Conductor and Motorman Terrarized Into Submission and Robbed of Fifteen Dollars - Vo Pas-

sengers on the Car.

The professional thugs who have been working their will upon the citizens of Omaha during the last few weeks apparently have become satisfied with their glut of ordinary holdups and burgiaries and last night directed themselves to an attempt upon a street car, a field which has been neglected in Omaha for a long time. The job was performed at Thirteenth and Valley streets, an especially extremely lonely location, and a little more than \$15 was secured.

E. C. Whitney, had reached the southern terminus of the line nearly opposite Riverview park and the car had been turned upon the "Y," ready for the return trip. The latter was seated before the fire with his mittens held before the blaze and Whitney was standing near, when the door spened and two supposed passengers entered. One had his face muffled in a handkerchief and the other wore a heavy red heard which obscured his features. The latter was not of a natural growth, however, and was observed

Revolvers were pointed in the direction of the train crew and the red bearded man said: "Throw up your hands, boys, and be quiet." The instructions were obeyed and the more aggressive robber made an examination of pockets and hat linings in search of valuables. From Whitney he obtained \$15 in change, the fruit of his btained \$15 in change, night's fares, and a small amount which belonged to him personally. When the hing was done, the spokesman in a disguised voice ordered the conductor to go to his post on the rear platform and give the louble gong to go ahead. The motorman re-sponded and the train pulled out a little thead of time.

When Conductor Whitney was asked last night to give a description of the robbers he was able to go no further than what has been mentioned. He says he was so startled hat he did not notice whether the men were all or short or were supplied with overoats. Mr. Whitney has been in the street car service for a number of years and lives at 4355 Charles street.

### SOUTH OMAHA NEWS. 3

Superintendent Dan Cameron of the Sudahy Packing company returned yesterday rom an extended eastern trip. He was in Washington at the time action was taken by the Department of Agriculture on the proosed tax of 5 cents per head for microscop cal examinations of export hogs and was enthusiastic over the energy displayed by Congressman Mercer in having the measure nocked out. When the attention of Conresaman Mercer was called to the proposed ax he at once saw that it would ardship on South Omaha packers and took tens to counteract the influences in favor of he project. Mr. Cameron said that such ax would mean several thousand dollars car to the Cudahy company and would in a measure restrict the export trade just at ime when there was a good foreign deman

or our meats. It has been definitely decided to erect another scap factory and work on a duplicate of the one erected a year ago will commence in the spring. By means of the improved machinery recently purchased and set ip the cutting of great blocks of scap into dabs and bars has been greatly facilitated and the daily output has been materially increased. A large steam machine for press-ing each cake of soap has been ordered and will arrive this week. This machine will to the work of the eight hand presses now in use. Excavations are now being made for the new glycerine factory to be built just west of the suap factory. Mr. Cameron left last night for Sioux City to look over the new packing house being built by the Cudahy company at that point. E. A. Cudaby is in Chicago attending to business matters.

May Raise Saloon Licenses. It is understood that at the next regular

meeting of the Board of Education a resoution will be offered requesting the city ouncil to raise the saloon licenses from \$500 to \$1,000 a year. This action has been talked over informally by the members of the board a number of times and it has been decided that the time has come for some action. Every member of the board under-stands that it remains with the council to raise the license, but it is thought that the natter should be started by a resolution passed at a regular meeting. What the city council will do with such a resolution is not known, but it is safe to say that unless compelled by the courts to take some action the resolution of the board will be respectfully received and filed.

There may be a fight in the board in regard o the passage of such a resolution, but from what can be learned it is supposed that a majority of the members favor high license. The council will not want to raise the license for the reason that by so doing sev-eral thousand dollars in revenue would be exception that in the remarks and prayers saloon pays an occupation tax of \$100, which the quality of self-denial was given particular prominence.
