

JOHN CHONAMAN'S MEDICINES

Wonderful Nostrums Used by the Celestials to Placate Gods of Sickness.

DOPE FROM THE WITCHES' CAULDRON

Every One His Own Doctor and Every Store Equipped with Drugs—Poultices of Cat's Liver and Tea from Lizards.

My experience among the Chinese has brought me in contact with the strangest medical system in the world. If any local county medical society were to look into the methods pursued by the Chinese physicians in the United States there would be found material enough to keep that society occupied in the law courts for years to come.

CHINESE DOCTOR SHAVING RHINOCEROS HORN FOR MEDICAL PURPOSES.

Included as one of the partners, and he acts as physician and apothecary for the firm. In China the apothecaries, before they can carry on their business, must pass so examination and must receive a diploma from the examination board.

CONCERNING SPOTS.

The pathology (shank-han) of the Chinese is very incomplete and all diseases, especially epidemic diseases, are ascribed to spirits and winds, and cold and warm humors, etc.

CHARGE RECORDS WERE ALTERED.

Sensational Development in Chicago Police Department—A sensational character was made against the civil service commission office before the investigating committee today.

THEIR IDEA OF SURGERY.

There is a distinction between physicians and surgeons, and it is more sharply defined than with us. Every man is expected to stick to his own branch of the profession.

BIGGEST GUN EVER MADE

A Huge Coast Defender Being Constructed at Watervliet Arsenal.

WILL FIRE A THREE-QUARTER-TON SHOT

And Send it a Distance of Twelve Miles—Eighteen of the Monsters to Guard New York Harbor at Homer Shoal.

The United States government is now having constructed at the Watervliet arsenal a monster gun, which, with seventeen others like it, will be used as a part of the defense of New York. Six of these monsters, says the New York Herald, will be mounted on turrets on Homer shoal.

THE HOMER SHOAL SITE.

The Homer shoal site, which is the area of the lower bay, to the eastward of the Swath channel, so generally employed by vessels, drawing about eighteen feet of water.
