AFRIDI WAR ENDED

Dusky Savages Finally Succumb to the British Arms.

TRIBES HAVE NOW GIVEN UP THE FIGHT

Do it Because They Are Likely to Lose Next Year's Crops.

ENGLAND LOSES HEAVILY IN THE WAR

Number of Her Soldiers Killed Far Exceeds that of Natives.

CUSTOMS LEAGUE TO BAR OUT AMERICA

Persistent Effort Making in Europe to Cut Off the Trade of Uncle Sam in the Far East.

LONDON, Jan. 15.—(New York World Cablegram—Special Telegram.)—The war on the Indian frontier against the Afridis is at an end. At least so said half an hour ago, Field Marshal Lord Roberts. It has been a costly episode, in which a few Afridi and many English lives have been sacrificed.

The tribes which now give up the fight do so because the British troops have conclusively shown their capacity to at least destroy the next year's crops. Germany, meanwhile, has triumphed at small cost over the whole of China by seizing an excellent harbor, which it will fortify at once.

The German emperor does not appear to have consulted the constitution or even to have held a council of ministers on a step which usually means a war with a foreign power, or at least the sending of troops beyond the frontier.

GERMAN INVASION OF CHINA. Public sentiment in England has maintained a dignified utterance regarding Germany's invasion of China and Mr. Balfour's recent speech is applauded by men of all parties as a rational program. He says in brief, "We welcome Germany, and she will do so long as they help open up new markets, but not if they mean to establish a monopoly."

There is some surprise here that America should sit with folded hands while Chinese ports are threatened with a form of occupation that must prove injurious to American manufacturers, if not farmers. England is now the only great power which colonizes for the benefit of all the world, and it is besides the only country where Americans enjoy personal liberty. In the dark days that are coming we shall need help, and now is the time to prepare.

There is a German soldier named Throener belonging to the Ninth company of the Kaiser Alexander regiment, who has been over a year in Spain for a couple of years more to serve in Spanish fortresses. The authorities admit that Throener is an exemplary workman and the main support of his mother in Alsace ever since being recruited. However, he has been in jail because he belongs to a Protestant sect somewhat akin to the Quakers and his conscience forbids him taking up arms.

REVOLUTIONARY ECHOES. This year, by the way, is that of revolutionary echoes. This week the Italian king gave his official countenance to the fiftieth anniversary of the Sicilian rebellion, which paved the way for united Italy.

POLICE AS BLACKMAILERS. Some time ago the German minister of foreign affairs, Baron von Marschall, discovered that the Berlin political police was engaged in blackmailing operations whose object was to drive him out of office.

LONDON, Jan. 15.—(New York World Cablegram—Special Telegram.)—I called today on Emile Zola at his Paris residence to ascertain his views on the subject of the prosecution now instituted against him by the French government for his charges against high military officials in connection with the Dreyfus scandal.

Zola is elated at the prosecution that hangs over him. He looks forward to it with confidence, and is triumphant in the hopes that he will secure Dreyfus' liberation. He will expose the atrocious injustice, and says he forced the hands of the government to take action.
