wholesale druggists from the cities of the central west held a conference here today. The conference was called for the purpose of considering the cut rates at which drugs and patent medicines are being sold by the department stores as well as by many re-tail druggists and to take steps to stop the practice if possible. The protection of the retail dealer was another subject considered. George K. Hopkins of St. Louis was chosen secretary and J. E. Jones of Kansas City chairman of the conference.

OMPROMISE ON WATER QUESTION.

WHAT HEALTH REQUIRES.

ouncil Will Receive an Ordinance Looking to a Settlement.

At the regular meeting of the council last night Councilman Burmeater introduced a ordinance providing for a settlement of the water works question. This does not necessarily represent the views of eny member of the council, but it will be introduced at the request of the officers of the exposition association, by whose attorney it was drawn up. A resolution was first drawn up and submitted to the council which provided in substance that the city should waive the right of purchase of the water plant until 1908, in consideration of which the water company was to expind \$450,000 in improvements, in-cluding a new main from Florence. Of cluding a new main from Protected this amount \$250,000 was to be spent during next year. The members of the council suggested that such a proposition should embodied in an ordinance, and the o embodied in an ordinance, and the ordi-mance will be substantially similar to the resolution. No action was taken on the subject beyond the intro-duction of the ordinance and its reference to Burnesie's committee, and the discussion of the prop-osition will be left for Wednesday evening, when the members of the strosition directory when the members of the exposition director will meet with the council for that purpose It is intimated that several of the propert owners who were corspicuous in the fight against the compromise which was proposed last February will also be prezent to oppose the present proposition and the indications are that the session will be a fively one. So far none of the councilmen have given any intimation whether they will vote for the ordinance which the exposition propie ask the council to pass. They are wait-ing until after the meeting tonight ad some of them state that they are ing to act in the matter according to what seems to be the expressed wish of the peo-ple. They admit that this proposition is incomparably inferior to the one which was rojected early in the year, but they have been positively assured by the representatives of the water company that it is the best the city can get. There will undoubt-edly be a difference of opinion when the matter comes to a vote, but there is some reason to believe tha the council will eventually makes the test of a bad bargain and compromise on the best terms obtainable.

Council and the Assessment.

The members of the city council are all ready experiencing all kinds of trouble in anticipation of the session on the tax assess ment, which must be completed by the tax commissioner on or before the third Tuesday in December. The council is required to sit as a board of equalization on the assessment for at least five days, and a number of erty owners are already assiduously lobbyin with the members to secure reductions their assessments, which have been refu by the Board of Reviews. The general sentiment of the council is adverse to making any material changes, except in cases where an injustice seems to be apparent. They say that the Board of Reviews has probably made as equitable an assessment as possible and that any extenive tinkering with its work would be apt to do more harm than good.

Board of Equalization

The council met yesterday morning as a board of equalization to consider a big stack of plans of assessment on account of recent improvements. The board will remain in session for three days. Stuht was elected chairman.

Attempts to Murder His Family,

MILAN, Mo., Dec. 14 .- (Special Telegram.) -Gus Menefee of this city attempted to murder his wife and five children last night. About a year sgo he tried to murder his wife by cutting her throat from ear to ear, but missed her jugular vein. For that she refused to prosecute him.
