Board of Public Lands and Buildings Thinks it Can Light Five Institutions from One Cen-

tral Station.

LINCOLN, Oct. 23 .- (Special.)-The Board of Public Lands and Buildings is figuring on the feasibility of putting in one central lighting plant to furnish electric lights for the five state institutions located here, namely, the state capitol, asylum, university, penitentiary and Home for the Friendless. is estimated that the expense of one central station of large capacity would be no more than for two small plants, and much less than for five. The plan would do away with the large gas bill that has to be paid now for the capitol building. Draftsman Schleagel is at work today measuring the distances between the various institutions. in order that an estimate may be made on the expense of the new plan.

The governor has honored the requisition of the governor of Illinois for the return of John Maloney to the Sucker state to answer the charge of attempted robbery. fense was committed January 1 and Maloney escaped arrest. The requisition states that

he is now in custody at South Omaha.

The secretary of state decided that the republican ticket was entitled to the first column on the new ballot, but the fusion chairmen have notified all the populist county clerks that they need not recognize the cision of the secretary of state, and that they should have the ballots in their counprinted with the populist ticket occupy ing the first column. In accordance with this order circulars have been issued in many of the populist countles notifying the voters that such will be the arrangement of the ballot. One of these circulars has been received at republican headquarters, which had been issued by the chairman of the fusion party of Red Willow county and who also the county judge of that county.

An lowa man, who travels over most of this state and who takes a great interest in sheep raising, was taking about the sheep and wool industry at the Lindell last night. He said that from a careful estimate he had figured that since the Ding'ey bill was enacted there have been bought and shipped nto Nebraska 900,000 head of sheep and that large number more have been contracted or. He said the percle did not realize that sheep raising had suddenly become one of the leading industries of the state and that it will result in a large increase of wealth in single year. The average value of sheep this state is \$3.50 a head and, according to his figures, the flocks brought into the state in the last three or fou months are worth over \$3,000,000. He figures that the profit on each head of sheep is \$1 a year under the precent conditions and that the passage of the new tariff was a wonderfully good thing for the state of Nebruska. He believed that the buying of such large numbers of sheep and other live stock by the citizens of the state, who we e at the same time paying off their old debts and largely increasing their bank deposits, was conclu-sive proof that there was plenty of money in the country and that prosperity had struck

YORK BANK SWINDLER BOUND OVER.

George B. Henry is Known to Have Operated in Many Towns. YORK, Neb.; Oct. 23.—(Special.)—George B. Henry, the bank swindler, had his preliminary hearing this morning before the county court. He waived examination and was bound over to the next term of district court. His bond was fixed at \$1,000. In the charges filed against him there are three

counts, alleging him to be guilty of forgery.

uttering forged paper and attempting to obtair, money under false pretenses. Henry has an interesting history. His lever swindle at York, where he obtained \$460 on a forged draft from the First National bank was but one of many operations of the same character which he has curried on in different parts of the country. His capture rids the bankers of the United States of the last of the systematic swindlers and rgers that have been operating in the past cade upon banking institutions. The Na-Bunkers' association, under direction the matter was put into the hands of the Pinkerions, feels elated over his capture. The officials of the York bank have

on very aggressive in pushing the matter, istion and the detectives, have spared no ains or expense. On last Saturday Assistant Superintendent irle of the Pinkerton agency, who had been detailed for this case, wired the York bank that the man had been traced to Hampton. III., a small town ters miles north of Rock island, where he was living with a family. President Post, who was at the time on a fishing trip to the Loup river, hurried to Rock Island to meet the detective. Henry was away from Lome and it was not until hurway that he was apprehended at Rock

Island on his way back to Hampton. He at first denied all connection with the York ffair, but upon being shown the evidence uilt and agreed to accompany the officer to ork without a requisition. He exonerates. R. Clark, the man who introduced him to he cashier of the bank, from complicity in ated in the last two years under assumed

names upon banks in Denver, San Anionio, Tex. Atlantic, Ia., Aberdeen S. D., and also in Burlington, Ia. His game in general was the same so he worked here, the depositing of a forged draft and the withdrawal in a day or two of part of the deposit. Henry is good talker and of meek, inoffensive de He has dark hair and eyes, and then in York last March was smooth shaven. He now wears a moustachs. The forger has appeared under the names of P. A. Sullivan, E. A. Collins, Charles A. Adams and W. S. Sweeney and others.

In 1889 Henry was arrested for forgery in his home county and received a sentence of Ben Johnson reported to the police that three years in the penitentiary. He are soap to look emaciated and got a pardon in the differences and several articles of jew- course of six mostles on the grounds that he eiry taken. number of pastors gave testimony as to how they had been helped by the Endeavorers. B. I. Cogswell of Beatrice presented briefly few suggestions as to what a Sunday chool superintendent expects from the Endeavor society. Mr. T. A. Vincent of Senect, Kan., president of the Kansas Christian Endeavor union, spoke on "What Does Chris-tian Endeavor Stand For?" In an earnest nd forceful manner he presented the high ideals of a true Christian life.

"Loyalty to the Piedge" was presented by ev. G. W. Dell of Nebraska City. He showed how the pledge was to be kept and urged upon the Endervorers the help that comes from trying to carry out the promises ontained in the pledge in the broadest sense, and not narrowing it down to a mere keeping of a promise. Rev. J. W. Hilton of Bethany presented a well prepared paper on "Christian Endeavorer and the College." At 11:15 a review of the year's work was taken up and President A. D. Harmon was

given a hearty welcome as he appeared upon the platform. He presented the following changes for the constitution and recomchanges for the constitution and recommended their adoption; which was carried:

1 That the article that makes the president and secretary a committee on information concerning transportation be repeated and that they be constituted a committee on transportation with full power and in charge of all matters of transportation concerning state and national conventions.

2 That the transportation committee be instructed to declare no official route nor enter into any stipulations concerning same until it has received definite information from the general secretary that the general rate has been secured.

3. That the president be made a committee on badges, but no badge or badges are to be sold or given to any person to be worn

LINCOLN, Oct. 23 .- (Special Telegram.)-

In the Dorsey case considerable testimony was handled today, but the state has not rested its case yet. W. E. Barkley, assistant receiver of the Ponca bank, was on the stand nearly all day engaged in looking over the books of the bank and tracing the notes and showing what ones were on hand December 9, 1892, and March 6, 1893, two dates upon which Cashier Dorsey is said to have sent to the compiroller of the currency false re-ports as to the financial status of the bank. The notes which Mr. Barkley said were on hand but not reported were signed by the different directors, either as principals sureties. The government avers that the notes aggregated something like \$35,000 or \$40,000, while the comptroller received a report that the directors' liabilities amounted to only \$10,000. Yesterday evening Mr. Bark ley was also on the stand for the purpose of showing that the rediscounts reported to the

Just a Little Pain.

The first touch of Rheumatism is a fair warning of much torture to follow. The little pains which dart through the body are not so severe at first, possibly a mere pang, and cause little inconvenience, but if the warning is unheeded, they will multiply rapidly and increase in severity until they become almost unbearable.

Rheumatism as a rule is much severer in winter, though many are so afflicted with it that they are crippled all the year round. Those who felt its first touch last year may be sure that with the first season of cold or disagreeable weather, the mild pain of last year will return as a severe one, and become more and more intense until the disease has them completely in its grasp. Capt. O. E. Hughes, of Columbia, S. C., says:

"At first I paid very little attention to the little pains, but they became so much sharper and more frequent that before long I was almost disabled. The dise-se attacked my muscles, which would swell to twice their natural size, and give me the most intense pain.
"I was ready to doubt that Rh umatism

could be cured, when I was advised to try S.S.S. This remedy seemed to get right at the cause of the disease, and soon cured m: completely. I believe that S. S. S. is the only cure for Kneumat.sm, for I have had no return of the disease for

Being a disease of the blood of the most obstinate type, Rheumatism can be cured only by a real blood remedy. No liniments or ointments can possibly reach the disease. Swift's Specific (S. S. S.) is the only cure for Rheumatism, because it is the only blood remedy that goes down to the very bottom of all obstinate blood troubles, and cures cases which other reme-

dies cannot reach. The mercurial and potash remedies, which the doctors always prescribe for Rheumatism, only aggravate the trouble, and cause a stiffness in the joints and aching of the bones, which add so much to the distress of the disease, besides seriously affecting the digestive organs.
