LOCATE THE MOTHER LODE!

Treasure-Laden Miners Return with Stories of Very Rich Strikes.

LATE ARRIVALS CONFIRM THE REPORT

Assures Permanency of the Klondike Field-Estimate of the Winter's Output of Gold.

SEATTLE, Jan. 18 .- The news brought by the treesure laden miners who have arrived from the Klondike on the steamer Corone is important chiefly in that it is confirmatory of the discovery of the great mother lode. Welch, Coffin and Burt are authority for the statement that the original strike was made at the upper end of claim No. 30, Eldorado, while two stringers, one at No. 27 and another yet lower down, were subsequently located. Throughout the district the discovery is accepted as assurance of the permanency of the district as a rich gold mining field. As to the placer diggings, they continue rich. Powder creek, an affluent of Quartz creek, has been having a boom, pans of \$3.75 and \$4 being a common thing. Of course the stream was located as soon as the first important discovery was made. All Gold creek shows pans of \$10 to \$100, while the miners on Hunker creek, Henderson, Dominion, the big Salmon and the Stewart all declare themselves satisfied with the prospect. One of the first men to strike ground on the Eldorado and the very last man out of the Klondike country is Andrew Olsen, better known as "The Big Sweds." He is notable as being the owner of the claim on which the biggest Klondike nugget has yet been found. The lump of gold was valued

In answer to a request for an estimate of the winter's gold dust output of the camp, Joe Campbell, one of the returning miners, said: "We have done a great deal of figuring on that and it now appears that the output, on that and it has a process that the output, notwithstanding the scarcity of food and light, will be from \$12,000,000 to \$15,000,000."

Dr. H. Littlefield of Skagway came in on the Corona. He has just closed a contract with the Canadian government to pack provisions to Lake Bennett for 25 cents a

L. L. Grady, formerly a banker of Fair-fax, Minn., paid \$600 for the privilege of walking from Dawson behind a brisk dog team. Muret Anderson, an elderly gentle-man of St. Louis, made the trip after much the same fashion.

MAKING A BUSINESS OF BEGGING. State. Impostors Who Go Every Winter to

Request Alms. CHAMBERLAIN, S. D., Jan. 18.—(Special.) -It was been ascectained that there are a few individuals living on the Sisseton reservation who make a practice during the winter season of going upon begging expeditions, much to the injury of the entire state. They make regular trips with teams and wagons into the southern part of the state and also into adjacent pertions of North Dataset and Minnesota. They tell a pitful kota and Minnesota. They tell a pitiful story of want and destitution on the reserva-American crizens. But by this new demand start of want and destitution on the reservation and ask for contributions of clothing, bedding, provisions or anything of value that they can get. Some of these professional beggars are well-to-do, having comfortable buildings, small herds of cattle and horses and are well able to take care of themselves. It is related that one enterprising vagaboud hired a man to go along and drive the team for him, and whenever a stop was made the driver would be left sitting in the wagon give us the regression responds in effect: Grant it. Then help us out of our dilemma; ait us in our work of educating the youth of New Mexico; give us this reasonable assurance that nome day we may be regarded as fit for the responsibilities of state government. And to quote the delegate's own words: "We have been kept out of the union for nearly fifty years because they say we are ignorant. Then why not give us the made to congress by the reprotected on the lines laid down in the reference to the findings of the captain they say we are ignorant. Then why not give us the responsibilities of the union for nearly fifty years because they say we are ignorant. Then why not give us the responsibilities of the union for nearly fifty years because they say we are ignorant. Then why not give us the responsibilities of the union for nearly fifty years because they say we are ignorant. Then why not give us the responsibilities of the union for nearly fifty years because they say we are ignorant. Then why not give us the responsibilities of the youth of New Mexico; give us this reasonable assurance that nome day we may be regarded as fit for the responsibilities of the youth of New Mexico; give us this reasonable assurance that nome demand upon congress Mr. Ferguson responds in effect. Grant it. Then help us out of our dillemma; aid us in our work of educating the youth of New Mexico; give us this reasonable assurance that nome demand upon congress Mr. Then who are the construction one of doubiful advisational driver would be left sitting in the wagon while the other would go in and tell his story, saying the man in the wagon was in while the other would go in and tell his story, saying the man in the wagon was in destitute circumstances, had a large family to support, with nothing in the house for them to eat or wear, etc. On a recent occasion a farmer, at whose place they stopped, went out and interviewed the driver, who was, of course, amazed to learn that he was the one in whose behalf the appeal had been made. The impostors are old-timers on the made. The impostors are old-timers on the reservation, and there is no doubt that they reservation, and there is no doubt that they have been doing a thriving begging business |

dands and securing their patents, notwith-standing the fact that all who do so are compelled under the statute to pay a full year's interest in advance for that privilege. During the latter part of the old year s number came in, and so far in January twenty-five more have called for their pat-ents. These for this month are distributed in the following counties: Turner, eight Hutchinson, seven; Yankton, six; Moody four; Bon Homme four and Clay one. This would indicate that the farmers of that portion of the state are getting in good shape financially, when they prefer to pay advance interest and secure title, rather than carry loans in the state school fund at 6 per cent per annum. If they were not in possession of the cash to make the payments without borrowing they could hardly afford to take

New Mining Company Organized. HURON, S. D., Jan. 18,--(Special.)-The Cleopatra Gold Mining company has been organized here with J. M. Lawson of Aberdeen, president; Frank McLaughlin of Dead-wood, vice president; R. B. Hughes of this His condition had become so serious that his city, secretary and treasurer. The capital stock is \$100,000, of which one-fourth has been paid in. The property of the company includes the Cleopatra group of mines, recently purchased by the company, and which are said to be very valuable. The company has ample funds to carry on the work of developing the mines, commenced some time since, and Mr. Hughes has been selected to take personal charge of the work. He will go to Deadwood as soon as relieved from the surveyor general's office here.

Waiting for Free Homestead Bill-CHAMBERLAIN, S. D., Jan. 18 .- (Special.) -The expectation that congress will this eession pass the free homestead bill has caused a marked decrease in the number of original homestead entries at some of the South Dakota land offices. Intending settlers notably those desiring homesteads in the ceded portions of the Sloux and Yankton reservations, are awaiting the action of con-gress before tendering their filings, as the passage of the free homestead bill would resoft in a saving to each intending home steader of several hundred dolllars.

New South Dakota Corporations. PIERRE, S. D., Jan. 18 .- (Special.) -- Acticles of incorporation have been filed for the Cleopatra Gold Mining company, with headquarters at Deadwood, and a capital stock of \$100,000; incorporators, R. B. Hughes, John A. Sauer, David W. Smith, Huron; J. S. Lawson, Aberdeen; H. R. Bartlett, Groton. For the St. Matthew Evangelical Lutheran church at Spencer, trustees, John Kinne, Carl W. Lindekugle and Emil Rohiffe.

The First State bank of Wilmot has in-creased its capital stock from \$5,000 to \$7,000.

church here, preaching to a large audience. He goes to lowa for a brief stay, then to Los Angeles, Cal., where he takes charge of a Presbyterian church. Asks Congress for Land to Help in the

Work of Education. SANTA FE, N. M., Jan. 18.—(Special.)— The bill which has been introduced into congress by Delegate Ferguson to have the United States grant to New Mexico now, able supply from the two Laramies, 46,000 without writing for statehood, the full quota of land due for educational purposes, meets with approval everywhere in the territory. It is apparent from interviews with these representative New Mexicans that the popular enthusiasm in support of this measure is far greater than even the prospect of early infimission to full statehood could possibly arouse, under the circumstances as they exist at this time; for while there is much more opposition today throughout the territory to statehood than there was two years ago, there is practically unanimous sentiment in favor of this land concession act. It is favor of this land concession act. It is deemed wise, timely, expedient and just. The lides of asking congress to grant this extraordinary relief was suggested by the fact, so forcibly brought to public attention by recent Washington dispatches, that there is no cent Washington dispatches, that there is no per acre foot, \$4.56. Piny site, expactly, 11,040 acree feet; cost, \$70,346; cost per acre foot, \$6.37. Lake Desmet site, capacity, 17,040 acree feet; cost, \$70,346; cost per acre foot, \$6.37. Lake Desmet site, capacity, 17,040 acree feet; cost, \$70,346; cost per acre foot, \$6.37. Lake Desmet site, capacity, 6.382 acree feet; cost, \$113,300; cost hope for New Mexico's admission at once. Accordingly, Delegate Ferguson his had reOperating the state of th Accordingly, Delegate Fergus: a rest and recourse to the next best endeavor under the circumstances and asks now that all of the public land which would, as is the custom and the law, be donated to the state of New Mexico when admitted, for the support of would be recommended for first consideration in the west," he says, "the Piny system would be recommended for first consideration in Wyoming. The water is now urgently the rest of the state of New Woods and the state of New Woods and the state of New Woods. the various public educational institutions, be given to the territory immediately, the came to be in Heu of any donation of land hereafter when the territory becomes a

In making this demand Delegate Ferguson meets the eastern contingent in congress opposing New Mexico's admission upon its own plan of contention. Netwithstanding differency in New Mexico has been reduced from 44.45 per cent in 1890 to 21 per son meets the eastern contingent in congress from 44.45 per cent in 1890 to 21 per cent in 1897 and that this territory, always maligned, despised end misrepresented by the eastern press, now ranks above Kentucky. Tennescee, Alabama, Florida and several other states in popular education, these eastern opponents of western progress persistently declare that the people of New Mexico are too ignorant to become full fledged American chizens. But by this new demand are too ignorant to become full fledged new needed. Complications with existing American chizens. But by this new demand water rights render the project for governgive us the means of educating ourselves, especially as we ask only our own public land ticable to build reservoirs of sufficient ag-

Pueblo Now Has a Healer. PUEBLO, Colo., Jan. 18 .- (Special.)-Pueblo is considerably agitated just at present over the reported cures that have been accomplished within the last week by a man named M. J. Landers. His method of procedure is very largely the same as that em-ployed by Schlatter when in Denver, Lan-ders is a farmer and came to Pueblo with his family about a month ago. The most prominent people that he has given attention om July 12 last by having his backbone dis-located. Since that time up until last Wednesday he has been unable to leave his bed. Landers came to his house, treated him twice and Mr. Schafer is now attending

to his business the same as before the ac-Mr. Holmes was for eighteen years an engineer on the Sante Fe reilroad. Four years ago he was in a wreck at Florence, the affected portions of his body, and Holmes is now in as good a condition as a man of

his years could be expected to be.

Landers is decidedly reticent, charges nothing for his services, and very seriously objects to having his name appear in print in connection with any of the cures he is credited with. He does not claim to have divine power, and, in fact, refuses to say where his cower comes from. He is an ordinary looking man, quite tall, wears a full beard, has iron-gray hair, and is in the neighborhood of 50 years of age. His wife is with him in Pueble.

You can't make a new arm with Salvation Oil, but you can cure the bruises with it. 25c.

Ferocious Lion in Wyoming. Ranchman Kenion of Dale Creek canyon was a Cheyenne visitor last week, says the Cheyenne Sun-Leader, and in conversation gave some interesting facts in connection with the famous mountain lion of that sec-tion which has been bothering ranchmen at intervals for the last five years. The wary creature seems possessed of the caution of a numan being, and uses the best of judgment n selecting the hours for depredation and apparently has instincts that foretell danger in the presence, a half-mile away, of an en-raged ranchman with a mighty rifle. The lion of Dale Creek canyon has feasted on many an ursuspecting calf, has pulled down colts and Carl W. Lindekugle and Emil Rohlffe.

The First State bank of Wilmot has increased its capital stock from \$5,000 to \$7,000.

Bid Farewell to Two Pastors.

HURON, S. D., Jan. 18.—(Special.)—
Sunday morning Rev. John R. Jones closed his pastorate with the First Presbyterian church here, preaching to a large audience. He goes to lowa for a brief stay, then to Lose Angeles Cal. where he takes a class of a large repair of the beast. It is supposed that a lioness companion reposes in some cavern in the cananion reposes in some cavern in the can-on, as the animals are known to go in pairs During the recent storm tracks of the lion were observed in close proximity to the ranch

houses. Cold Weather in Idaho. SALT LAKE CITY, Jan. 18 .- (Special.)-Information from Market Lake, Idaho, is to the effect that the weather has been between 20 and 22 degrees below zero between Poca-tello and that point during the entire week

He examined five systems, three in Wyoming and two in Colorado. He gives these details:

"Laramie site, near the town of Laramie Wyo., for storing the waters of the Laramie and Little Laramie rivers and possibly of the North Platte and other streams. Availfrom the two Laramies, \$416,254,14; cost per acre foot, \$70.05; water now needed; cost of bringing North Platte into basin, cossibly as much as \$1,000,000; supply would add 328,000 acre feet to storage of resercolrs and reduce the cost per acre foot to \$3.43, "Sweetwater Site-Capacity 226.965 agreet

feet; cost, \$276,484.80; cost per acre foot, 85 ents; storage not yet urgently needed; probable annual storage, when the stream is fully utilized, will be 1,000,000 acre feet; cost per acre foot on this basis, \$2.76.
"The Plny creek system consists of three

meeded med construction should proceed in the following order: Piny site first, Cloud Peak second and Lake Desmet last, work should cover three years, and the appropriation should be \$100,000."

now would enable the continued by confirmation of the last fifty years is continued by congress, then the public land of the territory will be still further culled over by settlers, to draw from them directly in irrigation would, it is believed, cause some reduction in the flood height of the Missouri river during the June rise. The amount of this remarks depend upon the Paying Up on School Lands.

PIERRE, S. D., Jan. 18.—(Special.)—The farmers of the southeastern portion of the state are continuing their payment for school state are continuing their payment for school sist only of the arid and worthless tracts.

will be still further culled over by settiers, the government will get the money therefor and New Mexico's schools will get nothing, and when the territory is finally admitted as a state her quota of public land for schools and public institutions will consist only of the arid and worthless tracts. ish rapidly with an increase of this dis-

"Reservoir construction in the arid re reservoir construction in the article gions of the west is an indispensable condition to the highest development of the section. It can be carried out only through public agencies. Private enterprise can public agencies. Private enterprise can never accomplish the work succeasfully. As between state and nation, it falls more properly under the domain of the latter. Revoir construction by the general government need not in any way involve government oreminent people that he has given attention are Alderman A. C. Schafer and John left in the hands of the states and of private Holmes. Mr. Schafer was injured at a fire on July 12 list by having his backbone distocated. Since that time up until last full right to the water necessary to fill the reservoir. It should biuld, own, maintain, and operate the works itself. It should hold the stored waters absolutely free to public use under the local regulations, subject only to the right to close the reservoir whenever flood protection or other emergency should

the arid regions which shall render availa-ble the entire flow of the streams will not exceed 1,161.6 billion cubic feet. If the construction of such a system were to consume a century in time it would represent an an-nual storage of about 11.6 billion cubic feet, or 266,800 acre feet. At \$5.37 per acre foot this would cost \$1.432.716 per annum. This amount, distributed among the seventeen states and territories of the arid section, give an average annual expenditure in each of \$84,277. The annual value of the stored water would return the original cost and maintenance in an average period of

three years.' BACKING FOR THE PROJECT. The demand for government irrigition works will be backed by the senators and congressmen from almost every state and territory west of the Missouri river as the territory west of the Missouri river as the stewardship since 1893. The report shows only possible solution of the irrigation that assets of the nominal value of \$39,-problem. In the meantime private enterprise 859.57 were turned over to him and their is not lagging and the work of reservoir con-struction is going on all over the arid region. About the greatest work of the kind is that cash. The bank has paid 65 cents on the undertaken by the Like Bonneville Water dollar to date.

contract has just been signed between the company and the state. By this contract a quarter of a million acres of land are segre-gated for irrigation by the company, which, in turn, undertakes; the construction of a plant which will cost upward of \$3,000,000. It will include three great reservoirs and 720 miles of laterals and canals. For seventeen miles through the Sevier canyon the main canal will have to be brasted out. For abor alone \$2,500,000 will be expended within the next two years. Work will be begun in Feoruary on the project. The binds to be irrigated are fertile table lands in Sevier one Miliard counties, but too high for irriga-tion by any inexpensive method. The dis-tance from the last reservoir to the first bind to be irrigated is fourteen miles. It is expected that 2,500 men will be employed on the works and they will be completed by the end of 1899. It will be the largest irrigation system in the world. The reservoir sites which have been approved by the secretary of the interior occupy nearly thirty-five miles of the river and valley and have an area of more than thirty equare miles. They have a storage capacity of 700,000 acre feet or about 26,000,000,000 cubic feet. The two canals leading from the reservoirs will be thirty feet wide at the bottom, fifty feet wide at the top and ten feet deep and each one will carry more water than any river in

ENTERPRISES UNDER WAY. In Colorado the greatest irrigation enter-prise now under way is that of the Great Plains Storage company in Otero, Bent and Prowers counties. This company, which is backed by Mr. Searles, the sugar man, has a large force of men at work doubling the capacity of the Fort Lyon canal, which takes its water from the Arkansas river near La Junta. The ditch is being widened to sixty feet on the bottom. This will make an enormous waterway and one capable of an enormous waterway and one capable of taking the whole flow of the river at ordi-nary times. When completed this will be one of the greatest irrigation schemes ever pro-ected, having reservoirs with a surface of

John V. Farwell of Chicago is at the head of a big irrigation company that has just proposed a large undertaking to the secre-tary of the interior. This is the Montezuma Canal company. The company proposes to build the necessary ditches, dams and res ervoirs to irrigate the southern Ute reservation at Ignacio in this state. The com pany will charge \$150,000 for the work of preparing to Irrigate 10,000 acres and \$10. 000 a year afterward for maintenance, I will require a reservoir covering fifteer acres to irrigate ten times as much of the

In San Juan county, New Mexico, the Animas River Land and Irrigation company will build two canals, one to be eighteen the other twenty-two miles long. Morand the other twenty-two files long. More than 94,000 acres of land wil be irrigated.

In Delta county, Colorado, a ditch is being built to irrigate the lands of the North Fork country. It will be twenty-one miles ong. In Mesa county the Plateau Grand canal is to be constructed. It will be a highline canal, forty miles long, to water the lower Grand valley.

In Wyoming the Wyoming Development company is adding to its system near Wheatland. Its present system comprises three canals sufficient for 60,000 acres. No. is thirty miles long, twenty-five feet wide is thirty miles long, twenty-live feet wide on the bottom and four feet deep at the headgate. No. 2 is twenty-five miles in length, twenty feet wide at the bottom and three and a half feet at the headgate. Canal No. 3 is twelve miles in length and fifteen feet wide on the bottom and carries 300 cubic feet of water a second. In reinforcement to the system are two huge reservoirs now under construction, one of which has an actual water shore line of eight miles and the other on area of 800 acres and ar average water depth of thirty-five feet. This latter reservolr will add 25,000 acres to the irrigable area and will be ready for ser-

In the Big Horn basin W. F. Cody is in ested in a system now under way with something like twenty miles of main canal already completed.

Judgment Against Bondsmen. CHEYENNE, Wyo., Jan. 18.-(Special.)-In the United States court today judgment was taken against the bondsmen of ex-Postmaster George A. Draper for \$5,118,65, the this city. The bondamen, eight business men of this city and Rawlins made no con-test to the suit and will pay the judgment.
