HOPE TO IMPROVE QUALITY OF GRAIN

Product of South Dakota Wheat Farms Not Up to Former Standards of Excellence.

PIERRE S. D., Dec. 15 - (Special)-A. C. Sohrson, traveling suditor for the VanDusen Schuson, investing sublide for the vanisation on account of this new turn. At the came time this brouch of handling cattle will no iness in the Dakoias would attempt to induce | extreme, and point to the fact that the Dakota fields which the deed far the transfer of the Unitarian years ago produced No. 1 hard wheat have church to the city for use as a home for for several years produced infersor grades. the public library. This building cost about the grain now raised being of a larger and \$10,000, but the Unitarian society here has secured from the Saskatchewan, or some other spring wheat section of the northwest the result will be to get back to the more clushle grade of wheat and be a benefit to the farmers of the Dukotas. A general effort will be made to bring about this change and it will be pushed as seeding time approaches. Whether their theory is the corect one or not, the fact remains that the grades of wheat from the Dakota fields have not kept up to the standard at which they started with the suffement of the country. and the experiment would be worth the try-ing if it would tend to bring the grain up to the former grades, or even tend in that

# RESOURCES OF SOUTH DAKOTA.

### Wealth of the Sinte that is Awaiting

Development and Use. HURON, S. D., Dec. 15.-(Special.)-Prof. L. W. Hester, president of the State Agri-cultural college delivered an address before the irrigation convention here last week that was full of information of value to the South of sleigh bells. I. W. -

The murderer who, at dead of night, creeps, stealthily out to bury the dead and mangled body of his victim inspires men with horror and dread. There is a murderer broad who yearly slays one-sixth of all the human race who go down to untimely deaths. This dread monster is called consumption. The approach of consumption is slow and insidious. First there is a slight disorder of the digestion. The appetite is poor and the nourishing properties of the food are not property a similated. The blood becomes thin and impure. The body begins to starve. Old tissues of the body are not property re-placed by new. The lump tissues are not placed by new. The lung tissues are not properly nourished and are inert and half dead. In this condition they offer a good soil for the germs of consumption which invade and attack them.

invade and attack them. This operation is promptly reversed by Dr. Pierce's Golden Medical Discovery. It invicoutes the direction and appetite and makes assimilation perfect. It builds up and purifies the blood. It makes new and healthy tissue to replace the old, inert matter which it causes to be carried off. It drives out all disease germs. Thousands of cases given up as hopeless have been cured.

cases given up as hopeless have been curred. Misa Laura Piersel of East Bethlehem, Wash-ington Co. Pa., writes - I must write you tel-ling you of the great brackit derived from the use of your Golden Medical Discovery. Last sum-mer my friends though I was surely going into consumption, and baving tried doctors with no satisfactory results and hearing your medicine so highly spoken of I took one bottle. My cough left me together with all the distressing symp-toms, and in fact the curre seemed almost miractoms, and in fact the cure seemed almost mirac-uleas to all who saw me."

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated granules that are an unfailing and permanent cure for constipation.
