by the farmers that there is little money in wheat at such prices as prevailed between 1893 and 1896, while money is to be made from butter any and every year. Mr. Hunter says that the creameries now in operation are bringing into the state every month the sum of \$285,000. He insists that this estimate is rather too low than too high. 1897 he says the amount of money brought into the state by the creamery in dustry alone will amount to \$3,250,000, and he estimates the probable amount for 1896

This is noticeable in iron and steel, and in fur-ther depression in cotton goods, print clotra-having made a new low record in price. The appearance of a better demand for filling in purposes has had a favorable in fuence at points in Tennessee and the guilt states. On the Pacific coast the feature of business is a well maintained export move-ment from nearly all ports. The lower price for print cloths is followed by a sharp re-action in wheat and a lower price for In-dian corn. Oats are slightly higher, and coffee has advanced, in addition to which there remains a long list of the staples, prices of which are unchanged.
