BIG GOLD STRIKE IN UTAH Snake Creek District Comes to the Front with Yellow Metal.

RICH LEDGE IS UNCOVERED THERE Samples of the Rock Taken Out Assay Values as High as \$25,000 in Gold to the Ton.

PARK CITY, Utah, Nov. 24.—(Special)—A big strike of gold ore has recently been made in the Snake Creek district, Heber City parishes having uncovered a rich ledge in a claim owned by them on the north side of Snake Creek within a mile or so of the head of the canyon. A few days ago they came to Park City and interested Messrs. Fred Davis and Frank Gold in the prospect by leasing and bonding the ground to them for a period of eighteen months. Samples of the rock brought in by the owners showed assay values as high as \$25,000 to the ton in gold, and a trip to the ground and personal inspection convinced the gentlemen that the find is genuine, for other parts of the ledge on the surface carried from \$13 to \$18. At the point of discovery some further work was done and a sack of samples brought down to Park City for assay. Some of the rock shows free gold in extravagant quantity and \$23,000 a ton would begin to represent its value. Since the ledge was made up of a hard, crystalline limestone and the winter provisions for four men taken up to the property and active development work will be pushed through the entire winter.

"EUREKA, we have found it!" DON'T STOP TOBACCO. Use the tobacco you require and take care by removing the desire. It is a scientific, permanent cure. It is a kindly vegetable anti-dote for the poisonous principle in tobacco and leaves the system pure and free from every trace or effect of the narcotic. The nervous of tobacco-users are a fearful condition—restless, light-headed, nervous, the slightest noise or incident is distorted to false proportions. The craving for tobacco grows and the gratification is ridiculous—it is unhealthy as it interferes with both work and pleasure. It is expensive. Did you ever look at it in that way? The pleasure of living is in living—not in living for the nerves in living a lot of abuse but if tobacco is stopped suddenly they receive a violent shock and permanent injury.

SPANISH TROOPS ARE DESTITUTE. Unless Relief Comes a Mutiny is Not Improbable. NEW YORK, Nov. 24.—A dispatch to the Herald from Havana says: Deploable as the condition of the Spaniards may be, Spain's first duty is clearly to relieve the sufferings of its own troops. The loyal soldiers are in as serious a plight as the majority of the reconcentrados. The reconcentrados have one advantage—they may beg and receive charity. To begin with, the Spanish soldiers have little to eat. For many months, and consequently they are not able to buy anything on their own account in the small towns in which they are stationed. Their only credit is in the crops that have been most disastrously exhausted. The shopkeepers refusing to deliver more goods until they are paid what is long due to them. All the way of food and clothing is what is supplied by the commissariat department and that department is neglected and it is asserted corrupt.

South Omaha News. The five alleged train robbers who were arrested in a saloon in the railroad yards a couple of days ago escaped from the city jail shortly after 3 o'clock yesterday morning. It is claimed by the police that a bar had been torn from one of the cells and with this tool the lock on the outside door was broken. Passing by the built-up part of the jail where they were confined, the "desperadoes" reached the area way at the front of the jail and ascended to the sidewalk without hindrance. Officer Al Gary was in charge of the jail at the time. He appeared to be considerably excited over the affair and asserted that he did not leave the jail more than five minutes. On returning to the jail after a short walk in the way of food and clothing is what is supplied by the commissariat department and that department is neglected and it is asserted corrupt.

Police Judge Christmann was preparing to try these men today on the charge of being armed and carrying concealed weapons. Assistant County Attorney Jeffries investigated the matter and made the statement that the men could not file any complaint against the men, as there was no evidence to warrant the supposition that they were other than vagrants. The city attorney was preparing to file complaints for vagrancy. He was arrested and intended going to the Summit to catch a train at that point. The men who caught the matter to Officer Sheehan said that he heard the men say they intended catching a train at the Summit. Not a word was said as far as a train at the Summit was a train at the Summit. Officer Sheehan decided that they were at least suspicious looking and for that reason looked them over.
