

FOOT BALL GAMES TOMORROW

Omaha People Have a Choice of Two Good Contests.

ONE ON EACH SIDE OF THE RIVER

Baker to Meet Wesleyan at University Park and Nebraska Plays Iowa at the Field Club Park.

Thanksgiving day is not so full of foot ball significance as it has been in the past, thanks to college faculties. Time was when it marked the close of the season. The schedule was finished with the exception of the one final game, which was ordinarily the big one. Games were sometimes played after, but they were considered as something tacked on and did not arouse the interest or enthusiasm they would have had if they occurred before Thanksgiving.

This is all changed now. College faculties have stepped in in a good many instances and have declared that the foot ball game is something of a desecration of the day. The result has been that there is no definite date upon which the season can be said to be ended. The big games are still played about Thanksgiving time, but many teams keep on playing late in December. But college faculties in the west have not become so strict, and therefore Omaha foot ball lovers will have a choice of two games tomorrow—one to be played at the University Club grounds and the other at the Field Club grounds in Council Bluffs. In the former, the teams of Wesleyan university of Lincoln and of Baker university of Glauco, Kan., will meet. In the other the University of Nebraska and the Iowa State university elevates will do battle.

It is hard to predict which will be the better game. There is no question that the Nebraska-Iowa match is considered the more important, since it is looked upon as a championship game generally. Moreover, it is said that Iowa has played up wonderfully since its decisive defeat at Kansas and therefore a much closer game than that between those two teams will result. The Baker and Wesleyan teams are said to be very closely matched. During the last two or three years the former has gained quite a reputation, having defeated each time the strong eleven of the Denver Athletic club, which had been a pretty hard nut for all western teams. It is said to be right up to its past standard this year.

Wesleyan has a strong eleven and one that is determined to finish out a successful season with another victory.

IOWA'S CAMPAIGN REVIEWED.

The Iowa university had quite a task put before it in the early part of the season to secure a winning team. Only four of the old men were back and three of these had received their first experience last year. With these three, two guards and the fullback the season was started. There was plenty of material and hands, but they were not green, even though promising. Nevertheless a creditable season's work has resulted.

The first important game was with Northwestern university, which was won by Iowa by the score of 12 to 6. The next game was with the Physicians and Surgeons, and while played this season, it was not a success. The Chicago Athletic club team, and their experience enabled them to win. The much dreaded attack which was made by the overtake all foot ball teams came from Iowa played Kansas. In this contest a few successful tricks were used, which finally overcame the untired men and caused them to suffer the injuries to several knee Kansas hawks and determination, so that the Jay-hawk team, which was won by Iowa, was down there a discussion which finally resulted in Iowa leaving the field. The referee thus awarded the game to Ames by the score of 10 to 6, against the Iowa team's last game was played in Iowa city last Saturday against Grinnell for the state championship. Iowa won by 16 to 12. Grinnell did all the scoring in the first half, while Iowa scored in the second.

The team against Nebraska will be as follows: John Walker, captain, will play left guard. This is his third year on the team, and while not a brilliant player he uses his 195 pounds of weight to his greatest advantage. He is 6 feet tall and is 25 years old.

R. D. Blackmore is at right guard and has been playing since 1896. He is 20 years of age, is 6 feet 2 inches tall and weighs 195 pounds.

G. W. Egan will be at right tackle. He is in his first foot ball season. He weighs 180 pounds, is 6 feet tall and is 23 years old.

A. H. Blackmore is playing left tackle. He also is a new man. His age is 18, his height five feet nine inches and his weight 180.

H. J. Wright is at right end. He is 20 years of age, is 5 feet 11 inches tall and weighs 165 pounds.

W. Lamberton is the left end and is another of the new men. He weighs 165 pounds, is 24 years old and is five feet eleven inches tall.

The quarterback is Griffiths, new to the game. He is 17 years of age, weighs 140 pounds and is five feet eight inches high.

The left halfback is Deems, another player of last year's experience. He is 20 years of age, weighs 155 pounds and is five feet eight inches tall.

J. L. Meyers, a member of last year's team, is at right halfback. He is 23 years of age, is five feet eleven inches in height and is 24 years old.

H. W. Hobbs, the fullback, is another old player. He is five feet eleven inches in height, weighs 165 pounds and is 22 years old.

W. Wright at center is a new man. He weighs 220 pounds, is six feet two inches tall and is 22 years old.

The substitutes are: John Gardner, tackle; Kingsbury, guard; Sheldon, halfback; Chase, fullback; Meier, end.

NEBRASKA'S TEAM.

The Nebraska team that will line up against this aggregation will be the same as met Kansas with one or two changes.

It is impossible to get as yet the lineup of the Baker university eleven, but the Wesleyan lineup will be as follows: Lemon, right end; Gilbert, right tackle and captain; Kingsbury, right guard; Stall, center; Brown, left guard; Dunn, left tackle; Fisher, left end; Stevenson, quarterback; Carter, right half; Hatley, left half.

The game in the east which will attract very much attention is that between Cornell and Pennsylvania. The contest is hoped to be nearly as good a one as that recently played between Harvard and Pennsylvania.

Winter Sale of Thoroughbreds.

LEXINGTON, Ky., Nov. 23.—The winter sale of thoroughbreds began today and will continue three weeks. One thousand horses will be sold. Many old breeders are retiring. Hiram, sire of Domino, 2 latia, Tenn., for \$2,000; Massena, Jr., Galston, 3 years old, sire of many winners, for \$5,000. Broad marsh sold well.

Great Billiards.

A remarkable exhibition of billiard playing was given in Tom Foley's billiard parlor last night by Dr. Magnus, the champion three-cushion billiard player of the world, who hails from St. Louis. A great number of seemingly impossible shots were

made by the wizard of the cue during the course of the evening. He appeared to have a mind to play a closer game with Pennsylvania. On such a basis the Cornellians are hopeful, but scores are very decisive in games on which the basis is professional. According to telegraphic dispatches from Kansas City all chances of another game between Kansas and Nebraska universities have gone glimmering. It is probably for this reason the negotiations seem to have been very largely tainted with professionalism.

RINGER AT CHICAGO HORSE SHOW.

Canadian Horsemen Ordered to Retire.

CHICAGO, Nov. 23.—Royal Standard, the grand champion chest stallion of the Chicago horse show, has been declared a "ringer" and his owners, Graham Bros. of Charleston, Ont., have been ordered to return the trophy to the victor as a reward, by the judges. It has been found that the stallion is an imported half-bred, not bred in America, and never can be registered as such.

Cracks from All Over the Country Arrive at the Tournament.

ST. LOUIS, Nov. 23.—The supplies of the St. Louis Trapshooters' league the biggest trap tournament that has taken place in or around St. Louis began today.

Cracks from all over the country have gathered here. Among the most prominent are: Fred Gilbert of Spirit Lake, Ia.; Charles M. Grimm of Clear Lake, Cal.; Fred W. Smith of St. Paul, Minn.; and J. A. R. Egan of St. Paul, Minn.

All target shooting will be at known traps, which are scattered all over the city. The traps will be used for all extra traps. All traps will be divided into two classes, open and closed.

Weather interfered materially with the attendance of the trapshooters' league in addition to handicapping the competitors. The scores will show that of Helke, the Ohio champion, led in the general average, with 86 1/2 per cent.

DAN STUART GOES TO NEW YORK.

Prize Fight Promoter His Good Bye to Texas.

DALLAS, Tex., Nov. 23.—Dan Stuart left tonight for New York, where he will in future reside. He has disposed of all his interests in Texas and will henceforth devote his entire time to the promotion of prize fights and his carnival scheme at Carson City. For twenty-two years Stuart has been a resident of Dallas and for seventeen years has occupied the same rooms. He says politics drove him out; that a certain class of politicians in Texas had stung him out of the American company and his carnival scheme at Carson City. For twenty-two years Stuart has been a resident of Dallas and for seventeen years has occupied the same rooms. He says politics drove him out; that a certain class of politicians in Texas had stung him out of the American company and his carnival scheme at Carson City.

Special Committee Will Recommend Plant with Capacity Equal to that of Both Plants Now in This Country.

WASHINGTON, Nov. 23.—The special naval board to examine into the cost of armor making will present to congress details of a plant which it has designed. It will cost more than \$2,000,000, and will have a capacity of 6,000 tons of armor per annum, which is about the combined capacity of the two armor plants now supplying the navy.

Secretary of the Interior Will Recommend Plant with Capacity Equal to that of Both Plants Now in This Country.
