"We are not trying to ruin the Port Arthur line, but to prevent it from ruining us, declared an official of the Rock Island road "It's claim that we are boycotting it because it would not join the Southwestern willingness to deal fairly with them. It has persistently broken all agreements to maintain rates and, in addition to issuing new tariff reducing rates, it has cut them secretly. The court proceedings which it has started against the Santa Fe road and threatens against all others will, I anticipate, develop some facts which will command the attention of the Interstate Commerce unisation. An interesting parliamentary struggle fol-lowed, in which Mr. Balley, Mr. Williams (dem., Miss.) and the speaker took part, which finally resulted in the speaker's deciding that the house had reconsidered its action in regard to the Mahany amendment and a vote upon it was now excluded by the

The Underwood amendments, which struck out the involuntary features of the bill were then presented and voted on under the order of the house. The amendments were defeated-139 to 158.

The vote then came up on substituting the Henderson bill for the senate or Nelson bill and the motion prevailed-153 to 114. Terry (dem., Ark.), the senior membe

of the judiciary committee, then moved to recommit the bill with instructions to strike out all the involuntary features except those for actual frauds.

The motion to recommit was lost. Mr. Terry insisted upon an aye and nay vote for the final presage of the bill. The bill was passed-158 to 124.

Mr. Henderson (rep., Ia.). Ray (rep., N. Y.) and Terry (dem., Ark.) were appointed conferees on the bill, and then, at 6:10 p. m. the house adjourned.

DR. WURTH'S OPINION

OF THE NEW DISCOVERY IN MED. CINE.

A Remarkably Successful Remedy for Dyspepsia, Indigestion and Stomach Troubles.

Dr. Wurth, in commenting on recent discoveries in medicine said: "There is none which is certain to be so valuable and far reaching in benefit as Stuart's Dyspepsia Tablets, the new stomach remedy; I say far reaching, because people little realize how important a sound stomach and vigorous digestion is to every man, woman and child. Indigestion is the starting point of con-sumption, heart disease, Bright's disease, diabetes, nervous prostration, liver troubles; why is this so? Simply because every nerve, cle and tissue in our bodies is created nourished from the food we eat.

that food is, by reason of a weak stomach, compelled to lie for hours, a sour, ferment-ing mass of half-digested food, it poisons the blood and nervous system, creates gas which distends the stomach and bowels, causing pressure on the heart, lungs and other organs and seriously impeding their action.

He says further, the point to direct attention is not the nerves, nor heart, nor lungs, nor kidneys, but the stomach, the first cause of all the mischief.

The remedy to use for indigestion and weak atomache is not some cathartic, but a remedy which will digest the food, increase the flow of gastric juice, absorb the gases, and Stuart's Dyspepsia Tablets will accomplish exactly this result in any case of stomach trouble, because these tablets are composed of the digestive acids, aseptic pensin, Golden Seal and Bismuth, pleasant to taste, and not being a patent medicine, can be used by anyone with perfect safety. I be-lieve Stuart's Dyspepsia Tablets will cure any form of indigestion and atomach trouble except cancer of stomach.

Full size packages of Stuart's Dyspepala Tablets are sold by druggists at 50 cents. A book on stomach diseases, together with thousands of testimonials, will be sent by addressing Stuart Co., Marshall, Mich.

In the case of Joseph Allreed, the Eastern district of Missouri, who is under sentence for counterfeiting money, and also in the case of L. S. Whitfield of the Northern district of California, also convicted for passing Pardons were denied in the following cases:

Herman Hausler of Kaneas, embezzling etter from the mails; Charles Hubbard, Eastern district of Missouri, violation of the ostal laws.

announced that from Duluth and upper Lake uperior points on its line it would make an \$18 first class and \$17 second class rate to New York. From the same points to Port and and Halifax its rates will be \$20 first lass and \$19 second class. These rates are practically the same as those put into effect y the Canadian Pacific westbound to St aul. Little doubt is entertained that the t. Paul lines will meet the rates from the

They have announced that, becoming effective today, the rate from Tacoma to St. Paul, Duluth and points in Minnesota, North Dakota and Manitoba will be cut in two. Heretofors the rates have been \$50 first class and \$40 second class Today they are \$25 first class and \$20 second class. Presuming that the Chicago roads will join them in the cuts, the rates they have announced from Tacoma to Chicago

are \$31.50 first class and \$26.50 second class They have not stopped there, but have carried the war into the heart of Canadian Pacific territory, making a \$40 first class and a \$30 second class rate to points in Ontario credited New Orleans reports that Salvador and Quebec as far east as Montreal and south of the line of the Grand Trunk road from Port Huron to Montreal.

ST. PAUL, Feb. 19 .- In connection with the cut rates going into effect the Southern Pacific has announced that on February 22 the rates will be cut further, making second class rate nearly a half cent a mile This scale of prices will apply over the Southern Pacific from Buffalo, New Y rk and even east of there to Puget Sound. The class rate is today \$40 and second class \$30 from Buffalo to Vancouver by the South ern Pacific. From St. Paul to Vancouver the rates will be \$15 and \$10 on February

Associations Meet at Saratoga.

There have been numerous suggestions lately that the exposition authorities should secure for Omaha the annual meeting of the Master Mechry les' respetation and the Master Car Builders' association and the Man-ter Car Builders' association, which will meet together in June. Joseph H. McCon-nell, superintendent of motive power and machinery of the Union Facilie, who is a comment member of both associations, caid o o The Bee concerning the matter that at a recent meeting of the executive committees tions should meet at Saratega, N. Y., June, the meeting opening on June 15.

Heretofore the moster car builders have not on Wednesday and the master mechanics on the following Tuesday. In this way is has token about two weeks to hold the ventions. The meater car builders have adFor some time past the freight traffic

flicials of the Union Pacific have been demanding more large box cars for handling shipments of grain and live stock. During the heavy movement of both of these classes of freight last autumn the Union Pacific cause it would not join the Southwestern Traffic association is not true. The reason ply of large box cars. The new cars will why the other roads now decline to co-oper-ate with it is because it has never shown a be of greater dimensions than any of those as any used in the west. They will be built for handling movements of grain and live stock especially.

Soo Line Makes a Cut.

There was some consternation in local passenger circles, caused by the deep cut made into transcontinental rates by the Canadian Pacific. While everything has been turned topsy-turvy by the slash the lines through here have not decided what course they will pursue to retain some of he travel of prospective Klondikers. General Passenger and Ticket Agent Lomax of

the Union Pacific said to The Bee that the situation was very bad, but that it was too early to tell what could be done. He said the cut was not entirely unexpected, as rates through St. Paul had been demoralized for some time. Should the roads through there attempt to meet the cheap rates of the Soo line to the northwest they would have to put in a rate of about \$8 to Portnadian Pacific railroad. The Duluth, South land, a proposition that is not likely to pre-

> New Union Pacific Pay Checks Checks of a new form are now being used to pay bills of the reorganized Union Pacific Railroad company. The new checks have been issued within the last few days and show that a considerable part of the reorganized company's banking business will here after be transacted with the Merchants' National bank of Omaha. Heretofore the entire banking business of the Union Pacific sys-

tem has been handled through the Omaha National bank. The Union Pacific has not withdrawn its account from the Omaha Na-tional bank, but has merely diminished it. President Murphy and Cashier Woods of the Merchanta' National bank said to a Bee re-porter that the Union Pacific Railroad company had just opened an account there, but they could not tell what proportion of the

new company's business their bank would handle.

Time at the Shops

The employes of the Union Pacific shops are kept pretty busy now-a-days with the large amount of repair work on hand. During the week they worked forty hours, di-vided into five days of eight hours each. the same number of hours they have put in during each week since the be-ginning of the year. Ther is no prospect that the number of days per week will be either increased or decreased very soon, but the number of house per day will remain at eight. That is a settled fact. The number of days per week that the men work is a question that is settled each week accord-ing to the amount of work on hand.
