THE ICE CARNIVAL.

Cast Your Ballots for Queen Polaris Today can be found the coupon ballets to sugard in the voting contest which is to choose from among the fair ladies of Omaha the people's favorite for the exalted posi-tion of queen of the land of the Midnight Sun. The Bee will furnish the ballots in sufficient quantities to satisfy the demands of the adherents of the different candidates for the imperial throne. These coupons will be published from day to day in the morning and evening editions of The Bee on page 2, and the coupons can be placed in the ballot boxes prepared for their reception in the business office of The Bee or at the cardival head-quarters in the lobby of the Hotel Milard. That a close count can be kept upon the vote the results of each day's voting up to the hour of 6 p. m., will be published each morning. The reign of the sovereign, Queen Polaris, will be during the four days' carnival at the Transmississippi and International Ex-position grounds January 18, 19, 20 and 21, 1898. All who are interested in bringing 1898. All who are interested in bringing sands of visitors to Omoha during carnival week should begin now by joining in the friendly contest and continue until it is decided who is to be the favored one that will wield the scepter of Aurora Borealis. The wield the scepter of Aurora Borealis. The maids of bonor will be chosen from among carloned excursion conductor relieves you bors from the city and county. The queen and her consort will have a large following and court as the different uniformed skating, toboggan, ski end curling clubs will form

Its joyous and gay revelry.

The palace will be erected upon the island. in the center of the lagoon, with ice balus-traded bridges leading from the mainland to either side, while a grand stal case will lead from the surface of the lag on up to the east ern entrance, flanked with ice statuary of he role preportions. The turrets and battlements of the calace will be enhanced in beauty by many new and novel electrical effects. The architectu al beauties of the exposition buildings, which surround the court of honor, with the illuminated palace of ice as the piece de resistance, will form a picture that will never be forgetten and will give the spectator the impression that the whole scene is taken from the choicest conceptions found in the "Arabian Nights."

The cally adds entering the city have from the very first been enthus astic in support of the exposition, as is evidenced by their very liberal subscriptions to the fund, and it is safe to assert that during the coming fes-tive season special low excursion rates will be given that all may attend the carnival. They fully recognize the fact that the winter's festivities will do far more towards adver-tlaing the beauties of the exposition than can be obtained through any other source, as every visitor will be a living speaking advertisement for the exposition proper, which will be without doubt the second largest ever held

on this side of the Atlantic and will be by far the handsomest in ensemble. Norris & Love, the gentlemen who have the entire charge of the detail work of the carnival, are two well-known amusement managers, who have a world-wide experience and come here to close contracts upon sev-eral large concessions with the exposition, and when the possibilities of the lagoon for a winter carnival presented themselves the matter was at once acted upon. The idea quickly took hold upon the people and the present status of the case shows that the success will be far greater than even the most supports and the present status of the case shows that the success will be far greater than even the most supports and fewer during the status of the case shows that the success will be far greater than even the

meet sanguine had figured upon.

The country press will be asked to hold voting contests for maids of honor to represent the different towns in the grand cortege and ceremonies incidental to carnival week, and it is to be hoped that the interest in our sister towns will be as great as is shown in the city.

Western Electrical Co., 1510 Howard st, ASSESSORS FOR SOUTH OMANA. Each Political Party Can Have Four

Candidates.

An important matter in connection with the assessorship of South Omaha was determined by Judge Baker yesterday. The point was unique in that it called for a reduction of public offices in place of the usual request for an increase. Judge Baker decided that the packing house city should have four assessors in place of one. The matter came up in the form of an application of Chris M. Raff for a writ of mandamus, ordering the county clerk to receive his nomination by petition for the office of assessor for the city of South Omaha. The petition had been offered, but the county clerk had refused it on the

grounds that there was no such office as "assessor of the city of South Omaha."
Raff's contention was that the statutes provided that South Omaha should have but one assessor. He alleged that in accordance with this construction, the city had elected but one assessor for the last ten years. Lately, however, the county attorney gave it as his opinion that the statutes called for one assessor in each ward in the city, thus giving South Omaha four assessors. In tine with this determination four assessors have been noni-nated by each of the political parties. Judge Baker upheld the opinion of the county at-
