

ART FOR THE EXPOSITION

Picture and Statuary of the Highest Grade Promised.

DIRECTOR GRIFFITHS ON HIS WORK

He Finds a Decidedly Favorable Sentiment Among Painters and Sculptors, While Owners Are Very Friendly.

A. H. Griffiths, art director of the exposition, is in the city to consult with the exhibition management regarding the art exhibit. He will remain in the city for a day or two and will then return again to the east.

Mr. Griffiths says he is very satisfied with the measure of success attending his efforts to collect a sufficient number of pictures of recognized merit to make a most creditable showing and says that the art exhibit of the Transmississippi Exposition will take a high rank among the exhibitions in this country as an artistic exhibition.

Mr. Griffiths says that he first commenced his work early in the summer, encountering considerable difficulty in inducing artists and owners of valuable paintings to allow them to be exhibited at Omaha, the objection being made that the exhibition was only a small affair, like those of Nashville and Atlanta, and the owners did not care to have their pictures sent to a remote place for exhibition.

Another thing which Mr. Griffiths says is forming a strong inducement for artists to send their best pictures here for exhibition is the fact that no medals are to be awarded on the pictures declared to be the best and that no prizes are offered. Instead of these empty honors a syndicate of wealthy men will exchange a stipulation to buy the pictures, and this is more of an inducement to artists than a bunch of medals and diplomas.

PICTURES ALREADY SECURED.

Mr. Griffiths now has about sixty pictures from the Nashville collection stored in the vault of the Detroit Art museum, of which he is the director. These, together with a large collection of pictures which he has secured from the Nashville collection, which are in Mr. Griffiths' control, will be exhibited during the spring in eastern cities and then brought to Omaha to be included in the art exhibit.

Mr. Griffiths says he has about thirty pictures selected from the Nashville collection and a number selected from the collection at the St. Louis exposition are now in the vault of the Detroit Art museum, and he will send them to Omaha. The art director says he now has about 200 or 400 pictures in sight for the art exhibit, as well as a number of pieces of fine statuary, casts, etc.

In a conversation with R. Hall McCormick, in Chicago Mr. Griffiths found the Chicago millionaire director of the Transmississippi Exposition in the way of loaning some of his priceless pictures. Mr. McCormick is the Illinois representative of the art business and has been very coöperative in every way in which he could be of any service to the exposition.

PROTECTION FOR ART TREASURES.

Exposition Managers Will Provide a Safety Deposit Vault.

Art Director Griffith appeared before the executive committee of the exposition at its meeting yesterday afternoon and urged upon the committee the necessity of constructing a fire and burglar proof vault in connection with the Art building in which pictures and other valuable works of art might be stored at night away from all harm by fire or thieves.

After discussing the matter the executive committee of the exposition authorized the art director and the vault will be constructed at once. The committee authorized a contract to be made with Richard W. Bock, a Chicago sculptor, to make the statuary for the Machinery and Electrical department, full description of this statuary was printed in The Bee a few days ago. The several groups designed by Architect Perkins include thirteen heroic human figures in or twelve feet high, nine large lions, two rams, two lions and four eagles. Mr. Bock offered to make all of them and put them in position on the building, including the necessary scaffolding, to make them conform in tone to the building, for the sum of \$4,000. The architect-in-chief strongly recommended the awarding of the contract to Bock, an architect-performer presented a strong argument against it, which is the first of the buildings for which arrangements have been completed for statuary.

Georgia Commission Named.

Governor Atkinson of Georgia has appointed the Georgia Exposition commission of fifteen members as provided in a resolution passed by the legislature recently. The members are as follows: George C. Smith of Atlanta, president of the Atlanta & West Point railway; F. H. Richardson, editor of the Atlanta Journal; Thomas H. Scott of Augusta, general manager of the Georgia railway; H. M. Comer of Savannah, president of the Central of Georgia railway; P. A. Starnall, editor of the Savannah Press; E. F. Blodgett of Atlanta, assistant postmaster; C. E. Harmon of Atlanta, general freight and passenger agent of the Western Atlantic railway; J. E. Thompson of Atlanta, assistant general superintendent of the Southern railway; W. A. Hemphill, business manager of the Atlanta Constitution; H. C. Heaton of Macon, owner of large cotton mills; W. Knowles, editor of the Rome Tribune; Edwin Johnson of Brunswick, real estate dealer; J. F. DeLacy of Atlanta, attorney; George Ketchum, editor of the Milledgeville News; J. Northen of Atlanta, ex-governor of Georgia. The commission has not yet organized, but it is rumored that ex-governor Northen will be made the executive head of the commission. Governor Atkinson is a member of the board by provision of the legislature.

Appointments by State Commission.

The appointments were on the program at the meeting of the Nebraska Exposition commission last night at the Millers hotel. When adjournment was taken the following had been elected: E. D. Johnson of Lexington, permanent superintendent of the agricultural department; C. E. Drake of Albion, assistant superintendent of the agricultural department; G. A. Marshall of Arlington, assistant superintendent of the horticultural department; G. M. Whitford, assistant superintendent of the horticultural department.

Member Boydston was appointed a committee

to insure the agricultural exhibits that are already stored on Eleventh street, near the railway tracks, for \$500 and to insure the Nebraska state building for \$5,000. The commission will meet again this morning at 9 o'clock.

Onyx for the Exposition.

SALT LAKE, Utah, Dec. 28.—(Special.)—Mr. Cedarstrom has just in from the Pelican Point onyx mines, and reports all assessment work now done and also that the mines look better than ever before. The amount of onyx very fine onyx is now in sight and can be got at very easily. It is expected that in a few weeks a large windmill will be put in running order on the mines to run the machinery for cutting and polishing and turning blocks of onyx. Mr. Cedarstrom expects to make a very fine exhibit at the Omaha exhibition next June, and will not doubt a great person, as he thoroughly understands his business, when it comes to the handling of this stone. He is a good carver in stone and will show very fine specimens of his handiwork.

Western Editorial Federation.

The last of conventions which will meet in Omaha next year continues to grow. The latest addition is the Western Editorial Federation, an association composed of representatives of the newspapers west of the Mississippi. The meeting recently held in New Orleans was the first of the series. The place for the 1898 meeting, and the time of holding the convention will be changed to some time during the summer, probably in June.

Work on the Arts Building.

A representative of the firm of John L. Nelson & Bro. of Chicago is in the city. This firm has the contract for the staff for the Liberal Arts building. The representative will at once commence the work of erecting a workshop in the center of the Liberal Arts building, and the work of making the staff will be commenced without delay.

Notes of the Exposition.

At the last meeting of the Illinois Exposition commission an appropriation of \$3,000 was made for an agricultural display and 1,000 feet of space was allotted for the display. The announcement is made in the papers of Wichita, Kan., that the Commercial club of that city has appointed a committee of its members to make arrangements for an extensive exhibit at the exposition showing the resources of that section of the country.

The consular of the German empire stationed at Chicago has requested the Department of Publicity and Promotion to send a lot of exposition literature to Rudolf Sach of Leipzig, Germany, an extensive manufacturer of agricultural machinery and implements, who desires to make an exhibit of his wares at the exposition.

The Department of Transportation has been notified by the Canadian railways that they will make a rate on half the usual tariff rates on goods intended for exhibition at the Transmississippi Exposition. This completes the list of railways on the continent of North America that make a special rate for the exhibition.

The railroads of Mexico made the same announcement and every freight association in the United States has taken favorable action in this direction.

LICENSE CASES GO OVER AGAIN.

World-Herald Not Ready to Proceed with Its Protests.

A special meeting of the Fire and Police Commissioners was called yesterday at 2 o'clock to hear the protests filed against the License Cases which had been properly advertised. The full board was present. The application for a license in the case of Goodley Brucker, 218 South Fifteenth, was called as being the first one ready for trial. Attorney Hall, who represented the protest, asked that the case be objected upon the grounds that he was not ready with his testimony and moved that a case in which The Bee Publishing company claimed a protest should be placed on the calendar.

Mayor Boone's License Cases.

Mayor Boone's license cases were called up for a hearing according to the routine in which the protests had been entered. As the attorney for the World-Herald has a chain of cases pending on with the trial, the board, upon motion of the chairman, postponed the hearing until this morning at 10 o'clock. Clerk Weishaus of the board was instructed to have the newspapers with lists of the first six cases ready for trial so that the matter might not be delayed at the next meeting.

Richard Rice was arrested yesterday for the theft of a silk shawl from the police station. The shawl was valued at \$100 and was recovered by the police.

Owing to the death of Mrs. Woolworth Trinity cathedral has postponed the social birthday party to be held Thursday evening for the benefit of the parish fund. Notice will be given of the forthcoming date.

John and Frank Delbridge, "small boys" charged with the theft of a crate of ducks from the commission house of Riddell & Co. were arraigned yesterday in Judge Gordon's court and were each given thirty days in the county jail.

Dick Ryan, living near Sixteenth and Nicholas streets, was arrested yesterday afternoon while attempting to cut his wife's throat. He was drunk at the time and was locked up on a charge of being drunk and disorderly.

Deputy sheriff John Lewis left for Grand Island last night, where he will attend the annual convention of the sheriffs of Nebraska. Mr. Lewis is the secretary of the association and will urge that the next annual meeting of the organization be held in this city.

A warrant charging William Fernelly with the theft of a pair of silk curtains valued at \$20 from the Charles Sutterly company for the benefit of the parish fund. Fernelly is at present confined in the county jail charged with stealing several balls of silk from the W. R. Bennett company.

Twenty-six applicants for positions of teachers in the city schools are taking examinations at the Central school. The examinations will continue Wednesday and Thursday. The courses covered take in all the branches taught in the primary, grammar and high school grades, although only a few of the applicants are taking the latter examination.

A case of destination has been reported to Matron Ryaa of the police station in the persons of John Allen and his wife and infant, who live at 811 South Eleventh street. The wife is but 17 years old and the infant is newly born. The father has been unable to secure employment for some time past and the little family is said to be suffering from the lack of both fuel and food.

The regular meeting of the Young Men's club was held at the institute, 506 South Eleventh street, Monday evening, December 27, and the following officers were elected: Herbert A. Steffen, president; Fred J. Cole, vice president; Clarence H. Corey, secretary; Clarence E. Oberg, treasurer. It was voted to have a musical and reception at the next meeting, January 3, 1898.

A warrant has been issued for the arrest of the clerk of the Actna house, near Thirtieth and Dodge streets, on a charge of assault and battery. The complaint in the case is David Hamilton, who runs a restaurant in the same building. A few days ago, so Hamilton asserts, the clerk and a couple of helpers went on the roof of the building and began shoveling the snow off of it to the sidewalk in front of his place. He expostulated and in the row which followed the clerk struck him several times in the face.

COURTED THROUGH THE MAIL.

Nebraska Man and Minnesota Woman in a Mill: Marriage.

CUPID HAD NOTHING TO DO WITH IT.

Each Wanted a Mate and Now Each Wants a Divorce and the Court is Bothered by the Story.

The trials and tribulations growing out of a matrimonial bustle marriage was held in court before Judge C. C. Dickinson. The judge has been called in to settle the differences and both parties to the suit have agreed to abide by his decision, waiving a trial by jury.

Prior to 1896, the present Mrs. Benjamin Moore was a maiden, residing in Minneapolis, Minn., while Benjamin Moore was a ranchman, and so far as that goes he is still a ranchman, residing out near Hemingford, this state. At that time he had a wife and a child, where he numbers his acres by the thousands and his horses and cattle by the hundreds. He was a lone widower and found the running of a ranch an up-hill business, especially as he had no wife to cook his meals and look after the duties of the household. The present Mrs. Moore wanted a husband just as badly as Mr. Moore wanted a wife, and while she was thus wanting and waiting for one, just as a joke, she applied to the local papers for a matrimonial advertisement which was inserted in a Minneapolis paper informing the public that the present Mrs. Moore was a candidate for the matrimonial altar. This advertisement was read beneath the gaze of Benjamin Moore while he was resting from the labors that went along with ranching in the west. He indicated a letter to the woman in the Minnesota town. It was answered and then epistles of love and affection went back and forth until early in August, 1896.

Along about the last of August, 1896, Benjamin Moore turned the ranch over to the hired man and tied himself just as fast as the steam cars could carry him. On August 6 he reached Minneapolis and the next day he met his charming wife. At first sight, or at least, that is what they called it at that time, though now they are called it anything but love. The object of the whole matter was to get the lone Minneapolis maiden became Mrs. Benjamin Moore and with this name, her husband and belongings, she started for the ranch out on the Nebraska prairie. Arriving there in due time she was as happy as a couple of cooling turtle doves. Mr. and Mrs. Moore traveled over their 3,000 broad acres and made a fine home for themselves. The value of all being estimated at \$50,000 by both husband and wife.

For a time, as the story told in court goes, all went well, when the usual matrimonial troubles were induced. The wife received the idea that Moore was not so fond of her as a model husband should be. She told him this and he retorted by telling her that she was not the kind of a wife he had expected to find. Matters commenced to go from bad to worse until finally the wife came to this city, resided the statutory length of time and then instituted divorce proceedings. The wife filed her petition for divorce, alleging that while living with her husband she treated her in a shocking bad manner, frequently locking her in her room and leaving her for hours at a time. In the petition she stated that she was a loving and obedient husband, but that his wife was a vixen. He said that she abused him and that she was a bad mother.

These legal documents construed to be handed back and forth until the case was called in court, where all of the trouble is given out at a sitting. In addition to wanting a decree of separation Mrs. Moore wanted a division of the ranch and the property thereon, alleging that this was the only way in which she could get her share of the property. The husband and wife were both present at the hearing, which was held in the court room of the district judge. The wife's attorney, J. H. Millard, for \$201,884.05. In the petition filed in the office of the clerk of the district court the attorney alleged that on January 2, 1897, and prior thereto, Joseph S. Bartley, then state treasurer, had on deposit in the Omaha National bank state money aggregating more than \$200,000. He alleged that the bank was one of the state depositories, having been designated as such; that such money was deposited by Bartley as state treasurer.

In his petition Attorney General Smyth alleges that on January 2, 1897, Bartley, as state treasurer, wrongfully, unlawfully and fraudulently drew out of the state funds in the Omaha National bank, making the same payable to J. H. Millard, the president of the bank. The amount of the check, he alleges, aggregated the sum of \$20,884.05. He says, was paid out of the state money on deposit and was charged to the general fund of the state's account. It is further alleged that by so paying the check on the account of the state, the state treasury was depleted to the amount of \$20,884.05.

In asking judgment the attorney general asks that the amount of the payment of the check for \$201,884.05 be paid to the state, and that neither he nor the Omaha National bank and that neither he nor the Omaha National bank be held liable for the same. It is alleged that both Bartley and the bank were aware of this fact, and that both knew that Bartley had no legal right to draw out of the state funds. The attorney general avers that the whole transaction was illegal and fraudulent and that by reason of the alleged fraudulent transaction the bank and its president, unlawfully came into possession of the property of the state.

In the criminal trial against Bartley the Omaha National bank was named one of the issues on which a conviction was secured.

Return on Fitzgerald Attachment.

The sheriff of Lancaster county has filed his return with the clerk of the district court of this county. He sets forth the fact that he has attached the property of Ed J. Fitzgerald of the value of \$1,480, consisting of lands and lots in this state.

Fitzgerald is one of the Bartley bondsmen and this property is attached by order of Attorney General Smyth for the purpose of making good the bond of over \$100,000 which the state alleges it has against J. S. Bartley, the ex-state treasurer, who was convicted of embezzling funds that belonged to the state.

Sue Union Pacific.

Herman Zarnia, a minor, by his next friend, his father, has instituted a \$10,000 damage suit against the Union Pacific Railway company. The plaintiff alleges that on July 19, 1896, he was riding on the foot board of a switch engine running from Omaha to South Omaha. When the engine was in a packing house, he alleges that he was carelessly pushed from his position and falling beneath the wheels of the engine, his right leg was severed from his body.

Mary B. Shelby has asked leave to withdraw her application to be appointed administratrix of the estate of Joseph Creighton, deceased.

L. F. Crofoot, receiver of the Omaha Fire Insurance company, has asked the court for instructions as to what course he shall pursue in the collection of claims against parties who owe the company.

Robert A. Brantley has instituted divorce proceedings against his wife, Janet S. Brantley. He alleges that they were married at Atlanta, Ga., in 1888 and that more than two years ago she deserted him.

Hymeneal.

Erlewine-Netwig.

WEST POINT, Neb., Dec. 28.—(Special.)—George W. Erlewine and Miss Lizzie Netwig were married last Wednesday at the home of the groom's mother in this city. The groom recently moved here from Crowell. The bride is the daughter of Mr. and Mrs. Henry Netwig of this city.

HELPED OUT IN THE SUBURBS.

Boy is Believed of Twenty Cents by Dogs Streets.

An unapproachable holdup occurred about 9 o'clock last night (Dec. 28) on Forty-eighth and Dodge streets. Charles Brink, driver for Rose's Art store, was on his way to deliver a picture frame to the residence of a Dundee customer, when he met a highwayman and was relieved of his cash amounting to 20 cents. When the stranger had taken the money, Brink was obliged to walk from the end of the Farnam street car, as the Dundee car was not in sight at Forty-eighth and Dodge there is a deep-cut, a perfect opportunity for a highwayman in seclusion and depth of shadow. Here the hold-up man, who was apparently waiting for the car, stepped forward and as Brink approached the boy and went through his pockets with little ceremony, taking out the change. The latter regarded the club and made no objection. When the stranger had satisfied himself that he had exhausted the boy's pockets, he tore the wrappings from the frame and returned it with the remark that the car was waiting. Brink then proceeded to go on about his business and kept still about it. Brink was unable to give an accurate description of the man on account of the darkness of the night and a muffled high about his throat. He says, however, that he got on Dodge toward Forty-eighth street, and then he himself continued to R. H. C. Van Cough, funds, bronchitis, pneumonia and throat and lung troubles. It is pleasant to take, safe to use and sure to cure.

It is easy to catch a cold and just as easy to get rid of it if you commence early to use One Minute Cough Cure. It cures Coughs, Colds, Bronchitis, Pleurisy and all throat and lung troubles. It is pleasant to take, safe to use and sure to cure.

Derthick Club Meets.

Last evening at the Hayden annex the Derthick club held another of its semi-monthly meetings. The president, Mrs. Frank Folds, presiding, presented a resolution which referred to certain criticisms that had appeared in a local paper, and requested the members to make a statement of their views on the meetings of the club as private, and command the courteous treatment of ordi-nary soap factory. By the addition of this new soap factory will be doubled and employment will be given to quite a number of men and women in addition to the force now engaged in the manufacture and wrapping of soap. An order was received yesterday by the Cudahy people for 2,000 boxes of soap from Shanghai, China. According to Superintendent Cameron this is the first time that an order has been received in the west for soap for the China trade. This shipment will fill seven cars and will go from here to Mr. Netro of Detroit arrived yesterday and will be engaged for some time in superintending the erection of the new machinery purchased from the firm he represents in the soap factory. By the addition of this new and improved machinery the capacity of the soap factory will be doubled and employment will be given to quite a number of men and women in addition to the force now engaged in the manufacture and wrapping of soap. Christmas at St. James Orphanage.

The sisters and children at St. James Orphanage, Benton place, received their share in returning thanks to their many kind friends and benefactors for their liberal donations of money, clothing, candles, nuts, etc., at the 120th anniversary of the orphanage. The program was given by the children of the orphanage. The program was given by the children of the orphanage. The program was given by the children of the orphanage.

Trinity Cathedral Sunday School.

The following were present at the activities of Trinity Cathedral Sunday school held yesterday afternoon from 3 to 5 o'clock in the crypt of the cathedral. Owing to the inclement weather the school was held in the crypt of the cathedral. Owing to the inclement weather the school was held in the crypt of the cathedral.

All Saints Brotherhood Entertainment.

The Brotherhood of All Saints church gave a neat entertainment at Metropolitan hall last evening, which was witnessed by a large audience. The attraction was a singing of the hymns of the church. The singing of the hymns of the church was the main feature of the evening.

Work on the Armour Plant.

Forty bricklayers were at work yesterday on the walls of the buildings at the Armour plant. Five buildings, the hog cooler, the hog hanging hog killing, tank and oleo buildings, are now in course of construction. The timber on the hog cooler house are now up fifty-four feet and will be built to a height of eighty-seven feet. Owing to the fact that the carpenters are quite a ways ahead of the bricklayers, not so many men are employed now as were a short time ago or will be in a few days. On the hog cooler building the brick walls are up to a height of thirty-five feet, while the walls of the other buildings vary in height from the story to three stories.

At the present time Armour is working 225 men while the contractors, Bechtold & Gould are giving employment to 125 men. This number is exclusive of the men engaged in hauling brick. Owing to the unfavorable weather the concrete gang had to be laid off and this reduced the number of men employed by about 100. There is no lack of material on the grounds. Lumber is arriving and being unloaded daily and the contractors supplying the structural iron keep quite a force at work unloading iron beams, braces and caps from cars.

Superintendent Simpson, Frank Miles and R. C. Clark went to Chicago to spend Christmas with their families. Mr. Clark returned yesterday, but the others are still in the Widy City. Work at the Armour plant

Creditors Sale of National Clothing Company

Today we have selected 75 to 100 suits of broken lots that were marked by "The National" \$8.00—they are all men's sizes—but the lots have been so badly broken that we can not wholesale them off—your choice today—if your size is here—for \$3.50 a suit—

"National" \$6.00 Suits and Overcoats	\$3.85
"National's" \$7.00 Suits and Overcoats	\$4.25
"National's" \$8.00 Suits and Overcoats	\$5.50
"National's" \$9.00 Suits and Overcoats	\$6.75
"National's" \$10.00 Suits and Overcoats	\$7.25
"National's" \$12.00 Suits and Overcoats	\$8.00
"National's" \$14.00 Suits and Overcoats	\$9.50

—and so on—every stitch of clothing—men's and boys' odd pants—hats and underclothes—shirts and every article contained in this stock—even to the fixtures must and will be closed out—to satisfy us—(the creditors)—to pay the indebtedness of this insolvent firm—It will pay merchants from all the surrounding cities to visit this sale—hundreds have been here and bought—Investigate the truthfulness of these statements—the trouble will be well paid for—

Creditor's Sale of the National Clothing Co's Stock

South Omaha News.

Superintendent Cameron of the Cudahy Packing company will leave for an extended eastern trip on Friday. While away he will look into a number of industries with a view of adding to the variety of products now turned out at the Cudahy plant. One object of the trip is to purchase machinery for the glycerine plant, which is to be enlarged. The plans for this change have not yet been completed, but Mr. Cudahy expects to manufacture refined glycerine next summer as well as the raw material, which he is now disposing of to the manufacturers of nitro-glycerine. Several cars and will go from here to Mr. Netro of Detroit arrived yesterday and will be engaged for some time in superintending the erection of the new machinery purchased from the firm he represents in the soap factory. By the addition of this new and improved machinery the capacity of the soap factory will be doubled and employment will be given to quite a number of men and women in addition to the force now engaged in the manufacture and wrapping of soap.

An order was received yesterday by the Cudahy people for 2,000 boxes of soap from Shanghai, China. According to Superintendent Cameron this is the first time that an order has been received in the west for soap for the
