JAPAN HAS MADE NO REPLY AS YET. May Have Decided Not to Press Protest Against Annexation.

WASHINGTON, Oct. 27.—The Japanese legation has received no recent information relative to the status of Japan-Hawaii relations. A letter came yesterday from Mr. Shimamura, the Japanese representative at Honolulu, but it made no mention of the reported agreement by which Japan and Hawaii would arbitrate all differences on the immigration question. It is the general understanding, however, that an amicable solution will be reached, if it is not already concluded.

Important recommendations, was submitted to a committee of three for preliminary consideration.

Secretary Sherman was at the White house early and brought with him quite a packet, which was supposed to contain the reply of Spain to Minister Woodford's note.

ASSERTS TRACY WILL WIN

Quigs Figures Out Good Plurality for the Republican Candidate.

SAYS LOW'S VOTE CUTS LITTLE FIGURE

Holds that it Will Beat Van Wyck Worse Than Tracy—General Sickles Comes Out for the Latter.

NEW YORK, Oct. 27.—Following a long caucus of republican district leaders today President Quigs of the republican committee tonight gave out a statement in part as follows:

"Repeated canvasses show that Tracy's strength is growing and that Low's support, which has never been large, becomes smaller every day. There are only two assembly districts in New York City in which Mr. Low will have any substantial support. These are the Twenty-seventh and the Twenty-ninth. In those districts, they being the districts in which practically the whole of the Low vote will be thrown, the net effect of Mr. Low's candidacy will be to increase the majority of the republican party over Van Wyck. Low's vote will be smaller than Van Wyck's in each district. We shall carry New York City by a plurality of 30,000 votes."

"The fact that the majority of the republican party will leave the two great parties, as to compare strength, is a matter of course. Under normal conditions, that George's vote will reduce Van Wyck's as to give us for Tracy a rate plurality of 30,000 votes."

"General Frank E. Sickles today announced that he would vote and work for General Tracy and the whole republican ticket."

"The fact that the majority of the republican party will leave the two great parties, as to compare strength, is a matter of course. Under normal conditions, that George's vote will reduce Van Wyck's as to give us for Tracy a rate plurality of 30,000 votes."

STORM CEASES AT DENVER

Wind Up of the Recent Blizzard in Colorado's Capital.

BRINGS ALL BUSINESS TO A STANDSTILL

Loss in Telephone, Telegraph and Electric Light Wires Alone Will Amount to \$100,000—Railroads Tied Up.

DENVER, Oct. 27.—The blizzard which began Monday lasted until early this morning, during the night the storm gradually abated and at 8 o'clock this morning snow ceased falling. Not only did the storm cause universal discomfort, but it inflicted heavy pecuniary loss as well. In the one item of broken telephone, telegraph and electric light wires and poles the damage foots up to \$100,000. To this must be added the heavy expense entailed upon the street railways in attempts to keep their lines open and the loss to merchants in the way of business.

Many a family dined on ice and crackers or went to bed last night without any dinner at all. Greenmen could not deliver goods. The streets, piled high with snow, present a curious spectacle this morning. There is hardly a street in the city over which there is not at some point a tangle of fallen telegraph and electric light wires. On all sides broken poles hang in mid-air or peer from big snowdrifts. It is estimated that throughout the city there are more than 3,000 miles of wires are strung on the ground. Manager E. B. Field of the Colorado Telephone company said: "Outside of the business district, the wires have been blown down in every direction, our system in Denver has been practically annihilated."

The City Cable Car company managed to keep cars running throughout the storm but the tramway lines were brought to a complete standstill. The Gulf was the only street that succeeded in getting a train over the divide for today. Spring and Pueblo yesterday and its officers are proud of its achievement. Trains from the south are stopped at Pueblo, and the Denver and Rio Grande succeeded in opening its main line last night. Shortly after midnight a rotary plug, pushed by six engines, forced its way into the Denver yards, followed by a passenger train, which should have arrived in Denver at different hours during the day yesterday, beginning with 7 o'clock.

The mountain roads escaped the full fury of the storm and trains on them run nearly on time. The Burlington and other eastern lines have had no trouble. The Denver and Rio Grande and other lines were out of last night as usual.

FOOT OF SNOW AND BADLY DRIFTED. Western Nebraska Has an Early Taste of Severe Winter Weather.

OGALA, Neb., Oct. 27.—(Special Telegram)—One of the worst blizzards in twenty years struck the place at 6 o'clock yesterday morning and continued all day and evening. About one foot of snow fell, which is badly drifted. Union Pacific passenger trains are getting through, but are all behind time. A freight train has been stuck in the snow at Ocala since 2 o'clock this morning. Several local trains are held up. Several loads of sheep which were being driven here to ship got badly caught. One herd of 100 head of sheep was held up in a canyon half a mile north of town. Another herd had 100 head of sheep. Several other herds a few miles away have not yet been heard from. It is reported that a sheep herder in the vicinity of Ocala was killed by the storm.
