COMMERCIAL AND FINANCIAL

Oats Set the Pace on the Market for the . Other Grains.

SHORTS UNLOADING PUSH UP THE PRICE

Wheat Shows a Weakness, Owing Largely to Disappointment in the Market at Liverpool, and Closes Lower.

CHICAGO Nov 18 -Oats again led the grain markets today. Efforts of the short side to get from under boosted the price of that opion %c, while May declined %@%c. Wheat was strong early, but broke sharply late in the session and closed %47%c lower. Corn closed unchanged for December, but 1/4c lower for May. Provisions were firm at a shade better prices at the close.

Wheat opened weak and from %c to %c lower for May and 36 to %e lower for De-cember. The reasons for the weakness were from widely separated sources. There was but 140 %d in the advance at Liverpool, a distinct disappointment in view of the fact than he was added to the price here yester-

The Cincinnati Price Current was rather bearish in this week's crop summary. Owing to a mistake in the May quotations from San Francisco it was made to appear that wheat for that delivery declined 714c per cental yesterday. That startling show of weakness was supposed to be due to poor export demand or some unexpectedly heavy Pacific stocks. But these figures were afterward corrected to show that the price had in reality advanced be, and considerable buying was inspired by the correction. Oats got on a rampage about the same time, and remembering the effect of yesterday's flurry in that market, the buying of wheat was all the more vigorous. May wheat opened at from 19% to 20% as compared with yesterday's closing price of 90% 195%. During the first few minutes trading the price settled to 20% 198%. Then the market started on a recovery, which resulted in an advance to 91% 198% by noon. Receipts at Minneapolis and Duluth were 91% cars, against 970 cars last week and 581 cars a year ago. Chicago got 138 cars, against 13% cars as week ago and 93 cars last year. The Atlantic port clearances of wheat and flour amounted to 475,000 bu. New York reported good orders at the opening there from English provincial ports.

Another radical change occurred in the sentiment of the croxed without any fresh m diffication of the gineral market surroundings. A scamper from under what was feared was about to become a falling market precipitated the event, and prices had a sudden drop in the last twenty minutes of the session. May falling to 900,90% and closing weak at 30%.

Corn was fairly active at times. The marprice had in reality advanced 4c, and con-siderable buying was inspired by the cor-

the session, May falling to 90@90%c and closing weak at \$9%c. Corn was fairly active at times. The mar-

for May was easily influenced by wheat the good short demand for December.

but the good short demand for December, urged on by the advance in oats, strengtheened the market considerably, especially December. The spread narrowed to 34,000 c. The market weakened toward the end in sympathy with the realizing decline in wheat, but December did not get belox yesterday's closing price. Receipts were 38 cars. Atlantic clearances were 23,000 bu May ranged from 304,000 c to 254,000 c and closed 4c lower at the latter figure.

Oats attracted as much attention as yesterday and a big business was transacted. There was anixety on the part of December shorts to get out and good buying by partles anxious to increase their lines, the result being higher prices in that option almost from the start. The feature was the reduction in the December-May spread from 14c at the close yesterday to act today, one prominent house taking on about 2,000,000 but December. May did not show much strength. Light stocks and a good export demand were buillish factors. Receipts were 283 cars. May ranged from 22%c to 234c clasing 44%c lower at 22%c. December, however, closed 3c higher at 22c.

There was a fairly good trade in provisions. The feeling axas weak at the start, probably in sympathy with wheat. Commission houses seemed plentifully supplied with buying orders and the demand from this source, counled with moderate buying by shorts, made a firm market the rest of the session, though business was small. January pork was unchanged at \$8.30, lard unchanged at \$4.37 and January ribs unchanged at \$4.27%. There were small gains for pork and ribs in other futures.

Estimated receipts for Friday: Wheat, 77 ars; corn, 310 cars; oats, 235 cars; hogs, 5,000 head. Leading futures ranged as follows: Articles Open | High | Low | Closs Yestly

Wenre Commission Company.

OMAHA OFFICE, Nov. 18.—The market today practically meld the advance of yesterday, especially so in the December cytion, while May sagged fractions all around. This working of the market is destroying the carrying charge.

The trading in wheat is limited, and undoubtedly will contain so until after the heavy receipts have diminished, as stated in our yesterday's notes and the mice may be affected as gurdenly as that of only was yesterday when it was discovered there were but 6,00,000 but, in sight to apply on asiles.

Our wires from New York today were to the effect that there were large exports of wheat cais and corn worked with 20,000 but, of corn sold corn in the reason, which is not a hearish feature, and we believe if corn could a little more than maintain its relative strength with wheat during the recent dull market, that there who take short profits with a possibility of small lesses for a time may be in a position to realize good profits a little later.

STOCKS AND BONDS.

Speculation on 'Change Seems to b Temporarily Dend, NEW YORK, Nov. is.—The volume of trans-sctions on the Stock exchange today was even resterday. Prices of securities have apparently come to a condition of equilibrium and specula-ion is, for the time being, dead. Even the tion is, for the time being, dead. Even the small changes in prices which occurred today and which were nearly all gains, were due to the manipulative operations with which the room traders amused themselves. As these operations involve the matching of the buying order with a corresponding selling order for the purpose of attracting outside buying or selling, the net result, in the absence of the outside operations is very close to nothing. Sugar displayed some speculative strength on account of buying attributed to Washington account, and Consolidated Gas flushed up and down in its customary meteoric style, Jumping at one time 5 points and reacting 19 points. The coniers were weak on rumors that there were obstacles in the way of the proposed agreement to restrict the output.

were weak on rumors that there were obstacles in the way of the proposed agreement to restrict the output. Although speculative buying was so restricted, there continued to be evident some good buying of the very high grade bonds whose society is of the best, though with a low return of interest. This class of buying is a natural outcome of the easy condition of the money market and the doubtful outliook for speculation. Bend the doubtful outliook for speculation. Bend houses report that there are quite large offerings of these bonds for foreign account, the foreign houses being tempted by the high range of prices for the greater extent in the market. It is possible that this class of selling foreign account has much to do with keeping up the rate of exchange in face of conditions that would tend to weaken it. In spite of the tendency toward easing the rates for money in London. The trade balance in our favor for three months, including October, is nearly \$185,600.

three months, including October, is nearly sits, 600; a sits, 600; a London has been a buyer in this market of low-priced up-equiative securities during the last few weeks, as it was today. Foreign capital is known to have quite a large interest in the Union Pacific reorganization indirect, and payments from abroad in proportion are due in this market. The operation of borrowing meney on sterling exchange, which tends to keep up the rate of exchange, has apparently cased. The continued maintenance of the rate of exchange above the gold import point under these circumstances is not easy to understand, but sales for foreign account of high grade investment bonds would aid in explaining it.

A report from Chicago that there is talk there of a reduction in the rates on bank balances to 1½ per cent shows that the abundance of maney extends to the interior.

The imminence of the first payment of nearly states on bank balances of the first payment of nearly

all stocks for the day barely reached 100,000 shares. Bonds were more active in proportion than stocks, improvement being shown in the high grade issues. Total sales, \$1,250,000. United States is, regristered, declined is per cent bid. The Evening Post's London financial cablegram says: The stock markets remain staghant and featureless. Americans were far better after a period of chiliness, but there was no trading. Details of the gold movement for the week show the receipt of £98,000, including the sale of £60,000 in eagles for the continent. The Paris bourse was quiet."

CHICAGO LIVE STOCK MARKET. Demand for Cattle and Sheep Slow,

the Latter Heing Lower.
CHICAGO, Nov. 18.—The demand for cattle today was rather slow, except for a few extra good
lots. The general market was barely steady. with the bulk of sales of native beef steers at \$4.00F5.00. Extra choice shipping beeves were sold at \$5.00F5.00 and very common steers were sold to at \$5.3095.00 and very common steers were sold to dressed beef concerns at \$1.75974.00. Good fed at Texas cattle sold at \$4.25974.00. Good fed at texas cattle sold at \$4.25974.00. Their average weights being 1.200 and 1.200 pounds, and there were good sales of fed westerns averaging 1.150 to 1.300 pounds at \$3.75974.00. The stocker and feeder trade was fairly good, with most of the sales at \$2.50974.35. Buits sold at a wide range, as the calves. About 1.000 western range cattle were confered today and sales were again made at \$1.50974.

22 There was a fair demand for hogs and prices were about steady at yesterday's late faures. In \$2.50974.10 for the commonest to the best lots, the buils of the hogs crossing the scales at \$1.577927.30. Choice butcher weights a scales at \$1.577927.30. Choice butcher weights were the best sellers. The market closed slow and weak.

Trade in sheep and lambs was slow and prices were again lower. Sheep were salable at \$1.50974.50. Lambs sold at \$1.7509.75. A pood many sheep were left over.

Receipts: Cattle, \$1.500 head; hogs, \$30.00 head; \$1.500 head.

PUZZLING WHEAT MARKET.

old Reliable Signs of Former Years Fall This Senson. According to the Louisville Courier-Journal the wheat market presents a number of anomalous features. Last Wednesday there were purchases of 1,250,000 bush is for export, in addition to 500,000 bushels of corn and 660,000 bushels of oats. Large as the buying was it was not exceptional, for during the first ten days of the month, though one was Sunday and one was election day, no less than 14,256,000 bushels of grain were taken for the export trade—an average of a million and a half bushels at day. The quantity of wheat alone during this period was 5,730,000 bushels. The reason for this phenomenal buying is explained in cable-grains from Thropo Newsh the foremest arian authority of Europe, as saying that revised figures of the world's visible supply on November 1 showed only 132,000,000 bushels of wheat as compared with 120,000,000 bushels of wheat as compared with 120,000,000 bushels in 1896. The News also makes a very decided reduction in its estimate of the Russian crop, exclusive of Siberia, which it puts at 256,000,000 bushels, against 369,000,000 bushels in 1895. In the whole European crop there is a deficiency of 239,000,000 bushels, even as compared with last year, and in order to keep up present stocks there will have to be an importation of 186,400,400 bushels between now and April 1. The deficiency is \$50,000,000 bushels greater than in the 80-called familie year of 1896, not only compared the strength of the factor of the f

3s; December and May, 3s M.
NEW YORK, Nov. 18.—SUGAR—Raw, firm; refined, firm; granulated, 5c. New York Dry Goods Market. NEW YORK Nov. 18.—There is no change in the quietude prevailing in the dry goods market. Both in cottons and woolens the market is without feature. There has been an almost imperceptible gain in the market, due to the better weather conditions prevailing the presence of clear skies and colder weather having had a generally better effect on the market. In stable

cottons there are few buyers in the market and mail orders continue extremely light. Frint cloths continue extremely quiet, sales in extras and odds alike being very light so far this week. The quotation on extras is still 25-150, but the bill at a lower figure makes that quotation purely nominal.

American Thoroughbreds for Japan. SAN FRANCISCO, Nov. 18 - The steamer Coptic, which will sail today for the Orient, will convey to Japan seven thoroughbred will convey to Japan seven thoroughbred stallions purchased in Lexington, Ky., by Y. Matumokos, the representative of Japan and exporting manager of the Great Japan Trading company which has branches all over that country, besides one in New York. The animals are all dark bay and none are less than fifteen and one-half hands in height. Their average weight is 1,000 pounds and their cost to Yokohama will be about \$1,500 each. These stallions will be about \$1,500 each. These stallions will be crossed with the native breed of horses, with a view of producing a progeny uniting the best qualities of the finest breeds of American and European stock.

Reprieved by the Governor.

SAN FRANCISCO, Nov. 18.-Governor Budd yesterday reprieved until February 11, 1898, the sentence of Salter D. Worden, the train wrecker, convicted of the murder of Engineer Clark, near Washington, Yolo county, during the great railroad strike in 1894. The governor acted on the advice of the attorney general that the sentence of the lower court should not be carried out pending an undecided appeal to the United States supreme court.

Present to National Academy. BOSTON, Nov. 18-At the second day's session of the National Academy of Science Miss Alice L. Gould, daughter of the late Benjamin Apthorp Gould, who was a member of the academy, presented to the organization a fund of \$20.000. This is to be known as the Alice L. Gould fund and its proceeds are to be used at the discretion of the trustees in furthering astronomical and mathematical research.

A NEW SERIAL STORY IN THE OMAHA SUNDAY BEE Anthony Hope

"The Prisoner of Zenda" Has completed a New Story of Love, Intrigue, and Devoted

Gallantry, entitled-"Simon Dale"

A ROMANCE OF THE STIR-RING TIMES OF CHARLES II

For serial publication in Fif teen Installments, in the Sunday Bee, Commenced October 17.

THE STORY.

Anthony Hope's mastery of witty and inimitably graceful dialogue, as well as his wonderful skill in the weaving of a dramatic tale, is admirably dis-played in this new story of ingenious construction and sustained interest. Few stories, even of Mr. Hope's, are more replete with incident, more rapid in movement, or deal more picturesquely with a group of historical characters than this of mon Dale."

The period is one peculiarly suitable to the author's genius. The hero moves in the romantic days of Charles II, and his fortunes are entangled with those of the dissolute Stuart, and of Louis XIV of France. A witch's prophecy at his birth has foretold that 'he will love what the King loves, know what the King hides, and drink from the King's cup." How Simon is bewitched with saucy Nell Gwyn, but is at heart faithful to his first love; how he bears himself like an honest gentleman through all the court intrigues; how he defends his lady with a wit and with a sword point equally keen, to win her to himself at last, Mr. Hope tells in a brilliant series of vividly picturesque scenes.
