

EDMISTEN IS A SORE MAN

Chairman of Populist Committee Retires to Cave of Gloom.

ADMITS HE HAS MADE A GREAT BLUNDER

Other Members of State House Party Agree That the Old Inspector Has Ended His Chances to Succeed Holcomb.

LINCOLN, Feb. 11.—(Special).—The gloomiest man about the state house today was J. H. Edmisten, chairman of the populist state committee. He declines to be interviewed by the reporters, but to his friends he makes the admission that he has not only been outwitted in his scheme to split the L. Simon away to Dawson county, but that the whole thing was a great political blunder. The other members of the state house party agree with him in this and are very outspoken in either ridiculing or denouncing the affair. One of the prominent officials said today "that if Mr. Edmisten wanted to defend his reputation against the charges made by Simon, the proper way would have been to swear out the complaint and have the army made openly. Instead of arranging a plan to kidnap the prisoner and hustle him away by a circuitous route to a western county for trial. They say that if the idea was thoroughly put into Mr. Edmisten's gubernatorial boom it has been most successfully carried out. This talk is general among the populists. One of them today even went so far as to charge that the Simon story was brought out and the kidnapping scheme originated as a sure way to injure Edmisten's political chances and get him out of the way before the time for the next state convention.

FELTZ AGAINST EXPRESS COMPANIES.

The hearing of the complaint of H. Q. Feltz against the express companies is set for February 15 before the secretary of the State Board of Transportation. Feltz, in his complaint, said that the rates charged by the companies were exorbitant and ought to be reduced at least 25 per cent. The complaint was made in October, but up to this time Feltz has never appeared to make an argument in support of his complaint and several adjournments have been taken. The secretary of the board says that Feltz has promised to be here on the 15th and that he should not come the hearing will be taken up anyway.

The brief of the First National Bank of Galva, Ill., against C. W. Mosher and H. C. Outcault was filed in the supreme court today. In 1892 Mosher and Outcault borrowed \$5,000 from the bank and the note was renewed once or twice afterward. After the collapse of the Capital National bank in 1893 the Galva bank sued and obtained judgment against Mosher and Outcault for the claim. In a subsequent suit to collect this judgment an effort was made to show that certain shares of gas stock held by C. W. Mosher and Charles Magdon in reality belonged to Mosher and had not been legally transferred. It is the contention over the ownership of the gas stock that brings the case into the supreme court.

Governor Holcomb has received an invitation and ticket to the "Administration Hall" which is to be given by the Republican club of the Twenty-eighth assembly district of New York City on the 3d of March. The letter of invitation says: "You are invited to be present with us, not as partisans, but as Americans, to unite in gathering together and celebrating the return of prosperity to our beautiful and beloved country. The Lyceum on this occasion will be specially decorated, grand music for dancing and a program of the best of the Lyceum will be given. The Lyceum will be furnished, exhibition will be uniformed drill corps and artistic dancers will appear during the reception and ball. A pleasant evening is guaranteed our guests."

George W. Hunt has been appointed as commissioner of deeds for Nebraska at Philadelphia. The appointment is made on the recommendation of the governor of Pennsylvania.

The Colphite company of New Haven and Omaha filed articles of incorporation today, with a capital stock of \$1,000,000. The business of the company is manufacturing and dealing in tin, copper, brass, and other metals and kindred wares. The incorporators are: Clinton H. Bird, William H. Lawson and John Annes.

WACO POSTOFFICE ROBBER ON TRIAL.

The trial of Joseph Mead, the Waco postoffice robber, occupied federal court yesterday and today, the case going to the jury at 3 o'clock this afternoon. The testimony was that late one night in the town of Waco it was noticed that some person was in the postoffice. Citizens were called and an attempt was made to capture the robber, but he fled and captured the burglar. The man on the inside took the alarm and fled, being closely pursued. After a short chase Mead was captured and had a lot of money and jewelry tied up in a handkerchief, which were identified as belonging to the postoffice. The defense sought to show that the crowd had caught the wrong man, having overlooked Mead, who was innocent of wrongdoing, except that he was partly drunk, while the real robber escaped in the darkness.

At 5 o'clock this afternoon the jury agreed upon a verdict of guilty. Before sentence was given application for a new trial was made and the judge took the matter under advisement.

The special investigating committee appointed by the council to investigate the different departments of the city administration held a brief session here this afternoon. Three witnesses were called, two of them testifying to having paid certain city officials money in amounts ranging from \$2 to \$10 for certain purposes. G. A. Barry, an employee in the water department, said that he had been requested by the head of his department to pay \$35. He did so, he said, with the understanding that he had not done so he would not be appointed.

The Union Commercial club is making preparations for an elaborate reception to be given in its new club house at the corner of Thirtieth and N streets tomorrow evening. The club house is one of the prettiest in the west and guests will be present from various parts of the state. The building has been elaborately decorated inside and the clubmen are exerting every effort to make the club's house-warming reception a big success.

A coffee and spice establishment just west of the Lincoln hotel was damaged by fire late last night. The stock was fully insured. The building was only slightly damaged, as the fire department hauled the fire before it had made much headway. While the fire

was in progress thieves broke into a jewelry store at Fourteenth and O streets, cutting a hole in the front window with a glass cutter. They were detected before they had secured any booty and the police arrived in time to arrest a couple of colored men who were found at the front of the building.

LAWSON LOCAL NOTES.

Lincoln day exercises were held at the high school this forenoon. The junior class presented a handsome portrait of Lincoln to the school, the speech being made by Stephen H. Bayless.

The Lincoln club gave the third party of the season last evening at the home of Mr. and Mrs. Buckstaff. It was one of the prettiest parties of the season. Games were served during the evening and the younger couples indulged in dancing.

The ladies of the Kappa Alpha Theta fraternity of the university will give a banquet tomorrow evening.

A series of revivals are in progress at Trinity Methodist Episcopal church, conducted by Rev. F. S. Stein and Elder Davis.

Sam Henry of this city is organizing a party to go to the Klondike. He has had considerable experience in the gold fields of Alaska, and is confident that the trip will be a successful one. He expects to organize a party of twelve people. They will leave Lincoln on February 22.

The Red Ribbon club, a temperance organization, has called a mass meeting at the Punks opera house for Sunday afternoon to discuss municipal politics.

The Lincoln hotel has issued invitations to the traveling men for a complimentary promenade ball, to be given at the hotel on the evening of February 25.

The University of Nebraska, which will be appropriate exercises. In the afternoon the University regiment will be received by the governor, receiver and chancellor, after which the chancellor will present the individual medals won last year in the competitive drills.

The Young Men's Republican club of Lincoln held a banquet at the Lincoln hotel last night. There were 175 covers laid. The toastmaster was E. P. Brown, former president of the club.

Ozma people at the hotels: At the Lincoln—W. A. Hitchcock, C. A. Boggs, E. A. Locke, F. J. Robinson, F. G. Barlett, W. C. Sanderson, General White, George Dietz, H. B. Howell. At the Lincoln—C. Radin, G. W. Hein, Jr., O. M. Judwick, T. S. Deaman, S. Phelps.

IN FAVOR OF THE WATER WORKS.

Decision Rendered by Judge Norris at North Platte.

NORTH PLATTE, Neb., Feb. 11.—(Special).—In the district court today Judge Norris, who is presiding during the absence of Judge Grimes, handed down an opinion in the case of the Water Works company against the city, in which the former sued to recover money due on hydrant rental.

The judge decided that the city is entitled to receive all money accruing from a 7 mill levy on the assessment valuation of the city from the time the water works were first put in operation.

A union meeting of the five railroad orders represented in this city has been called for March 22, and invitations are now being mailed to judges along the line of the Union Pacific for the purpose of sending delegates. The grand officers of the respective orders have accepted invitations to attend the meeting, the object of which is to promote a more friendly feeling between the five orders. In the forenoon of the day each order will hold a secret session; a joint secret session will be held in the afternoon, and in the evening a joint public meeting will be held in the opera house, followed by a banquet.

Notwithstanding a 12 per cent reduction in the force of the Union Pacific shops at this place, business for the first ten days of February is reported by local merchants to be 25 per cent greater than for the same period last year.

George W. Hunt has been appointed as commissioner of deeds for Nebraska at Philadelphia. The appointment is made on the recommendation of the governor of Pennsylvania.

The Colphite company of New Haven and Omaha filed articles of incorporation today, with a capital stock of \$1,000,000. The business of the company is manufacturing and dealing in tin, copper, brass, and other metals and kindred wares. The incorporators are: Clinton H. Bird, William H. Lawson and John Annes.

Belated Storm Notes.

PERU, Neb., Feb. 11.—(Special).—Yesterday morning rain began falling, accompanied by lightning and heavy thunder. The rain continued all day. Over three-quarters of an inch of water fell, when it turned to a drizzle, which froze on the trees, fences and wires in such a way that much damage was done.

CENTRAL CITY, Neb., Feb. 11.—(Special).—A warm spring weather of the last few days has given place to a cold winter day, with a few light snows and a few light winds.

A heavy snowstorm commenced here last evening and it is still snowing hard.

FULLERTON, Neb., Feb. 11.—(Special).—A severe snowstorm set in here yesterday morning and continued throughout the day. There are now at least ten inches of the beautiful all over the ground. This part of the state has had much more snow this winter than for several years.

JUNIATA, Neb., Feb. 11.—(Special).—The fine weather of the last week suddenly came to a close last night by a rain, sleet and snow storm, which lasted until noon today.

WESTERN, Neb., Feb. 11.—(Special).—A severe snowstorm set in here yesterday morning and continued throughout the day. There are now at least ten inches of the beautiful all over the ground. This part of the state has had much more snow this winter than for several years.

TEKAMAH, Neb., Feb. 11.—(Special).—Last night a search warrant was sworn out for the business place of H. W. Monroe of this city and the premises were searched by Sheriff Langford, who found two barrels and about half a dozen cases of something, what it will be determined later, and three gambling tables, all of which were taken charge of by him. Ever since last spring when the people of this city voted \$2 to \$10 for certain purposes, G. A. Barry, an employee in the water department, said that he had been requested by the head of his department to pay \$35. He did so, he said, with the understanding that he had not done so he would not be appointed.

FARMERS OF DODGE COUNTY

Interesting and Profitable Institute is Being Held at Fremont.

PAPERS READ ON IMPORTANT SUBJECTS

Prof. Card of the State University Treats of Plants and What They Gather from the Earth.

FREMONT, Neb., Feb. 11.—(Special).—The first paper read at the evening session of the Dodge County Farmers' Institute last night was by Prof. Card of the State University on "What Plants Gather from the Earth." He stated as a general proposition, the truth of which had been thoroughly established by scientific research, that whatever is taken up by plants is in liquid solution, including all the mineral elements. Of course the source of all this supply is the soil, even hydrogen and nitrogen being obtained from it. Bacteria of various species are also necessary to the successful growth of the plant. Plants take up raw food in solution and carry it to the leaves, where it undergoes the process of assimilation, after which it goes down between the bark and the wood. This downward course is shown by the fact that when a tree is staked the wound commences to heal at the upper side and heals across, hence girdling increases the growth and quality of the fruit, but injures the roots. A tree taking the water from the roots and evaporates it through the leaves. A vast amount of water is necessary to mature crops and the prime object of cultivation is the retention of moisture. The character of the fruit is largely determined from the quality of the soil. To get a good colored fruit the presence of potash is necessary and the sunlight is an important factor.

The next paper was by Hon. Isaac Noyes of Waterloo on feed crops. He depicted the present tendency of the business to drift into the hands of a few, but predicted that the time was coming when the small farmer would be more numerous. He advocated feeding stock in stalls in barns. A very animated discussion followed this paper. Mr. Whitmore of Valley said that the great capitalists are today putting up the money for cattle feeding and that the big packers virtually own all the cattle now being fed. He thought it best to commence again and build up herds, as far as the cattle business is concerned, owing to the stand taken by the packers, the farmer is in a bad plight. The general opinion was that the best way out of it was for the farmers to start in and raise cattle.

GRAFTING AND BUDDING. At the session this morning President George Marshall of the State Horticultural society spoke on "Propagation by Grafting and Budding." He invited them to send delegates. The grand officers of the respective orders have accepted invitations to attend the meeting, the object of which is to promote a more friendly feeling between the five orders. In the forenoon of the day each order will hold a secret session; a joint secret session will be held in the afternoon, and in the evening a joint public meeting will be held in the opera house, followed by a banquet.

weeks had left a few days since, going by a very roundabout way to Pawnee City, where he has relations. A gold watch belonging to Henry Riddle was found on a person, and he is known to have had another one when he left belonging to another party, which was not recovered.

New Lodge Formed.

FRANKLIN, Neb., Feb. 11.—(Special Telegram).—W. H. Brown of Omaha, supreme secretary of the Business-Men's fraternity, was at this place today and organized a lodge of the order with twenty charter members. A. C. Hart was elected president and A. R. Peck secretary.

Demand for Farms.

CENTRAL CITY, Neb., Feb. 11.—(Special).—There is a great demand for farms this spring, many tenants being unable to find places. T. B. Ford is fattening 7,000 cattle and 25,000 sheep in the vicinity of this city. Saturday he began shipping to Chicago.

Stock Doing Well.

FULLERTON, Neb., Feb. 11.—(Special).—The stockmen report that all kinds of stock are doing fairly this winter. Many cattle are being corn fed here this season, and several thousand head of sheep.

SAGASTA SPEAKS UP

(Continued from First Page.)

at 6 o'clock this evening. The rioters smashed the windows of a Jewish store over which were the names of "Lovy & Dwyer." During the disturbance a shot from a revolver was fired. As this dispatch is sent the prefect of police, with a large force of policemen, is coping with the mob.

POSADOWSKY TALKS ABOUT TARIFF.

Prohibitive Decree Against Fruit is Discussed in the Reichstag. BERLIN, Feb. 11.—When the estimates for the German embassy at Washington were presented in the Reichstag today a discussion arose on the general relations between Germany and the United States, during which Dr. Barth, the foreign minister, Count Posadowsky, the minister of the interior, and others participated. Dr. Barth pointing out the great importance of American trade and how the exports of 1896 had increased 20,000,000 marks.

Dr. Barth said the fact that Germany abstained from reprisals for American treatment of German sugar ought not to be overlooked by the United States. At the same time, he added, the danger from the San Jose lounge was not so threatening as at first assumed.

Count Posadowsky replied that the measures taken at Hamburg were owing to the government learning that a large consignment of fruit from an infected district was on its way there. Experts, he added, had found breeding insects in pears already exposed for sale, and later in a consignment of apples.

Continuing, Count Posadowsky said: "I have today learned that the insect was also found in Berlin. The greatest precaution, consequently, is necessary. The insect has hitherto not been found in Germany, and even in America it is regarded as being very dangerous."

Count Posadowsky then referred to the various state laws in America against the transit of infected fruit, adding: "To the honorable reproaches of the American government I would only reply 'do not do to others what you would not have done to them.' We only acted in self-defense."

Referring to the future commercial policy the count said: "We cannot alter existing treaties before they expire. We require a new, autonomous tariff which can be utilized with the new commercial treaties. We must act wisely and not conjure up an unnecessary tariff war, but the time moment may come when we shall be compelled to abandon our passive policy. The greatest art in the maintenance of peace so long as possible, and I hope the government will be allowed to decide when the moment has come to depart from that course."

At the close of the war he entered the law office of his brother, General Grout, and was admitted to the bar. His service in the Vermont legislature embraced the years 1872, '83, '86 and '88. He was speaker of the house for three years, and senator in 1892.

Governor Grout is deeply indebted to Maine's celery compound for the great help it has given him in his struggle with rheumatism, neuralgia, rheumatism, nervousness, headaches and sleeplessness from the system consists in making the nerves stronger. Pain's celery compound is the nerve-invigorator par-excellence. Better nerve nutrition plays

the principal part in the successful treatment of liver, kidneys and heart disease, as well as nervous diseases. Every one knows that the heart does the work of a pump. From the dawn of life till death it never ceases pumping blood into the arteries, and every heartbeat results from a nerve impulse. When the nerve centers become reduced there follows a gradual increasing feebleness, the heart beats irregularly, there is a loss of nervous and muscular force, the limbs refuse their support, appetite fails and sleep becomes unobtainable. The progress toward a heartier appetite, sounder sleep, firmer pulse, shows the profound invigorating effect of Pain's celery compound upon the nerve fibres all over the body.

Progress toward health is steady and uniform when Pain's celery compound is employed. It stops night sweats—that sure indication of growing feebleness and of wasting disease—and there is a noticeable freedom from those nervous twitches of the muscles and numbness in the limbs that are precursors of paralysis and pain. In cases of chronic nervous overwork, worried people, who are about to break down with some form of nervous disease,

Principal part in the successful treatment of liver, kidneys and heart disease, as well as nervous diseases. Every one knows that the heart does the work of a pump. From the dawn of life till death it never ceases pumping blood into the arteries, and every heartbeat results from a nerve impulse. When the nerve centers become reduced there follows a gradual increasing feebleness, the heart beats irregularly, there is a loss of nervous and muscular force, the limbs refuse their support, appetite fails and sleep becomes unobtainable. The progress toward a heartier appetite, sounder sleep, firmer pulse, shows the profound invigorating effect of Pain's celery compound upon the nerve fibres all over the body.

Progress toward health is steady and uniform when Pain's celery compound is employed. It stops night sweats—that sure indication of growing feebleness and of wasting disease—and there is a noticeable freedom from those nervous twitches of the muscles and numbness in the limbs that are precursors of paralysis and pain. In cases of chronic nervous overwork, worried people, who are about to break down with some form of nervous disease,
