Luctgert Tells Why His Wife Might Have Deserted Him.

THOUGHT THEIR FRIENDS WOULD LAUGH

Witness Hesitates to Tell of His Wife's Forebodings Until Urged to Do so by His Attorney.

CHICAGO, Jan. 22 - The crowd in attendance at the Luctgert murder trial today was greater even than the day before. When Luctgert took the stand today he was apparently much more composed and answered the questions propounded him by his counsel in a firm voice. The defendant was inclined to go into detalls more than his attorney, Mr. Harmon, desired. When asked to pay dess attention to detail Lucigert, with some show of anger, said that he would tell his history thoroughly or not at all.

The most important feature of Luctgert's recital today was his explanation of the presence of the potash in the factory. He said it had been in his place of business nearly two months before the day of his wife's disappearance, that it had not been concealed, and that he was to make soft soap out of it. The prisoner also told of his eleeping in the factory, which he explained, was necessary because there were many things to which he had to attend to at

*STATE OF THE PARTY OF THE PART

An adjourned meeting of the Board of Trade will be held at the council chamber Tuesday evening. Every member is urged to be present, as well as those who desire to become members. Several matters pertaining to the interests of the city will come up. Mayor Ensor is president of this organization

and T. J. O'Nefl secretary.

The mayor will at this meeting suggest that an organization similar to the Commercial club of Omaha be perfected and that club rooms be opened in the business portion of the city, where visitors can be taken and entertained. Besides this the mayor favors the appointing of a number of committees to look up industries and to entertain business men looking for a change of location. Aside from the entertaining of strangers the mayor seems to think that if strangers the mayor seems to think that it strangers the mayor seems to think that it there were some such place as he suggests the business men of the city would be brought closer together and much good would but even these doubt that the new management of the Union Pacific will install Everment of the Union Pacific will be used to the Unio industries and some organization is needed to aid such projects in every way possible. Tuesday afternoon the committee from the East Side Improvement club will confer with the officers of the Omaha Street Railway company in regard to the extension Continuing the witness told of buried bones of the Thirteenth street line, in connection he had in the factory basement and of fat with this matter General Manager Smith of the street railway company said vesterday that he would be pleased to meet the com-mittee and listen to the arguments in favor "You purchased a barrel of potash early of the extension. The matter, he said, would in March," asked Harmon, "for what purbe thoroughly investigated and if the company could see operating expenses ahead regitest of the East Siders would certainly be granted.

Mr. Smith thought that the line was bound to be extended in time, but without a thorough investigation he could not tell whether, if built now, the line would pay or not. Unless he was assured that the patronage would pay operating expenses it would not be good business policy, he said to make the extension asked for. At any rate the East Siders can rest assured that as soon as the business will warrant it the line will be built.
It is expected the repairs on the Six

teenth street viaduct will be completed within a couple of days and the street railway company expects to commence running the South Omaha cars over the Sixteenth street route Wednesday.

Gas Company Franchise.

It is understood that Councilmen Barett. Trainer and Keily of the judiciary committee of the council will meet today to consider the gas franchise ordinance reuested by Flynn, Creasey and Wyman, As the provisions of the ordinance are well known, it is expected that this committee will report either favorably or adversely at the meeting Monday night. It is said by those who are watching this deal that the judiciary committee proposes to load the original ordinance down with amendments so that the promoters will refuse to accept it. City officials who have looked over the ordinance assert that it protects the rights of the city in every respect and provides for as much royalty as is generally given in such cases. RUMORS CONNECTED WITH THIS PAIR

One Said to Be Going to the Baltimore & Ohio and the Other Coming to the Union Pacific.

The report from St. Louis to the effect that Everette St. John, general manager of the Seaboard Air line, would succeed Edward Dickinson as general manager created a noticeable stir in local railway circles yesterday. Based on this report many different kind of rumors were soon flying through the Union Pacific headquarters, but none of these were founded on fact. The fact that President Burt and Vice President Mink are in New York and General Manager Dickinson is in Chicago prevents the issuance of any reliable statements concerning the matter here.

The present visit of Mr. Dickinson in Chicago is the fourth that he has made there within a very short time. There is some feeling among local railroaders that Mr. Dickinson may decide to go with the Balti-more & Ohio, with which road he formerly held the position of general superintendent. The expression of opinion among railroad-ers yesterday was without exception that

ette St. John as general manager. Everette St. John is best known in Omaha as the former general manager of the Chi-cago, Rock Island & Pacific railway and as the ussuccessful chairman of the Western General Managers' association during the summer of 1894. During the disastrous strike which took place then he had thrown upon his shoulders the whole responsibility of the strife between the rallway companies on the one hand and the rallway employes on the other. It has been said that he deserves credit for preventing the strike from assum-ing larger proportions than it did. Be that as it may Mr. St. John's connection with the Rock Island was terminated soon after the great strike of June, 1894. At the head of the Scabbard Air Line he has brought that railway property up to first-class condition and succeeded in greatly extending that road's popularity. Everette St. John was born in Connecticut

on February 4, 1844, and is, therefore, within a few days of being 54 years of age. At the age of 18 he began his railroad career as a clerk in the depot and general ticket office of the Quiney & Toledo railroad. This road was later united with the Great West-ern railroad of Illinois, and St. John entered the service of the consolidated railroad a Springfield as clerk in the general ticket de partment. On July 4, 1863, he joined the Rock Island, and for more than thirty years remained in the service of that company, gradually stepping up toward the office of general manager. His first position was that of clerk in the general ticket department. In 1869 he was made chief clerk of that department. In 1879 he became general icket agent. In 1885 he was promoted to he position of general ticket and passe er agent. One year after he was made assist ant to the gene il manager, and in 1887, the following year, he was made general manager of the entire Rock Island system. Putting Kansas City on a Level with Omaha on Southern Rates. The announcement that the Kansas City Pittsburg & Gulf railroad nad decided to establish a parity between Omaha and Kansas City rates to and from the south re-ceived much thoughtful consideration from

freight men in this city.
It is admitted that the Port Arthur route has taken the step which has been con-templated at divers times by other railroads between here and Kansas City. About a year ago an attempt was made to put Omaha and Kansas City on the same basis regardsaloon when a policeman happened ing southern shipments, but it falled because when the Omaha rates were reduced Omaha

to the Kansas City basis the other railroads soon gave Kansas City the benefit of another cut. In this way the differential has

The prosecution of the case of the United States against the South Omaha Live Stock exchange is scheduled to begin tomorrow morning before Federal Examiner-in-Chancery Battin, when the government will likely commence the work of introducing its testimony. Subpoenacs for additional witnesses were issued vesterday afternoon. There has been some friction between

United States District Attorney Sawyer and Assistant Rush and John T. Cathers, the latter special counsel for the United States, regarding the hearing. The two former were not certain that the attorney general of the United States wished the case to proceed at once, while the latter insisted that the examination should begin immediately. Powell Decides

Novel Point of Law. The restraining order obtained viliage of Bellevue against the Bellevue Improvement company and the contempt proceedings against Duncan Menzies growing out of the same case were both brought to a termination by Judge Powell at Papillion yesterday morning. In December last Judge Powell granted a restraining order preventing the Bellevue Improvement company from occupying certain alleged streets and alleys in the northern part of the old townsite of Bellevue. This order was only to go into effect, however, in case the village should furnish a valid bond. A bond was furnished by the village and subse quently a contempt proceeding was insti-tuted by it against one of the employes of the improvement company. The point was raised by Attorney Lobinger for the improvement company that the bond was inoperative since while it recited the grant-ing of a "restraining order" it required the signers to pay only in case an "injunc-tion" had been wrongfully issued. Judge Powell holds that a bond is rendered necessary to support a restraining order, oth by the implication of the statute and the practice of the courts of the state. And since a bond must be furnished it must, like injunction bonds, be construed with technical strictness. The opinion cities au-thorities and concludes that "The legal

A Long Search Finally Secures the Right One.

After a person has struggled for years | emitted stuff to such an extent that I must with such a disgusting malady as catarring and exhausts the entire category of things remedial he is decidedly skeptical. And when he finally meets with a remedy that cures him completely he is not backward about telling others of the fact. This explains why we see so many prominent people's names in the newspapers testifying to the merits of whatever has been the means of restoring them to health. The

to the merits of whatever has been the means of restoring them to health. The following letter from President Arthur of the Statesman Printing Co., Marshall, Mich., is an illustration of this fact:

Mr. C. E. Gauss, Marshall, Mich., My Dear Sir: I commenced to take your catarrh tablets with no idea that they would do me any good. A friend told me they were effective; that they had cured him, etc., so I purchased a box as I have purchased hundreds of catarrh remedies before-without much faith. My condition was frightful. My head was all stopped up and I suffered extreme misery. Droppings from the nose at night made my throat and lungs very bad and I was in constant fear of consumption. I hacked and coughed and
