ATTACK CIVIL SERVICE LAW

Enemies of the Measure Begin Their Warfare Looking to Repeal.

GROSVENOR LEADS THE FIGHT UPON IT

Consideration of Appropriation for Civil Service Commission is Postponed Until After the Holidays.

WASHINGTON, Dec. 14.—The house today, after a session of about two hours, adjourned out of sympathy for the president, whose mother was buried at Canton today. The time of the session was devoted to the consideration of the executive, legislative and judicial appropriation bill. It was decided to postpone the consideration of the item providing for the maintenance of the Civil Service commission until after the other features of the bill had been considered. It was apparent from the remarks made today that the entire subject will be exhaustively debated. There is seemingly no disposition to curtail the discussion and it probably will not be concluded before the holiday recess. So absorbing is the topic that almost the entire time today, despite the fact that the consideration of the question had been technically postponed, was consumed in the debate upon it.

In committee of the whole the house took up the bill providing for the maintenance of the Civil Service commission, but Mr. Bingham, republican of Pennsylvania, in charge of the measure explained its provisions in detail. Mr. Bingham said he would not attempt to reduce the clerical force in the pension office by ninety-five clerks, involving a reduction of \$15,000 in salaries.

WIDE LATITUDE FOR DEBATE.

Mr. Bingham did not discuss the appropriations providing for the maintenance of the Civil Service commission, but stated that the widest latitude would be allowed for debate, even if it should extend over the holiday recess. He asked, however, that the provision of the bill relating to the civil service and the debate thereon should be postponed until after the recess.

Mr. Barrett, republican of Massachusetts, took the floor and made some general remarks in support of the bill. He referred to the minority report against the civil service law which he passed the house in 1883. The vote stood 155 to 100.

Mr. Carson, republican of Illinois, and Mr. Bingham reiterated their opposition to the bill. The latter explained that the law as passed would suspend the rules, practically without debate, and never contemplated an extension by executive orders over such as 87,000 government employees.

Mr. Barrett, continuing, stated that it was a republican measure, passed by republican votes and that the party was irrevocably committed to the policy of civil service reform.

Mr. Moody, republican of Massachusetts, said he was willing to give a hearing on the civil service question and he did not propose to give judgment on the bill.

Mr. Grosvenor commented on this statement. All he asked was that the house should honestly consider the question and give its verdict. He said that the statesmanship that respects only what others say is the statesmanship of the parrot.

Mr. Decker, democrat of Missouri, discussed the amazing growth of the expenditure of the government in the last few years. The ordinary expenses of the government, exclusive of the public debt, the last eight years exceeded those of the preceding eight years by \$1,000,000,000 in round numbers.

In view of this fact there were only two ways he said to bring the receipts and expenses together. Either taxation must be increased or the government must be reduced to reduced congress alone could not accomplish much without the aid of the executive branches of the government.

Mr. Grosvenor, addressing the chair, said: "Mr. Speaker, as well known to the general exercises of the mother of the chief magistrate of the nation are to take place at the house of the president, and in the presence of the members of the cabinet and respect, I move that the house now adjourn." Motion was unanimously carried and at 1:45 the house adjourned until tomorrow.

ARGUILLA'S POSITION TOWARD CUBA.

Leader of the Autonomist Party in the Island. WASHINGTON, Dec. 14.—Senator de Rafael Arguilla, one of the Cubans in New York, was in Washington yesterday and spent some time in conference with the president in this city regarding the outlook in Cuba.

Senator Arguilla was a leading lawyer and autonomist of Cuba and left the island on account of a disagreement with Weyler's policy. He settled in New York, where he is conducting a newspaper in the interest of the autonomist. This has been printed in Spanish, but it has been arranged to issue an English edition to meet the demand for the paper, entitled "The Autonomist." It also claims to be an autonomist paper.

It is believed that Arguilla has never declared for independence, but has always advised a constitutional line for home rule. He is now considering whether he can better serve his cause by remaining in New York, or returning to Cuba and taking an active part in the political organization of the government there, which his prominence in the autonomist party seems to require of him. It is not settled that he shall be a member of the Cuban cabinet, but it is highly probable that with the domination of his party in Cuban affairs he will be called upon to assume some highly responsible place.

WANT TAIYA SUB-PORT ABOLISHED.

Furnishes British Prospectors Advantages Not Accorded Americans. WASHINGTON, Dec. 14.—Senator Perkins of California and Senator Wilson of Washington have had a consultation with Secretary Gage, in which they recommended that the sub-port of entry, Taiya, be abolished. They presented a number of papers and petitions to this effect, which represented that Taiya as a sub-port now furnishes advantages to persons from British Columbia which are not given to United States citizens going through the cases.

CURRENCY & HERESIES LIVE

Defeat Only Serves to Change Direction of the Movement.

MUST KEEP UP FIGHT FOR SOUND MONEY

Report of Executive Committee to the Twenty-Eighth Annual Convention of the National Board of Trade.

WASHINGTON, Dec. 14.—The National Board of Trade met here today for its twenty-eighth annual session. George W. Starnard of Missouri presiding in the absence of Frederick Fraley of Pennsylvania, who has been president of the board since 1888. The executive committee made its annual report, which was adopted without a dissenting vote. On the subject of the currency the report says: "Probably there is no subject which is still of so much importance to the people of this country as the monetary system. While the report is in favor of sound money in 1898 was not without its doubts, it is a mistake to suppose that in the way of a permanent prosperity, which condition is mainly due to the fact that the future of our monetary system is still largely in doubt. Overconfidence as to the continued influence for good and the defeat of silver is the chief danger to be avoided. While hard times are not a stimulus to unsound systems of finance, they are a stimulus to sound ones. The numerous friends of such systems will be greatly satisfied by return of prosperity. The fact that the silver question has undoubtedly been brought to the attention of the public mind, principally workmen and farmers, is a great gain. A spirit of unrest and dissatisfaction still exists among such classes, and it is to be hoped that such a great conversion from the free silver doctrine has taken place anywhere in the country."

HERESIES STILL LIVE. In New York or Nebraska the opinions of the Torrey bill are not a novelty. The form may have changed. As free silver was but a heresy, so the Torrey bill is but a heresy. It is the tendency to become a flat money rather than a silver question. The Torrey bill is but a heresy. It is the tendency to become a flat money rather than a silver question.

REFORMING CONSULAR SERVICE. One of the most important reports prepared and adopted was that of Jonathan A. Lane of Michigan, secretary of the consular service. The report advocated the extension of the civil service rules to cover the consular service to the end of securing practical efficiency in the service rather than purely political appointments.

Another important recommendation was that hereafter importers be compelled to attend to the duties of their office. The country from which the goods are shipped, in addition to their oath before the United States consul, in this connection it is also suggested that the government annually by under-valuation of goods paying an ad valorem duty, the oath before a United States consul should be made by the importer.

There is a further statement by the report that many of the largest exporting houses in foreign countries, who connive at this violation of the law, are to be punished by the method of punishing those guilty of this form of deception.

UNIFYING THE LAND LAWS. Somewhat in the same line is the object of the various bills now pending in the Senate. The measure relates to the unifying of the land laws of the several states, so as to make the methods of land transfers and the starting of titles the same throughout the country, simplifying the various existing processes and reducing the expense to the minimum.

THE CASE OF SURGEON GENERAL WYMAN for a national quarantine law were discussed at length and heartily endorsed. Mr. Speak of Boston submitted a report on the bankruptcy laws, stating that a bill similar to the Torrey bill would soon be introduced before the house of representatives and urging its endorsement. This report was also heartily endorsed.

The new organizations admitted to membership were the Utes Chamber of Commerce, Ohio Valley Improvement company, New Orleans Board of Trade and the Atlanta Chamber of Commerce.

The venerable president of the board, Frederick Fraley, resigned the chair, and held office since the organization of the board, was unanimously re-elected.

NASHVILLE, Tenn., Dec. 14.—At the opening of today's session of the American Federation of Labor several protests were made against the credentials of the delegation. The delegates should be seated and the matter referred to the grievance committee.

Congratulatory telegrams received from New Jersey, Toronto, Kansas City and Peoria were also read. DAY TO BE REMEMBERED

If Your Children Are Having Trouble with Their Eyes.

DON'T NEGLECT THE CHILD'S EYES

Dr. Seymour & Daily Make This Children's Day—Those Unable to See the Doctors Saturday May Come Today Without Charge.

That this liberal offer made by Dr. Seymour and Daily to examine children's eyes free of charge, has been appreciated, cannot be doubted by those who have called at their offices on the days set aside for this work, and as they will give attention to every eye that they send them invitations to Wednesday and Saturday of each week, at which times all are welcome. Many do not appreciate the importance of this class of work, as that are necessary to this class of work, as the means employed by the ordinary optician are not only valueless, but positive injuries, when made upon the child by the improper fitting of glasses. It is not only necessary to have properly arranged rooms for this work, but very expensive instruments which are made for this purpose, and it is without doubt the most accurate instrument for measuring astigmatism in children's eyes of anything that has ever been invented. By not being examined with proper attachments, and eyes attended to if they complain of headaches or smarting eyes, by your friends who may be prejudiced against seeing glasses on children, and advise you upon this subject, you may be satisfied that they need them. To make this examination entirely free of charge, and advise you upon this subject, you may be satisfied that they need them. To make this examination entirely free of charge, and advise you upon this subject, you may be satisfied that they need them.

Cross eyes, to most people, simply mean a misdirection, when in reality this is of the smallest consequence compared with the fact that cross eyes, uncorrected, invariably means the gradual loss of sight to one eye. Again we wish to emphasize the fact that cross eyes, uncorrected, invariably means the gradual loss of sight to one eye.
