

CONDITION OF OMAHA'S TRADE

Jobs Do a Large Business in All Sections of Tributary Territory. COLLECTIONS GENERALLY VERY GOOD.

Snow Storm, Followed by Sloppy Weather, Reduced the Volume of Trade Doing in a Retail Way.

The business situation, viewed as a whole, was very satisfactory last week, though it can hardly be said that any material change took place in the space of the week.

The country continues prosperous, and so long as that is the case there is no reason to anticipate any material change in the general volume of business, though with the change of the seasons comes a natural decline in the demand for one class of merchandise and a corresponding improvement in the call for some other.

Money is easier and consumers are better able to supply their necessities as well as indulge in luxuries.

As long as the conditions remain so favorable there is no danger of any appreciable falling off in the volume of business, while the coming of spring for some time past of the leading farm products, which is all conditions would tend to better trade.

CONDITIONS STEADILY IMPROVE. In Omaha the local business conditions show steady improvement, due to a wide variety of reasons which are being pointed out by the large retail stores.

Conditions are much improved in the city, money in general circulation being apparently increased, and in the country there is a holding up of the most important.

In some departments of trade there is a strong tendency toward higher prices owing to the increased demand for certain goods, which has enabled manufacturers to ask and obtain more money for their products.

Under the influence of the new weather, there is a decided improvement in the shoe trade, and the shoe manufacturers have frequently shaded their first quotations within the past few weeks.
