Attorney General McKenna Makes Official Announcement of the Government's Purpose Raise the Guarantee Bid.

WASHINGTON, Oct. 9 .- Attorney General McKenna today issued an official statement announcing that the government had decided not to appeal the Union Pacific foreclosure suit, but to allow the road to be sold on November 1, in consideration of the Union town purposes and applied for deeds. Sec-Pacific reorganization committee raising its retary Bliss makes the general statement bid from \$45,765,059 to \$50,000,000. The that it was the evident intent of congress to

Union Pacific railroad:

"There seems to be a misapprehension of the action of the previous administration in regard to the Paulic ratiroads. There was no agreement to sell the roads or the sinkno agreement to sell the roads or the sink-

ing fund of the Union Pacific. NO FORMAL AGREEMENT.

"In consideration of the appearance of the United States in the foreclosure proceed-ings already commenced and the prosecution of its own mortgage it was guaranteed a bid of \$45.754,059.25 at the sale which should be ordered by the court over and above the amount of the first mortgage. This amount included the sinking fund and was based on an estimate of par for the sinking fund and are timestones. \$28,500,000 in addition. There was no formal agreement. It consisted of letters between the reorganization committee and special counsel of the government and Attorney General Harmon, all of which were published in senate document 83, Fifty-fourth congress, second session. The agreement, as I have said, goes no farther than to provide for the appearance of the government in suits brought for the foreclosure of the first mortbonds and bringing suit for foreclosure

'The sale of the property was to be (and must necessarily be; by the direction of the court, as in other foreclosure suits, with the world for bidders.

The appearance was made and the suits instituted as agreed before the advent of the previous administration. This administration, therefore, had to accept and has en-deavored to secure such decrees as it be-Heved the government, under the laws in-corporating the railroads, was entitled to. "It may be disputed as to whether the

agreement to go into court should have been made. It is not disputable as to what the government, after it was in court, could do. There, like any other suitor, the government was subject to the orders of the court. I mean, of course, subject to the orders of the court as creditors. As sovereign its powers could not be affected and have not been by the decrees. We think, therefore, that the action of the government in the situation is very plain. It has not sold its interests. It has enabled all interests to be sold at public auction to the reorganization commit tee or to any committee or to anybody or association which or who may bid the high-

ENDORSED BY RECEIVERS. "In what I have said I do not mean to

Imply criticism of the previous administra-tion. What it did it no doubt did on ma-ture reflection and in sincerest judgment and its action was recommended by both the receivers who had been appointed upon the application of the United States and was unanimously recommended by the five Now as to the relation of the government

to the decrees. They as rendered were in many respects gratifying-exceedingly sobut in other respects were not as the gov-ernment strenuously contended for. For instarce, the Omaha bridge mortgages, amount-ling to about \$1,200,000, were adjudged to be superior to the lien of the government on that part of the road between Omaha and Council Bluffs, and in addition the money and assets in the hands of the receivers accruing from the operation of the roads were and "Banking," which are being sent bread-ordered to be sold instead of being reserved cast over the country to bankers, merchants, course, would become important if the price bid at the sale should not equal the govern

'Dissatisfied with the decrees therefor the government considered the propriety of an appeal and had indeed prepared the papers for such appeal. The reorganization committee learning this, came forward with an increased bid of over \$4,000,000, making the total of their guaranteed bid \$59,900,000 of \$45,754,059.99., an increase

This increase removed the objections to the decrees so far as the money contentions were concerned. In all else the decrees were just and satisfactory. Under these cir-cumstances an appeal did not seem justified 'Regarding a higher bid, the prospect of seems as great now as it would be later These considerations determined the govern ment. It must be remembered that the gov ernment's lien is a second one subject to first mortgage of \$33,000,000. The advantage it has secured, therefore, is, to repeat som what, that at the sale under the decrees of foreclosure there will be a bid for the roads of \$50,000,000 over and above the first mortgage, besides the benefit of absolute freedon

LANDS BELONG TO THE TOWNSITE. Secretary Bliss Decides Cases from oklahoma.

WASHINGTON, Oct. 9 .- The averetary of fisher, Okl., against E. D. Whipple, James A. Norris, Joseph Kaufman, James A. Reese, W. D. Cornelius, William Kinman, William Savage and Marion Moxley, involving Oklahoma park, a twenty-seven and one-half-acre tract forming part of the city. The depart-ment holds that none of the applicants were bid from \$45,700,053 to \$50,000,000. The road, he anded, is to be sold to the highest bidder, but with a minimum bid guaranteed as stated.

The attorney general gave out the following statement relative to the sale of the Union Pacific railroad:

that it was the evident intent of cougrons to limit the acreage for parks and schools to twenty acres on all townsites when the necessary surveys of lands embracing these were made after May 2, 1850, but under the act of May 14, 1850, trustees were empowered to approve such surveys of lands for townsite purposes as may have been already made. by municipal provisional authorities, and if

POLITICS IN GREATER NEW YORK.

Republican Nominations Ratified at a Big Mass Meeting. NEW YORK, Oct. 9.-The republican municipal nominations were ratified tonight at a mass meeting at Cooper Union. Every seat in the big hall was occupied and the assemblage was a very orderly one. The ecveral candidates as they made their appearance on the platform were received with

cheers. Senator Joseph B. Foraker of Ohlo was the principal speaker. The most remarkable thing that occurred during Mr. Foraker's speech was the wild cheers that broke out among the audience when the speaker mentioned Henry George The body of the bell was well filled with subsiding there were a few hisses. At the mention of Seth Low the occupants of the auditorium broke out into cat calls, hisses and shricks of derision. "Traitor," "Back-slider" and "Mugwump" were howled again and again. General Tracy's name evoked general enthusiasm and he was cheered by the entire assemblege. He spoke at length

and was well received.

The leaders of the united democracy an he democratic alliance who first nominates lenry George were furious this morning over their desertion by him, but the George lead ers say these organizations will remain in ine. A meeting held tonight by members of the two organizations to protest against the ommittee's action did little but Henry George. Pegram, of the Union Pacific was attached to the fast mail this morning. It is the inten-tion of the chief engineer to make a pre-liminary survey of the cut-off line from Lookout to Carbon, and his car was sidetracked at Carbon. By straightening the between these two points at least fifteen miles can be saved and at the same time the pull up the other side of the Lookout hill can be avoided. This work is expected to be completed as soon as possible after the reorganization of the road, and will cut the mileage of the Sixth district down to abou

Present of Heifers for the Indians FORT WASHAKIE, Wyo., Oct. 9 .- (Spe. dal.)-The Interior department has made the Shoshone Indians of this agency a present of 250 stock helfers. It was intended that they should be turned over to the Indians this fall, but last week the Indiana held a souncil and decided that in view scarcity of grass and the probability of a severe and early winter, it would be better to wait until spring. The commissioner has approved their action and the cattle will be issued to the Indians in April of next

SHEEP IN TRANSIT. Wyoming Cattlemen Up in Arms Over the Devastating of the Range. BADGER, Wyo., Oct. 9 .- (Special.) -- Dur-

ing the past three months large bands of trailed through the northern part of Larawas tertaining gloomy fears for the coming win-gling ter. The sheep are still coming, a band of 5,000 having been driven from Glendo to Badger today. The men trailing them re-ceived rough treatment from the cattlemen between Douglas and the Horseshoe distwo days and nights without being allowed to water their stock. The cattlemen are preparing to resist the encroachment of the sheepmen upon their ranges, and are sup-They have fenced up portions of range leading to the water gaps, and if the sheepmen tear down these barriers, as they threaten to do there will be serious trouble It is estimated that nearly 1,000,000 head of sheep have been trailed into Wyoming ing the past summer from Oregon and Idaho. Many of these sheep were shipped by rail from Casper to the Nebraska feeding grounds, but a large number have been trailed the

entire distance. A ranchman living on Horseshoe creek when asked about the sheep invasion said: Matters are beginning to look desperate for stockmen owning ranches along the newly established sheep trail from Casper to Nebraska, and unless the sheepmen are checked heir stock will be trailed backward and forward across this trail through the central portion of Wyoming and through its finest grazing grounds. Should this become the established route, the ranges lying adjacent to the trail will be completely destroyed and the ranchmen of the doomed district will be esten out of house and home. The trouble has become so serious that the ranch-men between Douglas and Glendo are ready anchmer. We are going to lease or take up the remaining gaps and if the sheepmen at tempt to get to the water across our lands they will have to pass the muzzles of heatile rifles. If we hold the water gaps the sheepstreets. men will be unable to get water in this par of the country and will be forced to abandon the trail and will send their sheep by rail
