PROGRESS OF THE PUBLIC SCHOOLS

Blind Boy Takes High Honors in the Texas University Medical Tip on Applying the Birch Rod ... Educational Notes.

A magnificent gift of \$1,100,000 has just

been received by Columbia university, New York City, from Joseph Florimond Loubat, the Duc de Loubat, as a foundation for a library. This gift is among the largest ever made by a single person to any institution of learning in the country and it is upproached in size in New York only by J. Pierpont Morgan's gift of \$1,000,000 to the Lying-in-Hospital. It is in the form of Broalway property and the conditions of the endowment are that the university agree to pay to Mr. Loubat for the remainder of his upon, "The Principles Fought for by Our life \$60,000 a year and that it be named the Gaillard-Loubat Library Endowment Fundan honor to the donor's parents. Mr. Loubat oas already established two prizes at Columbia-one of \$1,000 and the other of \$400-for the best works published in the English lan-guage on the history, geography, numis-matics, archaeology, ethnology and philology of North America. Competition is open to any citizen of the country. Mr. Loubat was born in New York sixty-seven years ago. He inherited a very large fortune and thus having the means, he has indulged a natural inclination for travel and profitable study. He was secretary of the special embassy of the United States to St. Petersburg in 1867 to thank the czar for Russia's neutral atti-tude during the civil war, and on his return published a book on the work of the basey. Later he published a "Meiallic History of the United States" at a cost of \$30,-000. The title of Duc de Loubat was con-ferred on him by the pope in 1893 in con-sideration of his valuable gifts to the Cutholie church in this country and abroad. A BLIND BOY GRADUATE. Franz Joseph Dohmen of Austin, Tex., ranks above any of his fellow students of the

present senior class of the University of Texas. At the next commencement he will receive the decree of bachelor of literature. The fact that Mr. Dohmen is the first honor man of his class is only remarkable because man of his class is only remarkable occause since his tenth year he has been totally blind. He is 24 years old and was born at New Braunfels, Tex., of German parents. His father, Dr. Dohmen, was at the time of his death the state occulist and one of the was at the time of his profession in most distinguished men of his profession in the state. At present he is studying Greek, French, German, mathematics, Latin and political science. Upon these studies next June he will receive his degree of bachelor of litera-ture and will leave immediately for Germany to pursue further investigation in his favorite subjects of philosophy, mathematics and political science in some one of the great uni-

versities there.
Mr. Dohmen is rather tall. His face is sensitive, refined and pleasingly intelligent. His disposition is bright and cheerful. He is popular with everyone and the small coterie of his friends, to whom he reveals in some degree his inner self, all testify by their sincere admiration to the true nobility and greatness of his character. His life after his return from Germany will be spent in teaching.

been wrestling with the offense and seems disposed to rest from its labors on warning the children against the disastrous quences liable to ensue from mischievous and reckless stone-throwing. This moves the great medical journal to "earnestly hope that the disastrous consequences may include a smart application of the birch rod to that portion of the body which has been gener-ously supplied by Providence with some six-teen different sensory nerves."

That's the spot. Is there a boy in all this broad land whose father knew his business who does not remember how emotion tingled through his whole being while those sixteen

sensory nerves were being played on by a master hand?

LIBERAL CIFT TO EDUCATION odist Episcopal church last Friday night. State university.

Cicculars sent out by Dr. Hastings of the gymnesium proposing an athletic meet of western collegee at the transmississippi grounds this spring have already been favorably answered by the University of Colorado, Doane college, Wesleyan university, Tarklo (Mo.) college, Midland college and the University of Omaha.

The university gymnasium will next year open a two years' course of training for physical directors of gynnasiums and ath-letics. There is a growing demand for men and women well trained in this line for Young Men's Christian association and Young Women's Christian association work, as well as many schools.

"Studies from the Zoological Laboratory," now in press, is a volume of twenty eccess, the outcome of original work in the zoolog-ical department of the university under the direction of Dr. H. B. Ward. Five of the studies represent graduate work of the department and several of them have already appeared in the reports of the Nebraska State Board of Agriculture, some of them of notably practical importance relating to animal parasites and their destruction.

At the local oratorical contest last Friday

night there were three contestants, J. D. Deunison, whose theme was "The Evolution Forefathers," and H. R. Tucker, "The Com-ing Statesman." The judges made a very close contest between the two first speakers, Dennison winning with a percentage of 546 against Meler's 528. The winner will repre-sent the university at a contest with Doans college at Crete on the 25th inst.

The appual reception to the students of the egricultural school at the home of Concellor MacLean last week was the occasion of congratulation upon the progress of this department of the university. The attendance has grown almost 100 per cent the last year and the interest in the work in the same proportion. A real school of scientific and practical farming is at last being built up at the university. As this school, from the nature of its work and its location upon the university farm, will be to a large exsolved to celebrate the occasion of its sec-ond annual reception by a separate stu-dents' organization to be called "The Agricultural Students' Association of the Uni-versity of Nebraska." The officers elected were: C. L. Brown, president; F. A. Swan-son, vice president; Coarles W. Nulick, seccetary, and A. L. Haecker member of an executive council of which Chancellor Mac-Lean, Dr. Bessey and A. E. Davisson are the other officers.
