The blennial convention of the World's The biennial convention of the World's Woman's Christian Temperance union was formally coened in the pavilion at the Horticultural gardens today. The building was thronged when the convention was called to order by Miss Frances E. Willard. The convention has taken a hold of the city and the greatest interest is displayed on all sides. The platform was filled with executive and other official weekers prominent among whom other official workers, prominent among whom were Miss Agnes Stock of England. Mrs. Kirk of Australia, Mrs. Parker of Chicago, Mrs. Barnes of New York and Mrs. Johnnsdottir, the Iceland representative. Thousands of men and women are afficied with some sort of piles, without either knowing the exact nature of the trouble, or knowing it, are careless enough to allow it to run without taking the simple means offered for a radical cure.

The failure of saives and outstments to permanently cure piles has led many to believe the only cure to be a surgical operation.

Surgical operations are dangerous to life and possessy and offen entirely successful.

The executive committee has authorized.

and moreover not often entirely successful and at this time are no longer used by the best physicians or recommended by them. The safest and surest way to cure any case of piles, whether blind, bleeding or protuding, is to use the Pyramid Pile Cure, composed of healing vegetable oils, and absolutely free from mineral poisons and coplates. The following letter from a Pitts-burg gentleman a severe sufferer from bleed-ing piles, gives some idea of the prompt, effectual character of this pile cure. He

The first national convention of Japanese women was held in April last, and marks the most significant temperance epoch in that wonderful new land, which is oldest of all and it is spreading in the islands of the Pacific.

She then reviewed briefly the work of various delegates in foreign fields, and coninuing, said:

various delegates in foreign fields, and continuing, said!

The cause of peace has won great victories this year. The arbitration treaty with our mother country is only lying over; already we have reason to believe that, through the influence of the president arrangements are being made for the presentation of another treaty of wide scope. The Storthing of Norway has appointed a committee of nine to consider the question of forming arbitration creaties with foreign nations and to submit propositions to that end. France is moving in the same direction and the recent declarations of the carr and the emperor of Germany are unmistakably in favor of pacific measures, while the treaty between Turkey and Greece recently promulgated by the powers is a peace triumph, even though it registers the subserviency of Christian nations to the great rooslem blerarchy.

PROGRESS IN NORWAY.

Norway has called in the help of women in its efforts to solve the drink problem, all above 25 years having been made voters on the temperance question and by the united efforts of temperance men and women the Gottenburg system will disappear and probibition will be the law of Norway.

onnoyer Testifies Before Senatorial Investigating Committee. The investigation yesterday morning by the enatorial committee into the inner workings of the Bureau of Animal Industry at South Omaha brought out reminiscences of the amoaign of 1895, as well as of 1896, and developed that there was considerable personal feeling between many of the employes. The principal witness of the morning was Charles Connoyer, chief clerk to Don C. Ayer, and his testimony was largely in defense of the actions of his chief. Other witnesses were William Holmes, J. Arthur Tucker, Thaddeus Perrine, Charles Feich,

James Kunes, James D. Murphy. In the afternoon David Parkhurst, president of the Live Stock exchange; Frank Jellen, stock examiner, and Ed Schibsby, were examined, in addition to sev eral of the other witnesses who were re-called to make some additional statements. Mr. Parkhurst testified to the fact that the general opinion among the members of the stock exchange was that Ayer was incom-petent for the position he was holding. Mr. Parkhurst also testified to his belief that the stationing of examiners at the stock scales was unnecessary, and that these places could be dispensed with without injury to the service. This part of his examination had no direct hearing upon the issues involved, but Senator Priichard considered that the
