Colorado Has a Few Which Traveler, Have Been Unable to Scale

The terrible Jungfrau of Switzerland is but 14,000 feet high, yet travelors from all over the world journey to Interlaken to climb it or say they have sat in the hotel and wished that they might climb it. Mont Blanc, in the same delightful little Euro pran republic, is forever quilted with snow and for this reason is one of the most seduc tive features of trayel to the neighborhood of Geneva. The Chor health resort, on the east side of the Swiss republic, is visited thousands of invalids because it is one the loftlest and noblest of European by sanitariums.

Then, why should not every American who has money to spare and the desire to make a journey out into Colorado strap a pair of mountain boots on his legs, put a spike on an ash suff and attempt to climb Mount Blanca, in the southern part of that state. Mount Blanca, says the Denver Times, is over 14,400 feet high. Or, if be does not desire to take the risks of this perilous ascent, why should not he come up into the northern pat of the state, place his field glasses in his hands and gaze on the glacier and the perpetual banks of snow that cover Mount Halley?; Or, if tourists be possessed of reverence and piety, why may they not locate, in central Colorado and fix their eyes upon the great white cross that indents the mount of the Holy Cross at an elevation of 14.176 feet? If it is the duplicate of Chor that tourists

seek, Manitou, in this state, rests at shops. The animal became detached from a dreve which was being driven to the Na-tional stock yards by way of the upper ferry. The cowboys did all in their power to lasso the steer, but did not do so. It ran down among the curs and afterward headed for the Douglas school, where the children yelled and screamed for assistance. It was then in a fairly open roadway, and three first-class drivers with two trained dogs attempted to head the animal off and drive it back to the levee front and all the teamsters pulled out and gave the steer as much of the road as foot of Pike's Peak for them, and is itself by starting upon their ascent.
