the National League.

Rooters in the Quaker City.

ICHLADELPHIA, Nov. 10.-There are deals and rumors of deals in the air today low purce in another-ladies will find among the managers and magnates of the National Base Ball league at the Walton hotel. The deal between St. Louis and Philadelphia, by which the latter will secure the services of Catcher Douglass, Pitcher Dono-

hue and Shortstop Monte Cross, is believed to be practically settled, and will no doubt go through. So far as can be learned the fortable garment, made only point on which the owners of the two from a single thickness of soft finished | clubs differ is as to which men the St. Louis club shall receive in exchange for the three men mentioned. The original proposition development of the growing body. The strain of the stocking supporters is removed from the waist and thrown directly on the shoulders—prices are 40c, 50c and 75c each. If from the Philadelphia club was to give St. Louis Pitcher Taylor, Catcher Clements, Fielder Dowd and "Lave" Cross. This prof-fer, it was said, was not satisfactory to St. from the Philadelphia club was to give St. Louis, and although a deal may be closed,

there may yet be a substitution of some other man for one or the other of the four Philadelphians. Regarding the proposition made by Wash-

ington to the Philadelphia club to bunch the fifty or more players under contract to the two clubs, the Philadelphia club then to have its pick of twenty and the Washingtons to have the remainder, and then receive \$30,000 from the Philadelphia club, the owners of the latter club emphatically declare the matter has never been seriously considered by them. They say that by this scheme they would be practically paying \$30,000 for four or five of the Washington players, and at the same time giving to Washington several stars

of their own whom they do not want to re-tain next season, but who can be used in advantageous trades with other clubs. The trade, they say, will receive no further con The sideration from them. The National league held a two hours session this afternoon. The time was wholly consumed in a general discussion of

the proposition of the minor leagues for a modification of the drafting rule, which had been favorably recommended to the league by the board of arbitration. No conclusion was reached and the consideration of the subject will be taken up Friday morning. to which time the meeting adjourned.

Tomorrow will be devoted to a carriage drive through Fairmount park and to gen eral sight seeing, which is part of the cu-tertainment provided for the visitors by Messrs. Reach and Rogers of the Philadel

BANQUET TO THE CRANKS. The magnates, managers and other visitors, including the newspaper corespondents, were given a banquet at the Hotel Bellevue to night by the Philadelphia club. The St

Louis-Philadelphia exchange of players was only one of many deals on hand which was brought to a close. Another deal which will place Grady and Hartman of the St. Louis club with the New York Giants is very likely to go through. Von der Ahe and Freedman had frequent conferences today, but could not agree on terms for the transfer of the two men.

A cash consideration was proposed by the New York president, and subsequently three of the New York players were offered in exchange. It was rumored that Donnelly and Park Wilson were two of the men mentioned. It is thought that an agreement will be made on this deal tomorrow. A deal was completed tonight by which the Cincinnati club exchanges Rhines the Cincinnati club exchanges Rhines, Schriver, Gray and Miller to Pittsburg for Rhines.

in their tariff sheets and otherwise a uniform time for completing the delivery of man. freight of all classes. The opinion is expressed that this will be found to be permissible under sections 2, 3 and 6 of the interstate commerce act, and also under the decisions of the supreme court. It is be-

lieved that the order will be satisfactory to both the warehousemen and the railroad managers. The order will be intended to meet the complaint of the warehouse owners that the

practice which has grown up among the railroads of giving free storage to shippers in rder to get business amounts to a discrimination in favor of the shippers, who, by the

extent of their business, are able to force the concession from the roads.

The final hearing in the case arising under the petition took place before the commission vesterday and the representatives of the railroads admitted that the free storage system had grown to be an abuse which they

June and since then there have been hear-ings at Cincinnati, Louisville, St. Louis, Kanses City, Detroit, Cleveland, Buffalo, Nev York and Philadelphia. The commission will now render its decision without further hearings.

YELLOW FEVER INVESTIGATIONS

Dr. Guiteras Makes a Report of His Researches. WASHINGTON, Nov. 10 .- Dr. John Gui-

eras, professor of general pathology in the University of Pennsylvania, has made a report to Surgeon General Wyman of the marine hospital service of the results of his investigation of yellow fever during the recent epidemic in the south. The report is

largely technical in character, but also con-tains some observations of general interest In connection with the development of the disease. Dr. Guiteras says the conditions existing in Cuba during the early part of the past sum

mer made it very probable that vellow fever would extend from that island to this courtrv. Discussing the general subject of yellow ever diagnosis, Dr. Guiteras holds that dur-

ing life the microscope could not establish a positive diagnosis of yellow fever. He speaks of this in connection with the statement that an erroneous belief has prevailed throughout he south, and especially among physicians who were not practical microscopists, that the instrument should be an important aid in the diagnosis of the disease. It is pointed out that even with the assistance of post nortem examinations, Sanarelli, the yello ever expert, was able to discover his bacillus in 56 per cent only of the cases examined Der Gulteras says as far as our present methods go, it would be impossible to dis-tinguish between a drop of gellow fever blood and blood from a healthy man.

BABY'S SMOOTH, FAIR SKIN A Grateful Mother Writes this Letter Tells all about Her Troubles when Baby Broke out with Scrofula Sores. "At the age of two months, my baby

began to have sores break out on his right cheek. We used all the external applications that we could think or hear of, to no avail. The sores spread all over one side of his face. We consulted a physi-

cian and tried his medicine, and in a week the sore was gone. But to my surprise in two weeks more another scrofulous looking sore appeared on baby's arm. It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful.
