FIGHTING THE EAST TRAINS

Rock Island and Atchison Roads Cut the Rate to Denver.

THEY CANNOT SHORTEN THEIR SCHEDULE

Allege They Are Entitled to the Differential, But the Burlington and Northwestern Will Meet the Reduced Rate.

CHICAGO, Feb. 3.—The Atchison and the Rock Island roads gave notice today to Chairman Caldwell of the Western Passenger association that beginning next Sunday they would reduce the first class passenger rate between Chicago and Denver by \$5, the cut to be operative in both directions.

The announcement to the chairman was the sequence of a conference held this morning between the general passenger agents of the Northwestern, Burlington, Atchison and the Rock Island over the fast trains which the two former lines have announced between Chicago and Denver. The Atchison and the Rock Island having longer routes to Denver than the other two roads cannot meet the fast time made by the Northwestern and the Burlington except at great expense and inconvenience.

They therefore asked that an extra fare be charged on the new fast trains and that they be used as "limited" trains. To this request the Burlington and Northwestern refused to accede, saying that the business would not warrant them in charging more than the regular rates. The Atchison then asked that the fast trains be taken off, contending that the amount of the Colorado business at the present time is not sufficient to warrant the extra special train service. This request was also refused, and then the Atchison and Rock Island announced that there was nothing for them to do but to take the rate cut and to offer by the other two roads, and said that on the date on which the Burlington and the Northwestern inaugurated their fast train service they would meet their rate between Chicago and Denver by \$5.

The Burlington and the Northwestern said that they would meet any rates that were made on the Atchison and Rock Island, but would still keep their fast trains in service. As soon as the matter was reported to Chairman Caldwell, he called a meeting of all interested lines for tomorrow to consider the matter and to see if some settlement could be reached. The trouble is certain to involve passenger rates between Omaha and Chicago, and Kansas City and Chicago, as well as the through rates to Denver, inasmuch as the fast trains of the Burlington and the Northwestern will shorten their run of time to both Omaha and Chicago.

EXCLUDES THE POSTAL COMPANY.

Western Union Secures a Monopoly on the Mexican Business. NEW YORK, Feb. 3.—The order of the Mexican government to the Mexican National railroad and the Mexican Central railroad company that they must discontinue handling commercial and other telegraphic messages between the United States and Mexico...

The officials of the Postal Telegraph company in this city said today that their company received information from the Mexican government to the effect that the Mexican government had entered into a contract of exclusive connection with the Western Union Telegraph company for the exchange of telegraphic messages with all the railroad lines of Mexico, and that the effect of this contract, if carried out, would be to prevent the railroads from exchanging telegraphic messages with the Postal company. The Postal officials further explain that the railroad companies have clearly confer upon them the right to transmit commercial telegraphic business as to operate their railways.

SWINDLE BY USE OF BOGS ORDERS.

Railroads Find a New Use for the Bogus Pass. CINCINNATI, Feb. 3.—The railroads here have discovered they have been swindled out of thousands of dollars by bogus orders of the mayor for pauper passes. These orders were printed and bound in pads with the same of the mayor and his secretary printed on them. Instead of signing these orders, the city seal or stamp had been used, but through carelessness these orders were finally given out without signing.

Recently many pads got into the hands of scoundrels and have been sold for months by ticket brokers. The discoverers date back as far as last October, and it is believed they extend back a year or more. One railway traced over \$1,000 worth of them today on its line, and other lines are proceeding with the investigation.

Today Joseph and Herman Hess were arrested on the charge of purchasing charity passes from the mayor's office. Their archer, Harry, had been employed in the office. Samuel Phillips was arrested, charged with selling these orders on which tickets were issued at the ticket offices. Other arrests will follow before arrangements are made.
