Sitting Adjourns Without Passing on the Applications for a Hearing from Two Financiers Now Under Sentence.

LINCOLN, March 4.—(Special.)—The supreme court adjourned this afternoon, after having been in session one day longer than usual. Judge Sullivan had an attack of the grip and went home yesterday afternoon.

J. H. Broady, attorney for the Society of the Home for the Friendless, in the suit brought to compel the payment of the state appropriation, is withdrawing the original papers and bills from the files in order that a new suit may be commenced. He was not ready today to say what course he would pursue to get the money paid over to the society, but indicated that a new move would be made very soon.

Today Mr. Wolfe went out and inspected the chimney. He did not consider it in very bad shape and told Mrs. Williams that the board, under the present complicated circumstances, would not feel justified in ordering the chimney unless the society would allow the state to furnish the engineer. Mrs. Williams said she could make no agreement of this kind without consulting the society, and the land commissioners came away. He is inclined to think it will all be a waste to get the board to commit itself in any way.

It's hard to learn an old dog new tricks and Drexel L. Shooman says it is a great deal more difficult to find a boy's shoe at \$1.50 anywhere that will equal the ones we sell at that price—they are made for the lively little boys—they can't kick them out easy—good, solid, substantial shoes—that are equal to the \$2.00 kind in the ordinary shoe trade—Thousands of Omaha boys wear these \$1.50 school shoes—Don't think because they are only \$1.50 that they're a cheap shoe—we do not claim a profit on them—if we did we would have to ask \$2.00—even then we would be getting your money's worth.

BEATRICE, Neb., March 4.—(Special.)—The announcement made recently on the occasion of a visit of the State Board of Public Lands and Buildings to the state institution located here that the board intended to construct a standpipe system of water works at the asylum has stirred up the owners of the property known as the Fulton springs, who threaten to enjoin the work if begun.

Wharton, Omaha: Sir—In your somewhat rambling talk, which I suppose you had in the mind to deliver in the presence of the people of Omaha, you went out of your way to assail myself, an humble private citizen, who never had the slightest connection with the case you are pretending to discuss.

When you state that you had gone to Governor Thayer and begged him to yield to the people's choice you are guilty of a direct and palpable falsehood. You never said one word to me on the subject, and you did not call upon me. I did not know you then by sight, and I do not know you by sight now, and I do not desire to know you, for my acquaintance is confined to men only who are gentlemen.

Problem of the Managers Seems to Be Solved at Last. NEW LOCATION IN THE NORTH END. Vacant Land at Twenty-Fourth and Ames Avenue to Be Utilized in Event Paul Street Deal Falls.

The location of the Omaha ball park is still in doubt, but the indications are that it will be decided on before Sunday, and in that case the task of preparing the grounds for the season will begin promptly Monday morning. Manager O'Brien has been looking over a new site. This is the pretty stretch of unoccupied ground immediately north of Ames avenue and west of Twenty-fourth street. While this is ten minutes' ride further from the center of the city than the Paul street ground, the natural adaptability of the site is sufficient to offset the distance to traverse. Quite a number of the fans went out to see the grounds last night, and Manager O'Brien said that they can be made the finest ball park in the Western league. There is all the room that can be required and the topography of the ground is well suited to the purpose.

When you state that you had gone to Governor Thayer and begged him to yield to the people's choice you are guilty of a direct and palpable falsehood. You never said one word to me on the subject, and you did not call upon me. MAJOR OF HARTFORD. Has Experienced Wonderful Benefit From PAIN'S CELERY COMPOUND

Mayor M. B. Preston has been Hartford's chief executive for two years. As a result of his economic, wise administration, the municipality has prospered, and today stands high among the leading cities of America.

Materials for making bone in the brain and nerves it leaves other materials again making nerve-matter, and so on. But it takes rich, pure, highly vitalized blood to do all this, and this is the powerful lever which Paine's celery compound takes advantage of to make the weak body strong, and to drive out disease from the system.

There is every reason in the world why Paine's celery compound should build up the blood and regulate the liver and kidneys. It is high time to purify the blood and regulate the liver and kidneys. Paine's celery compound makes bright red blood and relieves the liver and kidneys of the strain that is brought upon them whenever impure blood is constantly pouring through their substance.
