

General Apathy appears in complete control, ply greater or less quantities to smaller of the bicycle trade. Not in five years has there been such widesprend indifference in any have not attempted to place any "list" trade circles regarding next season's models. The reason is obvious. Too many entered the business last year, and paid considerable for their experience. A majority of them took in bicycles as a business fiyer. They were noviers in the business, and were not secondary consideration. Their prices satisfactory since the makers of those ve-were elastic; it stretched and contracted highes dropped list prices from their printed were elastic; it aretened the purchaser's matter. There has been talk of extending according to the size of the purchaser's the plan to high-grade bicycles next serpurse. Such methods of business inevitably son, and it seems more than probable that led to financial loss, and countless members some manufacturers will try it. of those who have been pinched retired from a business venture they were unfitted to handle. This cleaning out process will be all the better for legitimate trade. It is not

The national assembly of the League of American Wheelmen meets in St. Louis, February 9. It is estimated that the number of delegates who will attend the assembly will be about 360, and the meeting is looked for-ward to with interest by every rider of the wheel in the country. The first day of the assembly will be devoted entirely to good road work with a direct to follow and no road work, with a dinner to follow, and no other subjects will be brought up for discussion. This is one of President Potter's hobbies, and he will insist that the arrangement be carried out to the letter. The offi-cials of the league request the chairmen of the different committees to have their re-ports printed and in the hands of the del-gates ten days prior to the assembly. This plan will simplify matters considerably and couple, the delegates to finish their work plan will simplify matters considerably and enable the delegates to finish their work without unnecessary delay. What amend-ments will come up for action cannot be told at this time, as none of them have as yet been proposed.

Morris Welsh of Newark, N. J., left his bicycle in front of a store while buying a pair of shoes, and when he returned to the treet the wheel was gone. He reported his loss to the police. An alarm was sent out, and Weish went home in a disconsolate mood. on opening the street door he found a young man trying to sell a wheel to his mothe:
A glance showed him that the wheel was his own, and he grabbed the thief, who begged hard to be released. He had offered it to Mrs. Welsh for \$12. He said that he was starying having enter nothing for two days. starving, having eaten nothing for two days. Mrs. Weish told her son that he was lucky in setting his wheel, and persuaded him to let

Consul General Haywood reports the roads around Honolulu excellent for bicycling, as a colin climatic conditions. There are 1.500 to the land and the number of conditions is a condition of the conditi possible riders is placed at 5,000. The American bicycle alone is sold, and the duty on it is 10 per cent, which makes the retail price bicycle there, since the reduction, from

A brake device, for which there may be considerable demand and which will be offered as an option on one of the 1898 standard models, is an automatic brake. Similar devices will appear on many of next year's models. The brake consists of a surplus expansion ring any the rear species. year's models. The brake consists of a spring expansion ring on the rear sprocket working within a frictional drum. The braking of the wheel is brought about by back-pedaling, which opens out the spring and bringe it into contact with the brake. The instant back-pedaling ceases the spring ontracts and the wheel is released. where a sulden dismount is required.

progressive disposition of the Japsness is shown by the statement that the empress and the women of the court have taken to cycling and enjoy the recreation every pleasant day. The emperor has built creditent bicycle paths around the imperial gardens for the use of the women. This is an advantage possessed by Japanese men over their Chinese sisters of open class. The horrible deformity of the to enjoy the glorious exhilaration of cycling. ever, even if they had cycles and cycle

Jimmy Michael's challenge, issued not long ago, offering to ride any man in the world a paned race for any amount of money has been accepted by cablegram by Arthur A. Chase, the fallous middle distance rider of England. The cablegram also stated that Chase was willing to ride Michaels for any sum of money the midget cared to name. The result is a synticate has been formed in Chicago for the purpose of backing the Welsh wonder for nothing less than \$25,000 a side. The amount of \$50,000 is a remarkable sum for two riders to compete for and it is hardly probable that a hall will be found large enough to accommodate those who would want to see the contest. race will be paced and the pacemakers used will be unlimited.

Women who use chamols leather for cleaning ent polishing their muchines may be glad to know how to wash the leather when dirty. If it is washed with soap and water and rinsed and dried it will become stiff and hard and almost useless. But if it is washed with soap and water, and the soap is rinsed out it will dry as soft and serviceable

## WHEELS AND PRICES FOR '98.

Top and Bottom Figures Scheduled for the Season.

The manufacturers who have thus far anbounced their prices for '98, says the L. A. W. Bulletin, have either made a reduction. or have added new models at lower figures. or have done both of these things. The new chainless is out at \$125, which is the top figure, and the gradation is gradual down to \$50, which is a low figure for a really good machine. There will be others sold for money, but it is important to remember that such wheels are cheaply built to sell cheap, and are presumably worth no more than is asked for them. For two years past the failure of good concerns has thrown into the market many excellent wheels that sold below their real value, but business is now on a more stable basis, and the only wheels likely to sell at very low prices will be

cheaply constructed wheels.

Americans generally have a knack of putting the best foot forward, and American bicycle makers are abundantly able to make their chaspest productions rival in outward their cheapest productions rival in outward appearance the most carefully and expensively constructed wheels. It is sometimes difficult for an expert to decide accurately from a superficial examination just the character and value of a wheel, and it is practically impossible for an inexperienced purchaser to do so. A cheaply constructed wheel is a poor, expensive and dangerous investment. There is little in the appearance of a machine that is a guide to its true ance of a machine that is a guide to its true character, and the guarantee now being merely nominal, the standing and experience of the maker, and the character of the sell-ing agent will need greater consideration Reduced list prices mean reduced discounts to agents, particularly on the better wheels, and close observance of list.

For some time past the makers, who turn out wheels for the jobbing trade, with differ-sat nameplates for each dealer, and who sup-

or 'retail' price on them. Each dealer them made enough out of racing to tide him handling them has been free to make a retail price based on cost, selling expenses and such profit as he thought he ought to have, they failed to save it as he can be thought he ought to have, they failed to save it as he can be thought he ought to have, they failed to save it as he can be the opinion that in a general tourparticularly choice in their selections. To trades who handle bicycles. The implement Trade Journal urges it for bicycles, and says them appearances was everything; quality a that the buggy trade has been much more

## CYCLED TO HER WEDDING.

And Then the Bride Promised He the better for legitimate trade. It is not probable the trade will experience anything probable the trade will experience anything bike the boom of years past. But with the business restricted and in competent hands there is every reason to expect satisfactory returns for 1898.

And Then the Bride Promised Her Husband Never to Ride Again.

And Then the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

Though a maze of trucks and vehicles of all kinds which choked Chambers street Friday morning, relates the New York World, a wheelwoman carefully threaded her way. In front of the Stewart building two racing men after were to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the Bride Promised Her Husband Never to Ride Again.

The the better for legitimate trade. It is not the state the state there Tals all goos to prove that there is little or no money to be made at bicycle racing in the mid-west.

In the first place, the prizes offered are so small that if one man was to win them all he would by no means be rich; then gain the first place. This is Miss Bessie Alien, a small that if one man was to win them all he would by no means be rich; then gain the first place. The propose to bring on their own money to be made at bicycle racing in the mid-west.

In the first place, the prizes offered are so small that if one man was to win them all he would by no means be rich; then gain the first place the prize as stematic transfer. This is Miss all that if one man was to win them all he would by no means be rich; then gain the first place the prize as stematic transfer.

In the first place the prize as the men stood.

"Keep cool, Jack," said one to the other 'she'll be here all right." In another minute the girl a-wheel hove sight and brought up to the curbatone

with a smiling face. "Are you ready, Anna?" queried Jack

"Yes, or I wouldn't be here, would I?"
Then Jack took hold of the wheel and trundled it over toward the city hall, while the girl in the short skirts followed with his companion. At the city hall the latter assumed command. He called Joe, the boot-black, to guard the wheel, and then led the others late the marriage bureau. Alderman Wund soon appeared, and the usus entries were made in the records of the bureau. The girl described herself as Arma Lundawall, 24 years old; the man as John Cunningham, 28 years old. It took Alderman Wund exactly sixty-seven seconds to make Miss Lundawall Mrs. Cunningham and then the party left. Behind this city tall wedding lurks a pretty little romanos. The bride left New Canaan, Conn., on he wheel Wednesday, and role every inch of the way to New York. It took her seven went to a friend's, where she spent the hours to pedal the forty-five miles. ght. The next morning she donned her cycle costume and rode down to the city

John Cunningham is the family couchma-John R. Downey, the millionaire builder the Astor estates, who has a country clace at New Canaza. When the family along. Mrs. Downey needed a maid, and the little Connecticut town was hunted over. with the result that Anna Lundawall was

ecured for the place.
Anna and Jack fell in love and a month ago, when the Downeys decided to return to town, they had agreed upon a plan of future domestic bliss. There were only two difficulties in the way. Jack hates bicycles like all true horsemen, while Anna loves Jack is a Catholic and Appa Protestant. Anna screed to give up her wheel on the day of her wedding, and Jack promised not to ask her to change her religious faith. Thus the two obstacles were smoothed away. But Anna decided to bid adieu to her wheel by riding every inch of the way from New Canaan.

## HAVE WHEELMEN REFORMED!

A Marked Change Observed in Wheel-

years ago persisted in criticising wheelmen because of their seeming lack of civility topower is lost in releasing the brake and the ward pedestrians? We refer particularly action is immediate. When wishing to says the New York Sun, to the individuals that was not the fault of Omaha members, check the speed of the machine the first who maintained that the old-fashioned, free-but due to the fact that his opponents, metion is immediate. When wishing to says the New York Sin, to the individuals that the speed of the machine the first who maintained that the old-fashioned, free-impulse of the rider is to back-pedal, the continuous from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake, the action being the salutations from cyclists were paintaged by the action of the brake. by the action of the brake, the action being so natural that after a few days' use the rider becomes unaware of its existence and it the same time enjoys its advantages. The brake is especially valuable to women in descending steep grades or in an emergency where a subling discount is required. pressing a button.

> lieved the wearer of all manual exertion in-cident to lifting his hat upon meeting an ac-quaintance when his hands were otherwise engaged. A mere nod would start the ma-chinery inside the hat, which would be suddenly holsted about a foot above the head by an opparatus suggestive of a self-dumping coal cart. It remained at rest for a moment, hen described a semi-circle and settled back ipon the cranlum.

This fack-in-the-box invention doesn't ephave had a very cordial reception in New York. Even in Boston, where the stiff and comfortless "bloycle nod" was first heard of, the apparatus has not been received with ich enthusiasm. What is the cause of all is? Have wheelmen reformed and become more thoughtful and courteous than formerly or are their critics of two years ago content with a bare ned and the good luck not to be run down by scorchers? It is not improbable that the true explanation is that a majority the fault finders now have wheels of their

NO BICYCLE FOR THE QUEEN.

The Dutch Privy Council Declines to Let Wilhemina Ride. A dispatch from Amaterdam says that while the young queen Wilhelmina was with her mother recently in Vienna she became passionately fond of bicycling, and brough

home a splendid machine. She enjoyed the sport for a time in the royal garden, and then her mother was seized with harrowing scruples as to whether it was in accordance with propriety for the queen to ride a wheel. She submitted her doubts to the queen, who laughed at the dea and declined to relinquish her wheel. The matter was therefore referred to the Privy Council, which was specially sum-mened to consider it. The council delib-erated the question very carefully and exhaustively, and finally concluded that such recreation was incompatible with the dignity

of the throne. It also based its objection to the queen's riding on the risk she ran of being injured. The council concluded to implore her graclous majesty not to expose her precious iffe to this danger. The queen pouted, but obeyed, and accepted a gift of a Shetland pony, on which she sought solare.

## WHEELING CHAFF.

Puck: "How did you manage to reel off so many miles on your cyclometer? "I attached it to my gas meter."

Courier-Journal: Friend-When did you begin taking lessons on the wheel? Novice-Two days ago. Friend-How are you getting on? Novice-Most of the time.

Detroit Journal: It was morning. Drawing aside the curtains, he gazed out upon the world.
"Ah!" he exclaimed, estatically. "More snow! I shall finish shoveling off my first

Chicago Post: "I suppose you're looking for a chainless wheel?" "No. I'm not. I'm looking for a harmless

Washington Post: The possessor of a chainless bicycle will at once become as exclusive as the person with the appendicities. Chicago Record: "Hobbs has quit the har-

ness business since bleycles are so populof the week. The big race closes at 10 p. lar."

What is he doing?"

Whisperings of the Wheel, Omaha's professional racing men have un doubtedly won more money on the path durof the repair department of one of the leadis put up, so it can readily be seen that un-less a change is brought about in some way the time is not far off when mid-western racrider, with Floyd McCail of this city a close second. Willie DeCardy of Chicago won the most on the Kansas circuit, but as he did

The Tourist Wheelmen are making orepangmiddle of the present month. At these gath-oricus each year the runs of the previous general good time is always assured. This year's banquet is in charge of H. C. Hartry and members of the club who intend to purticipate should let him know as soon as conenlent. Prominent local efter-dinner speak-rs will be on hand and after the banquet a nusical and literary program will be had.

tions to something more remunerative.

Me of Cardui

order of pregnancy, Wine of Tobacco Cardui is the safest and best remedy to use. It reduces the pain and danger of child-birth. Then The pleasure of living is the little one in living well not living comes into the ill. Throat, mouth and world well equipeyes are ruined by tobacco ped for life and the mother passes

-the system is generally poisoned by it. Don't Stop Tobacco

SUDDENLY and rack the nerves. Use the tobacco you require and take BACO-CURO, (it gently weans). If you do this, strong, healthy nerves and a clear brain will result. It will notify you

when to stop by removing the desire. Write for PROOFS of Cures.

It is the original Guarantee Remedy, (Money refunded if it fails to cure.)

50c or \$1 boxes, 3 boxes (guaranteed cure) \$2.50. If your druggist cannot get it, we will send it. Eurcka Chemical and Manufacturing Co., La Crosse, Wis.
