ECHOES OF THE ANTE ROOM

The convention camp and officers of the Woodmen of the World of this city are taking the initiative in a plan to erect a temple for fraternal and benevolent organizations on the exposition grounds.

The project proposes a building which will cost in the neighborhood of \$100,000. This expenditure is considered sufficient to construct a building of suitable size and appearance.

It is believed that a building like this will be much more than a mere structure. It will be a place where the different orders, as a matter of fact, some of the latter are not rich enough to put up a building of their own.
