A dispute has arisen at Hastings between Superintendent Damarell of the asylum and the contractors who are putting up the new addition to the building. Damarell insists that some of the inside walls are much thinner than these called for in the specifi-cations, while the contractors say they are doing the job according to contract. In order to settle the matter Secretary of State Porter and Treasurer Meserve went to Hast-ligs today taking the copy of the plans and specifications with them. They will be med at Hostings by Land Commissioner Wolfe who is at present in the western part of the state making new leases to the old tenants of the state school lands.

PATCHING UP COUNTY TICKETS. Gaps Caused by Withdrawals Are

Filled by Central Committees, KEARNEY, Neb., Oct. 14.—(Special.)— While there seems to be every probability that the republicans will elect most, if not all, their ticket this fall, two of the regular nominees have resigned and the vacancits have been filled by the committee. The first to resign was Edward Carter, who was nominated for register of deeds. He is station agent for the Kearney and Black Hills Kailroad company at Amherst and the company objected to his running for office and holding his job at the same time. As he is making about as much now as he would if elected and can wave all the expense, time, worry and abuse of a campaign by withdrawing, he concluded to do so. The committee selected George E. For 1 to fill the vacancy and he is making a good strong race. The other withdrawal was that of Hon. Simon Cameron of Broken Bow, who was nominated for dis-trict judge. The reasons for his withdrawing are purely personal. He says the momi-nation was given him without his asking for it and almost without his knowledge, and he mittee put in his place William Gaslin of Kearney, one of the pioneer judges in the state, being judge in the Tenth judicial district for sixten years. He is now city at-torney here and will poll asstrong vote. Democrais and populists are still fighting each other and the populist ranks are divided between the fusionists and middls-of-the-road-

There are more kinds of shams in Black Clay Worsted than in any other suit of clothes that is produced. You can't detect it from the genuine with the mere eye and the hand. You can only be safe and sure when you buy of a house that you can trust-one that if it unknowingly sells a suit that proves unsatisfactory, replaces it either with a new one, or your money back. We have a Genuine Clay Worsted for \$7.00 a suit, in all fashions of cut, which we are enthusiastic in recommending, because we are sure of its wearing, looking, and pleasing you to your entire satisfaction,

Now then, add to the above facts that the price is \$7.00, instead of \$9.00 or \$9 50. Don't you think ours the place to buy?
