An endless variety of new effects | from \$3.50 up to..... 5.00

HAYDEN BROS.

MANY CHINESE ARE COMING They Will Represent the Arts as Practiced in the North of China. WILL BE ON HAND AT THE EXPOSITION Wong Chin Foo Secures Permission to Import His Countrymen to Take a Part in Next Year's Great Show.

The Treasury department has granted to Wong Chin Foo, the Chinese commissioner for the Transmississippi Exposition, permission to import 250 of his countrymen into the United States by way of Seattle, Wash. Several weeks ago he sent an agent to China instructed to admit 250 people from China and issue certificates entitling them to remain in this country during the exposition. Foo is instructed to furnish the collector with a copy of his concession contract and with a list of the people he wants admitted.

Notes of the Exposition. The Department of Publicity and Promotion received a letter from H. B. Pollock of Stuyvesant, manufacturers of oriental goods, stating that they have directed their agent in Chicago to negotiate with the exposition authorities for space for an exhibit.

SEWER IN WORKING ORDER AGAIN. Water is Once More Allowed to Flow into the Lagoon. The sewer which is to drain the lagoon in the main court of the exposition grounds is again in working order and the water was turned into the lagoon yesterday.

surface of the Mirror will be unbroken by any obstructions. The artisans well and the 2-inch pipes which were used to fill the lagoon in the first place constitute the only source of water supply, and some time will necessarily elapse before the lagoon is filled to the top of the banks.

FAVOR THE BOND PROPOSITIONS. County Commissioners Issue an Address to the Voters. The members of the Board of County Commissioners have prepared and issued an address to the voters of the county upon the two bond propositions which are to be presented at the coming election, and which will require a two-thirds majority of the votes cast to pass. The address is as follows:

Notes of the Exposition. The Department of Publicity and Promotion received a letter from H. B. Pollock of Stuyvesant, manufacturers of oriental goods, stating that they have directed their agent in Chicago to negotiate with the exposition authorities for space for an exhibit.

SEWER IN WORKING ORDER AGAIN. Water is Once More Allowed to Flow into the Lagoon. The sewer which is to drain the lagoon in the main court of the exposition grounds is again in working order and the water was turned into the lagoon yesterday.

ASKS FOR A PUBLIC HEARING. Populist Investigating Committee Shut Off on Secret Sessions. APPLIES TO THE COURTS FOR RELIEF Prof. Gillespie Asks an Order to Prevent Star Chamber Investigation of His Conduct of Deaf and Dumb Institute.

OTTO MUTZ, chairman of the legislative investigating committee appointed to investigate state institutions, was prepared to make a further secret and star chamber investigation of the affairs of the institute of the Deaf and Dumb, from which Prof. Gillespie was recently removed. This plan has been frustrated by Prof. Gillespie, who has made application for an order from the district court, instructing that the further investigation shall be made by the full investigating committee, and not by Mutz alone, that he, Gillespie, shall be admitted to all the sessions in order that he may be given an opportunity to cross-examine the witnesses produced by the committee, bring witnesses in his own behalf and explain his accounts, and that he may be given access to his own books and accounts that he may check them up. The members of the investigating committee, consisting of Otto Mutz, chairman; C. W. Bond, D. S. Zimmerman, C. P. Wheeler and O. S. Macan, were cited by Judge Keyser to show cause before Judge Dickinson yesterday afternoon why this order should not be issued.

INVESTIGATING POSTPONED. When the matter came up in the afternoon Attorney General Smyth appeared in behalf of Mutz and the investigating committee. He urged to allow without regard the issuance of a portion of the order, instructing the committee to admit Prof. Gillespie to the sitting, to cross-examine witnesses and to introduce others in his own behalf. He desired to make a showing, however, on that point of the order which provided for the turning over of the books and accounts of the institute to Gillespie in order to permit him to check up. By agreement with Prof. Gillespie's attorney he was allowed until November 8 to make a showing.

INVESTIGATING POSTPONED. When the matter came up in the afternoon Attorney General Smyth appeared in behalf of Mutz and the investigating committee. He urged to allow without regard the issuance of a portion of the order, instructing the committee to admit Prof. Gillespie to the sitting, to cross-examine witnesses and to introduce others in his own behalf. He desired to make a showing, however, on that point of the order which provided for the turning over of the books and accounts of the institute to Gillespie in order to permit him to check up. By agreement with Prof. Gillespie's attorney he was allowed until November 8 to make a showing.

COURTS A FULL INQUIRY. In view of the charges that have been made Prof. Gillespie insists that he should be given an opportunity to be heard at the further investigation that is to be made. He says that during the time he was connected with the institution his student body increased from thirty to 166, and the appropriations made for it by the legislature correspondingly increased. These appropriations had been expended and managed by him under the direction of the State Board of Public Lands and Buildings, and his reports have always been approved by them, indicating that the management was correct. Moreover, he expresses his willingness to appear before any proper court of inquiry or any proper investigating committee to explain all his acts connected with the institution, and is ready to show that none of his acts were irregular or that any discrepancy or shortage occurs in his accounts, except what might be found by a balancing of his books. He has had no opportunity, he says, to balance the books, as they were taken from him when Mutz arrived. After the latter made his alleged partial report, the books were turned over to Gillespie, but before he had finished checking them up they were again taken away, and he says he has been refused further access to them.

TUITION FEES ARE DEMANDED. Non-Residents Must Pay if They Attend the City Schools. The action of the Board of Education in deciding on a rigid enforcement of the rule compelling non-resident pupils to pay tuition in the city schools is already raising all kinds of trouble. Acting on the instructions of the board the principals have notified all non-resident pupils that they cannot be received into the schools until their tuition is paid. A number of tuition fees have been paid, but a large number of children are out of school.

IN THE HANDS OF CITY ATTORNEY. OMAHA, Oct. 26.—To the Editor of The Bee: Referring to the editorial paragraph in last Evening's Bee, inquiring what had become of the investigation of the lock bills for stationery and printing, I would say that under a report of the Finance Committee, the city attorney was authorized and ordered the necessary assistance to go through the back bills of the stationery and printing contractors, with a view to ascertaining if bills had been correctly audited, it being a legal question as to what items should properly come in under the contract. The matter is now in the hands of the city attorney.

Dr. Davis' Anti-Headache is superior to every other for all remedies for headache.

BLANKET BALLOT APPEARS Seven Columns Wide with the Emblems of Six Political Parties. RESEMBLES AN ADVERTISING POSTER Question of Paying the Police at the Polls is Submitted to the County Attorney for an Opinion.

The first sample copies of the official ballot for the coming election were received by the county clerk yesterday and there is already a lively demand for them. As this is the first appearance of the blanket ballot in Nebraska hundreds of voters who are not entirely familiar with the new system are asking for ballots in order that they may vote intelligently on election day. The new ballot is a somewhat striking typographical production, and with the prominent use of party emblems, at first sight it might easily be taken for an advertising poster. The sheets are 18x24 inches, and each contains seven columns to accommodate the tickets of the various parties and political candidates. The republican ticket occupies first place at the left of the ballot, and the populist, democratic, silver republican, prohibition and national democratic tickets follow in the order named. The last column at the right is reserved for petition candidates. The prohibition and national democratic parties are only represented by a state ticket, leaving a straight issue between the republicans and fusionists on county and precinct offices. The ballots for the various wards and precincts are similar, except in respect to the minor offices. Acting on the opinion of the special attorney for the Board of County Commissioners the ballot propositions have been printed on a separate ballot, instead of being tacked on at the foot of the main ballot. Owing to the immense size of the ballots the county commissioners have been obliged to have larger ballot boxes made especially for their accommodation.

PAYMENT OF THE POLICE. The fact that the city has no interest in the election bills upon the ground of the sheriff or the appointment of special police. These officers have previously been appointed by the mayor and Board of Fire and Police Commissioners, but in the case of special police will be taken by these officials. This leaves the matter to the county authorities and there is some question whether the appointment of special police is the duty of the sheriff or a function of the Board of County Commissioners. County Attorney Bellidge has been asked to give a written opinion on the matter and the county officials will be guided by his advice.

INCORPORATE AN INSURANCE COMPANY. Articles of incorporation of the Standard Life association, a corporation that is to engage in the life insurance business on the mutual assessment plan for a term of thirty-five years, have been filed with the county clerk. The company will issue certificates for \$100,000 and will increase the amount to \$500,000. The incorporators are William M. Hartzel, Joseph H. Hartzel, Irving G. Burgett, Frank H. Chastfield and E. J. Gilman.

DECLARES THAT HE WAS ROBBED WHILE WALKING THE STREETS. Joe Tomard arrived in town Monday, en route to Atkinson, Neb. He decided to stop over for a couple of hours and round up a few of the pleasures of the great metropolis. Now he regrets this decision, for he declares that he was not only dragged and robbed but was shugged and thrown into jail.

BODY WENT UPON THE TABLE. A communication was received yesterday by Chief Gelsbacher from Tom T. Anthony, 267 Lexington avenue, New York City, which requests that light be thrown upon the death of John T. Roberts, which occurred in this city August 23. A letter from Coroner Barker was enclosed which had been sent at the time of Roberts' death to a sister, Eunice Roberts, also of New York City. No explanation was given as to the disposal of the body. It was upon this that more light was asked. The records of Coroner Barker show that Roberts died in the city of Omaha. His body was given up to the coroner's office, although supposed to be accidental. After an inquest was held the body was turned over to the Omaha Medical college upon order 137, signed by the coroner.

JUDGE STUBBS'S DECISION STANDS. Judge Stubbbs has dismissed the appeal which was taken to the district court from the decision in the county court in the matter of the estate of Emily Briggs. After a long and exciting trial Judge Briggs decided that the signature of Emily Briggs to her will and testament was not legal, and therefore declared that the will should be set aside.
