Petition Sets Out Existing Conditions and Asks the Respondents to Show Cause for Their Conduction.

LINCOLN, Jan. 21 .- (Special.) -- The supreme court having granted leave the attorney general this afternoon filed his infor-J. Smyth, Attorney General, Relator, against Frank E. Moores, William F. Bingham, William F. Bechel, Louis Burmester, Myron D. 1 am C. Bullard and R. E. L. Herdman, re-

In opening the petition states that on April 1, 1897, the defendants, R. E. L. Herdman, J. H. Peabody, D. D. Gregory and Wiltiam C. Bullard, were appointed by the governor as members of the Fire and Police commission for the city of Omaha, for the terms of one, two, three and four years respectively. That the cald parties immediately qualified and entered upon the discharge of their duties and that since that date, together with the defendant, "Frank E. Moores, acting mayor of the city of Omaha," have been exercising the privilaw upon the members of the said board. The act of the legislature in corporating metropolitan cities is also set forth as the authority under which the commissioner have acted. The petition says that "said management, direction and control of said departments involve the control and meaagement of property belonging to the city of Omaha of the value of many thousands of dollars and also the direction and manage-ment of about 200 mon employed in preserv-ing the peace and public order of the said

The relator further states that "Hon. Cun ningham R. Scott, a judge of the district court of Douglas county, recently gave an opinion without pronouncing any judgment thereon or entering a final order from which an appeal could be taken to this court, wherein and whereby the said Cunningham R. Scott declared that the said acts under which the said Gerdman, Peabody, Gregory and Bullard held their said office and exer-cised the duties thereof, as herein stated, are void, because as he declares, the same are in conflict with the constitution of the state and in contravention of the provisions of the bill of rights. Declaration of Independence and the inherent rights of the citizens of

the said city of Omaha."

That the said Scott had declared and caused to be published an opinion that there was no law to authorize the governor to appoint the fire and police commissioners, but that the mayor and city council have the absolute right to control the police and fire departments and also the right to appoint the

EFFECT OF THE OPINION.

The petition says that since the ,romulgation of this opinion the mayor and a majority of the council have accepted it as correct and as stating the law, and now as-sume to believe that it is their duty to proceed to assume the control and management of the fire and police department, to the exclusion of the commissioners appointed by the governor, and that there is now a dispute as to who shall control and direct the said departments.

The petition then further says that "the

dispute is in danger of producing and has produced discord, contention and lack of discipline in the fire and police departments of the sity and is endangering the peace and welfare of the said city and the inhab-itants thereof," and that for the purpose of having determined judicially the rights of all defendants this suit is brought, "that due process of law be issued against the several persons named as defendants herein and that said defendants and each of them and that said defendants and each of them bishop's castle in Lincoln is supposed to be required to appear before this court and answer this complaint of the state of Nements with interest. braska, showing by what warrant, claim or regret they exercise, or claim to exercise, the rights, libertles, privileges franchises aforesaid, and that upon final hearing of this cause judgment of ouster be entered against them, or such of them es in the judgment of this court are not cotitled to said offices and to the rights, lib-

erties and privileges thereto." The applications for space in the educational exhibit at the exposition are coming to State Superintendent Jackson very rapidly now, schools employing over 1,300 teachers having already applied. There were 375 ap-plications today and it is expected that by the first of February fully 2,500 will get in. The state superintendent goes to Broken Bow tomorrow to address a teachers' institute and will visit Kearney, Eddyville, Minden York next week, addressing farmers' institutes at each of those places. pects to stir up a great deal of interest in the exposition during the trip.

UNWILLING VICTIMS THE WICKED WOMEN Leading Clergymen of Every Denomination Use and Advise

How Countrymen Who Seek the Seamy Side of Tafe in Omnha Are Robbed and Then Worsted In Court.

"My son, if sinners chiice thee, consent thou not." This advice is as good now as it was in the days of Ring Solomon, Joe Rogers, a colored amazon of the Third ward who was arrested for larceny from

the person of Robert Hunter of \$90, was arraigned in police court yesterday morning. She pleaded not guilty to the charge preferred and the case was set for a hearing Tuesday afternoon, January 25, at 2 o'clock Of all the class of thieves in the city which give the police the most trouble, the one represented by the Rogers woman is perhaps the worst. Among these notorious women may be mentioned Rittle Owens, who lives at 224 North Twelfth street; Stella Green, who makes her headquarters at this dive; Savannah Reed, 1119 Davenport street, and Ida Mitchell, who lived for years in the "Wounded Knee" section of the bad lands, located north of Capitol avenue on Ninth

The methods used by these women are all practically the same. With few exceptions unsophisticated countrymen who visit the city on sight-eseing tours are their victims. The women as a rule meet the lambs whom they flay upon the street. Wine rooms are visited and by means of liquor the lamb soon parts with his senses and is then led to the dive where the actual act of robbery takes place. On reaching the homes of these women several systems are used to relieve him of his money. The most popular one is to crowd the room in which he being entertained with other women and while he is engaged in conversation one the others go down into his pockets and

PLUNK HENDERSON'S PLAN.

Another system which is known as the 'panel' trick was used successfully for a long time by "Plunk" Henderson and his mistress, Pearl Henderson, who lived in cottage almost beneath the shadow of the police station at Fourteenth and Howard streets. This nest of thieves was at length broken up by the police and the Hender-sons were banished. The system in vogue by them was very simple. When a victim had been landed in the little cottage Pearl Henderson would seat him upon the sof and herself in close proximity. At thi juncture of the proceedings "Plunk" would sneak up from behind and would "frisk" the clothing of the unsuspecting farmer. Another method was for "Plunk" to act the part of the outraged husband and exterhush" money from the farmer. Several visitors in this way, until the thieves were

finally run to earth. The men who get in the tolls of these women as a rule are strangers in the city and as a consequence are locked up to make sure of their appearance at the trial. It torneys, who handle this class of cases, to get professional bondsmen to go ball for their clients. In each instance, where they do so their services are taid for according to the amount of surety given. Thus the victim is locked up while the thief goes out to steal again.

When the cases come to trial in the police court a large number of witnesses, who will swear to anything or go to almost any length for a small consideration, are brought into court and in this manner an alibi is frecourt and in this manner an alibi is frequently proved, where the guilt of the prisoner can hardly be questioned by those who are acquainted with the facts in the case. In case a conviction should be made in spite of the testimony of witnesses for the defense, the attorney having the case in hand usually files a counter action against the complaining witness, alleging that he is either an inmate or has contributed to the support of the dive where he was robbed. In this manner a number of men have been the most untiring and earnest in telling the truth about Paine's celery compound, in urging sick people to use it, and at the same time they themselves have employed the great remedy in their own homes with results that have steadily kept up their faith in its health-giving powers.

It is significant that Paine's celery compound stands alone as the one remedy that is freely used in the homes not only of clergymen, but of all liberally as well as professionally educated men; physicians, lawyers. In this manner a number of men have been silonally educated men; physicians, lawyers, fined in police court of late and the attor-school teachers and others, while every other ceys who appear for the criminals have remedy purporting to accomplish equal rehings there own way.

HISTORY OF A RECENT CASE. It is frequently recorded that a case of arceny from the person is continued at the request of the defense for several weeks. By so doing the punishment of the complaining witness is made two-fold. A few weeks ago a young farmer from Madison, Neb., visited the house of Eesie Allen and Gertie Brown, near Night and Cepital avenue and while there he was robbed of \$45. The women were arrested and he was thrown into jail with them. When the case came to trial no conviction was made, but the police after-wards arrested the women on charges of vagrancy and each was fined a small sum and costs. In order to even matters a well known police court attorney, who appeared for the women, lodged a complaint against the women, lodged a complaint against the support of a house of ill-fame. He was locked up also as the complaining witnesseed and fined \$10 and costs, which ness. The evidence against her was strong was locked up also as the complaining witness. was obliged to serve out in the county

rosecuting witness is worsted.

Probably the most notorious thief who rement at length caused him to go insane mains in the city and with whom the au-horities appear unable to cope is Kittle. While Heinz was serving time in the county like the county of the county o Owens. This woman has been arrested so many times that she regards a ride in the patrol wagon rather in the light of a morning airing than otherwise. In each instance in which she has been arrested the police have been unable to gather sufficient evidence to send her every the road although the control of the complaining witness being of unsound mind and therefore being barred dense to send her every the road although the control of the complaining witness being of unsound mind and therefore being barred there is send her every the road although the control of the complaining witness being of unsound mind and therefore being barred the control of the complaining witness being the control of the complaining witness the control of lence to send her over the road, although from testifying. The Owens woman has a

For Wyoming-Generally fair; variable

Don't be discouraged—the Kimball piano will soothe your troubled soulwe'd like to show you the Kimball-and tell you all the good things we know and what the great musicians have said about it-it is such a sweet toned instrument-with the most delicate touch -elegantly finished-we have the Kimballs in all the newest designs made in the popular woods of the day-While the Kimball is one of the highest classed pianos made we are able to make such low prices on them that it would be like throwing money away to purchase an inferior make-Our terms-too-are very easy.

A. HOSPE, 1513 Douglas Music and Ari

It's hard to believe-but it's true just the same-that we do extract teeth without the least pain-sometimes we use gas-but only when you desire it-we've a way of our own that does away with gas and pain-then it's chenper-only 50 cents-we make a set of teeth with a thin elastic plate for \$10 that is the most satisfactory plate ever produced-it's light, durable and the fitting is perfect so much so that the user forgets their artificiality-you can hunt the world over and never find their equal at the price-the sets we furnish at \$5 are equal to most \$10 sets-the fact is, we use the same teeth on these as on the \$10 ones-the plates are different-that's
