ESTABLISHED JUNE 19, 1871.

Captain Ray was in receipt of information to the effect that unless some relief was sent to the district starvation, or at least great privation, would be inevitable. From lieves to be thoroughly reliable, it is ascertained that since the 13th of August but 165 tons of provisions have reached Dawson City by river and that the boats of the tons of supplies for that place, were obliged to discharge their freight at Fort Yukon, owing to the lowness of the river between these two points.

It is also learned from three independent sources that the population of the town of Dayson and vicinity in October of this year was estimated to be not less than 6,000, and probably was much in excess of that number, and that among the population of Dawson City and the country tributary thereto a large number of American citizens are reported to have insufficient food to last them through the winter and that many are absolutely destitute

SOME LEAVE THE COUNTRY.

When it was ascertained at Dawson special messenger sent from Fort Yukor about September 13 that no more supplies could reach the mining districts before next summer via the Yukon 700 or 800 went 400 miles down the river in boats to Fort Yukon, a journey requiring from twenty-three to twenty-eight days' travel, where it is es timated there are about 700 tons of provisions cached, and that at Minook creck. about 600 miles from Dawson City, and at recede from their position respecting free tracts of purchase were not covered by the Fort Hamilin, 525 miles from Dawson down dom in the management of their business, "free homes bill." If the Otos and Misthe river, the trading companies upon whom the miners depend wholly for their winter's supply were compelled, owing to the lowness of the river, to unload respectively 110 and 200 tons of provisions from their six beats bound from St. Michaels for Daw-

The last information from the mining distriet bears date of October 17, when it was ballot was that unless the unions accepted reported there were not on sale in the stores of Dawson or those accessible to the mining region a single pound of bacon or bears and the man found it impossible to purchase surplus, and the cost of food or the bare necessities of life even under these circumstances was exorbitant and almost prohibitory, fifty-pound sacks of flour selling at to \$125.

Although there are many tons of supplies at Fort St. Michaels, about 1,770 miles from Dawson City down the Yukon, it will be impossible to get any food from there before next summer. The only possible rou's by which supplies can be transported into mining district at the present season would be either by the Chilkoot or White pass through Lakes Lindeman and Bennett and down the Lewes and Yukon rivers over the ice or through the Chilkoot pass and pver Dalton's trail, approximately 790 miles and 550 miles respectively from Juneau, reuiring from thirty to thirty-five days iravel from Juneau-a most hazardous and perhaps impossible trip, although it is be leved it can be accomplished.

From the best information obtainable it believed that the use of reindeer will be he means by which these supplies can be rotten through if at all, It is therefore recommended that reindeer be purchased in Lapland to the number of 500 and pernission granted to bring reindeer drivers from that country, this upon the information that it requires much skill to manage these animals. It is believed supplies taken into that country need not to any great ex-lent be furnished as a gratuity, but that

many of the miners will be able to pay the sost of such supplies,

LONDON, Dec. 14 .- The Berlin correspondent of the Daily Chronicle, in a dispatch today with reference to the petroleum question, says: "The German consumers everywhere prefer American to Russian oil, and the government hopes some method may be discovered of reducing the specific gravity of the Russian product and cheapening and facilitating transportation. The prospects, however, are that the refiners at Baku will find Oriental markets for all the oll they can

produce, and the sale of Russian oil in Germany is diminishing.

"It is believed that the Standard Oil trust will not succeed in getting the Baku refiners into its ring, M. D. Witte, Russian minister of the Missouri, Kansas & Texas railroad and is likely to forbid it. As the case now

Gold from Australia, NEW YORK, Dec. 13,-The Evening Post of District Attorney Barnes, W. H. Durrant, says: The receipts of \$1,374,000 in gold at San Francisco from Australia, expected to arirve on Thursday, will obviate the necessity of transferring from this city to that place. The treasury consented to accept gold in this city a few days ago and gave telegraphic transfer to San Francisco, but only one firm availed itself of the privllege and remitted \$500,000 in that way and that remittance seems to have settled the

firms bid for parts of the exchange, but one firm took it all,

Strikers Demand Indemaity KANSAS CITY, Dec. 13,-As a condition preliminary to the removal of the boycott against the Armour Packing company the three labor unions involved have demanded an indemnity of \$50,000 to be paid to the union men who have been locked out. Other labor unions repudiate the demand,
