a mail vote of all the cilles comprised in the Western league as to the advisability of holding the annual meeting of the league in this city October 21. This was done in order that the affairs of the min or organization would be in sood snape when they were presented to the National league. It has always been the custom to hold the Western league meeting after the National league is held, but this year the magnates of the latter league wish that order reversed.

He claimed to be backed by a syndicate with plenty of money. Nothing was done, however, in the matter. Omaha is not looked upon with favor by the magnates as a Western league city. They would prefer to have an eastern city, such as Toledo, get the franchise, as that would help to balance the number of eastern and western cities in the lague. Contrary to expectations, there were no exchanges of players.

Pixley Gets a Good Lap Back. There was a fine crowd at Charles Stre park last evening and the interest in th park last evening and the interest in the great six-day race is rapidly climbling up to the fever notch. As a preliminary last evening "Old Hose" Gadke made an attempt to lower the state record for a quarter of a mile, flying start, but falled. He made the distance in 0:29 2-5, the record being e.29 flat.

The excitement of the evening in the big race was the regaining of one of his lost laps by Pixley. He accomplished the feat by a magnificent piece of riding and the very material aid lent him by McCall and Sager.

Great Britain's declination to enter a conference unless it is limited to the experts of the United States, Great Britain and Canzda, but also has been informed quite fully as to what led the marquis of Salisbury to this conclusion. The British contention, as laid down before the State department, is that at no stage has the British government made suggestions that the conference should ence. But it is pointed out that these suggestions came from the United States, and until accepted could have no effect in determining the nature of the conference. far as the suggestions were accepted, the clife railroad reorganization committee had to stand alone, and this note, it is stated, mentioned only a conference between the expects of the United States, Great Britain

The latest correspondence on the subject leads to considerable doubt as to who will participate in the coming meetings. It has been understood that the difference would be bridged over by holding two meetings, that 27 per cent on the principal of in one of which Russia and Japan would the certificates of interest of the Union Pasecond meeting would be held between the experts of Great Britain and the United States. It is understood that Ambassador Hay was directed to effect such an arrangement in case Great Britain declined to enter the general conference. But there is some question whether the British conferrees will participate in any way until a definite decision is reached in the general conference, as there is understood to be a reluctance on the part of the British to cooler; northwesterly winds.

TROUBLE AMONG CHOCTAWS ENDED. Progressive Faction Elects the

Speaker of the Lower House. WASHINGTON, Oct. 7.-Indian Agent Wisdom, at Tushkahoma, I. T., telegraphs from a tour of the west, is enthusiastic in the Interior department today that every sign indicated that the war cloud in the Choctaw tribe had passed away; that the lispute as to organization of the general puncil had been adjusted and that the council will continue to stand with a small majority in favor of Governor McCurtain's administration, in favor of progressive measures, the ratification of the Dawes agreement and other reforms. The national attorney of the Choctaw nation, as referee between the factions, decided that members holding certificates were entitled to their seats and they were accordingly sworn in. The lower house perfected its organization by the election of William Martin as speaker by two majority. This is regarded as a signal victory for the progressive party. The contested cases are being considered today, but there is no likelihood that the complexion of the council will be changed.
