

IN THE DOMAIN OF WOMAN

(Continued from Eighteenth Page.)

ding presents. I think that when a woman... of the definite end of matrimonial prob-

"I believe you're right," laughed her jovial father. "If you aren't married when you are 25 you shall have all the furbeles you want."

The friends, too, were amused by the idea, and promised to carry it out.

The years slipped along without bringing any need of a sure-enough touseau, and in a month the 25-year limit was reached.

A WOMAN'S NOVEL IDEA.

The Noxondy Rest just opened by a Chicagoan widow. There is no sign out at the door, and neither a basement nor a store is the scene of operations.

"Everything is 5 cents," she says. "At least, nothing is over that price, and I have just finished an abundant luncheon, topped off with ice cream and good chocolate cake."

"Go into the room furthest back," she says. "There are no waiters; everybody waits on herself here."

With doubt and uncertainty you approach the back room, glancing in meanwhile at the small, white-draped tables in the two adjoining rooms, where women in hats and jackets are seated at luncheon.

"There is the menu on that slate on the wall," says one of the women in charge of affairs. "Read it, and then you can order; but then provide yourself with knife, fork and napkin, and you will be served."

This back room is a cheery, well-appointed place. Against the wall are set several new steam tables, from which a small, savory meats proceeds. There are big plated urns on either side and a big soup caldron.

GOSSIP ABOUT NOTED WOMEN.

Recently Miss Helen Gould was asked to join the order of the Daughters of the Revolution, being the first woman to be so being already connected with a vast number of clubs and guilds, and said:

"I must try to show my patriotism in some other way."

One of her other ways has been distributing 50,000 copies of our national hymn, "America," among school children, and each copy was engraved with a picture of the author of the song, Dr. Samuel F. Smith.

A characteristic of the late Horace Greeley was his sympathy with the one who, if not altogether in the wrong, was not wholly in the right.

The O. T. Huntingtons are trying to sell their new and superb New York City house on Fifth avenue, and the secret of it is that Mrs. Huntington is so devoted to her flowers at her country home, Throgs Neck, that she prefers to live there the year round.

and palm house, roseary and violet house. Within a few years, the fern and palm house has twice had the roof raised to accommodate the rapid growth of the palms.

The newest ornament for the hair is a huge auburn comb in amber, orange or brocade. It is decorated with cut steel, or is set with jade, rhinestones or turquoise.

William H. Orme, an insurance collector residing in Boston, has been clapped into jail for engaging to marry six different women. Orme has a wife and family in addition to his other troubles.

A substitute bridesmaid took part in a fashionable wedding in Derby, Conn., recently, because the original maid of honor suddenly took it into her pretty head that she herself wanted to be married, so she eloped on the day in question.

Miss Victoria's third daughter, the Princess Christian of Schleswig-Holstein, belongs to choral societies in London, Windsor, which give public concerts, in which she takes part.

Princess Theresa, daughter of the prince regent of Bavaria, is a member of the Royal Bavarian Scientific academy and is the first woman who ever has received the doctor's diploma in science from the University of Munich.

A banquet was recently given in France in honor of Clemence Royer, who won eminence for lectures and writings on scientific subjects early in the century.

The king of Sweden has bestowed upon the Scandinavian authoress, Clara Tschudi, the medal for art and science, it being the first time that a Scandinavian authoress has received this honor.

On February 12 a grandniece of Andreas Hofer, the renowned Tyrolean revolutionist and popular poet, who caused the first Napoleon so much trouble, celebrated her silver wedding. She is the wife of Anton Hofer, a blacksmith in the town of Innsbruck, in lower Austria who is now 72 years old, but still active at the anvil.

Mrs. U. S. Grant is living in Washington in the best of health and spirits. She is suffering with impaired sight and this interferes with a work she planned a year ago. It is her intention to write her memoirs for her children and grandchildren.

The latest fad in hair dressing is to lower the pompadour directly in front and pull the tresses and curls down and fluff at the sides where they cover the ears.

Yale blue is one of the popular colors in wool gowns for children. They are made with a blouse front and Eton jacket decorated with braid.

A novelty in hairpins is a narrow band of gold two or three inches long, studded with imitation pearls, with a gold hairpin attached. When the pin is in place the band shuts down and confines the stray locks.

The approved petticoat to wear with the new sheath skirts fits very closely over the hips, is plain down the front, with a narrow ruffle at the bottom, and is finished with a button or two at the back.

Yak lace is revived again, and the new lace generally is beautiful beyond description. It is the heavy variety with wide scalloped figures very plentifully, outlining the pattern with fine effect.

The most up-to-date handkerchiefs have a plain hemstitched edge. Of course, can-

brodery is just as popular as it ever was, and handkerchiefs scalloped and pointed with edges of lace or embroidery always will be as long as women are guided by their eye in selecting toilet accessories.

When congress passed the postal subsidy act for the encouragement of American shipping it included as one of the provisions a measure intended for the encouragement of American sailors.

What the law has really done is to open a new and attractive profession to young Americans. To become a ship's officer, to tread the deck of some ocean liner resplendent in brass buttons and gold trimming, and to have the men all touch their caps and call him "sir," has been the dream of many a lad.

James G. Blaine, who is employed as a reporter on a New York paper, is said, will soon be married to Miss Kathie Beth, a girl who is now in Paris with her mother.

War rumors have little effect on the hearts of men-of-war's men. Ensign Carman of the battleship Indiana and Miss Carman of Old Point, Va., were married the other day and are to spend their honeymoon in the ancient fortress of Dry Tortugas.

The king of Sweden has bestowed upon the Scandinavian authoress, Clara Tschudi, the medal for art and science, it being the first time that a Scandinavian authoress has received this honor.

The most up-to-date handkerchiefs have a plain hemstitched edge. Of course, can-

liners is not called upon for much work aloft, it is a good thing for the boy who goes to sea to be able to walk a yard arm or to run up and down the long rope ladders that lead to the lofty spars.

After two years of this work, at the age of 18, he receives his cadetship, let us say on the big liner New York. The squad of ten cadets is divided into two equal sections, one of which is known as the "deck cadets" and the other as the "engineer cadets."

TRAINING AMERICAN SAILORS

Uncle Sam's School for the Future Masters of the Merchant Marine.

NEW AND ATTRACTIVE PROFESSION

Importance of the Law Designed to Prevent the Disappearance of the American Tar--Duties of Ship Cadets.

When congress passed the postal subsidy act for the encouragement of American shipping it included as one of the provisions a measure intended for the encouragement of American sailors.

What the law has really done is to open a new and attractive profession to young Americans. To become a ship's officer, to tread the deck of some ocean liner resplendent in brass buttons and gold trimming, and to have the men all touch their caps and call him "sir," has been the dream of many a lad.

James G. Blaine, who is employed as a reporter on a New York paper, is said, will soon be married to Miss Kathie Beth, a girl who is now in Paris with her mother.

War rumors have little effect on the hearts of men-of-war's men. Ensign Carman of the battleship Indiana and Miss Carman of Old Point, Va., were married the other day and are to spend their honeymoon in the ancient fortress of Dry Tortugas.

The king of Sweden has bestowed upon the Scandinavian authoress, Clara Tschudi, the medal for art and science, it being the first time that a Scandinavian authoress has received this honor.

On February 12 a grandniece of Andreas Hofer, the renowned Tyrolean revolutionist and popular poet, who caused the first Napoleon so much trouble, celebrated her silver wedding. She is the wife of Anton Hofer, a blacksmith in the town of Innsbruck, in lower Austria who is now 72 years old, but still active at the anvil.

Mrs. U. S. Grant is living in Washington in the best of health and spirits. She is suffering with impaired sight and this interferes with a work she planned a year ago. It is her intention to write her memoirs for her children and grandchildren.

The latest fad in hair dressing is to lower the pompadour directly in front and pull the tresses and curls down and fluff at the sides where they cover the ears.

Yale blue is one of the popular colors in wool gowns for children. They are made with a blouse front and Eton jacket decorated with braid.

A novelty in hairpins is a narrow band of gold two or three inches long, studded with imitation pearls, with a gold hairpin attached. When the pin is in place the band shuts down and confines the stray locks.

The approved petticoat to wear with the new sheath skirts fits very closely over the hips, is plain down the front, with a narrow ruffle at the bottom, and is finished with a button or two at the back.

Yak lace is revived again, and the new lace generally is beautiful beyond description. It is the heavy variety with wide scalloped figures very plentifully, outlining the pattern with fine effect.

The most up-to-date handkerchiefs have a plain hemstitched edge. Of course, can-

liners is not called upon for much work aloft, it is a good thing for the boy who goes to sea to be able to walk a yard arm or to run up and down the long rope ladders that lead to the lofty spars.

mechanical knowledge required to drive a modern racing engine such as is used on the ocean liners, or for the more general work of a commanding officer.

If the young sailor becomes a cadet engineer he is set to work below decks, while he is under the direction of the chief engineer. He gradually becomes familiar with the management of the finely balanced machines, which are more delicate than any other mechanical contrivance of equal power.

He reads engine tests, studies coal supply and picks up from the engineers all the lore calculated to be of value in obtaining high speed from the great warships. If he is ambitious to become a chief engineer in time, he continues his study of mathematics and navigation and by the time his three-years' term is over has increased to six per month.

It has frequently been said that the American tar is disappearing from the seas, and that if the number of vessels carrying the United States flag were increased they would, in the course of a few years, have to be manned and officered by men of foreign birth, because no Americans would be fitted for the work.

What the law has really done is to open a new and attractive profession to young Americans. To become a ship's officer, to tread the deck of some ocean liner resplendent in brass buttons and gold trimming, and to have the men all touch their caps and call him "sir," has been the dream of many a lad.

James G. Blaine, who is employed as a reporter on a New York paper, is said, will soon be married to Miss Kathie Beth, a girl who is now in Paris with her mother.

The most up-to-date handkerchiefs have a plain hemstitched edge. Of course, can-

assistants, and the membership numbers 3,700.

The Ladies Home Journal having declared recently that the Sunday school is decreasing and the attendance on the decrease, the Congressionalist, speaking for its denunciation, says: "During the last ten years the increase in Sunday school membership has been 27,000."

W. S. Cowley, a negro who says he represents a new world-wide religion which was revealed to him in Guthrie, Okla., has started for Washington on a crusade. He has many disciples. Those who join him are saluted with the "holy kiss," and when one has received that salute he is a disciple. Cowley conceives his mission to be to preach what he thinks is the truth to the president and to congress. That is why he is going to Washington. He has some remarkable ideas. Among them is this: That Colonel Ingersoll will be converted and will become a "second Paul of Tarsus." Cowley believes that his mission calls him to preach to the rich classes.

Mrs. Elizabeth Gilkison has presented to Christ Church Cathedral, St. Louis, her three-story residence, fully furnished, for the use of its dean forever. It is easy of access, in a quiet street and, the Globe-Democrat says, large enough to permit the dean to entertain visiting church dignitaries, which has been almost impossible in his present quarters at the Schuyler Memorial House. The Rev. Very Rev. Carroll M. Davis is now the dean.

A correspondent reporting the marriage in a Nebraska town of Edward W. Cook and Effie May Nott inquires: "If Effie May Nott Cook, what will Edward do?" Touch his mother-in-law, probably.

Col. A. B. COIT, Ohio National Guard.

To whom it may concern: The Pe-ru-na Drug Mfg. Co. of this city is counted as one of the leading manufacturing enterprises of the city. The proprietors are well-known, prominent citizens. The president, Dr. S. B. Hartman, is a physician of high standing, and an enterprising citizen of undoubted integrity.

• Catarrh is a thief. It is treacherous and crafty: driven out of the head it appears in the stomach, lungs or kidneys. At every new location it changes its name. Catarrh saps our strength; it spoils our good manners; it taints our breath; it steals our income, and under some name kills more people than all other diseases combined.

What are the incurable diseases? Consumption and Bright's. They are catarrh! So are many other diseases that kill. Get Dr. Hartman's book on chronic catarrh; it is mailed free. It is startling to define these deadly diseases as catarrh, but it is true, and Dr. Hartman has been demonstrating it for forty years.

Once the origin of catarrh is understood, the folly and harm of local treatment is plain. Educate yourself on this one point. No American can afford to treat catarrh with indifference. Write to Dr. Hartman for information. Pe-ru-na is the scientific remedy for all phases of catarrh. Evidence of its efficiency abounds.

Dr. S. B. HARTMAN, Columbus, O. Dear Sir:—I have been afflicted with swelling in my legs and hands, and could hardly walk at times, and could not use my hands at all. I was troubled with biliousness, bronchitis and kidney trouble. One day I happened to pick up your "Gift of Life," and commenced using it. I therefore got medicine was all right, and so I tried it. After taking seven bottles according to directions, I was cured and felt like a new man. I recommended it to all who were suffering with this full disease. It is the best medicine for catarrh. I owe my health to you.—A. F. STERN, Marine City, Mich.

Dr. S. B. HARTMAN, Columbus, O. Dear Sir:—Five years ago I contracted a very bad case of kidney trouble and constipation. So bad was my case that I could not have a passage of my bowels without hemorrhages. I tried all kinds of cathartics but they did me no good. I was expected to die by all my friends; but, to the surprise of all, I still live, thanks to your Pe-ru-na. You are a benefactor to all mankind. I will always thank you and your medicines for the great good you have done me.—C. K. COBBY, Vale Mills, Giles Co., Tenn.

Dr. S. B. HARTMAN, Columbus, O. Dear Sir:—For many years I had been a continual sufferer from that dread disease, chronic catarrh. I gave up hopes of ever being relieved. I tried every remedy my friends recommended but all in vain. Finally I took my Pe-ru-na and in a few days I felt better. I began to take it, and in a few days felt so well that I got up. I continued it, improving all the time, until I am now almost a sound man. Can do as hard a day's work as almost any man. This happened four years ago.—J. W. DRAPER, Gainesboro, Tenn.

Dr. S. B. HARTMAN, Columbus, O. Dear Sir:—I have had a very bad case of chronic catarrh. I was cured and felt like a new man. I recommended it to all who were suffering with this full disease. It is the best medicine for catarrh. I owe my health to you.—A. F. STERN, Marine City, Mich.

Dr. Hartman's free books on catarrhal diseases are mailed on application to the Pe-ru-na Drug Mfg. Co., Columbus, Ohio. All druggists sell Pe-ru-na. Special book for women, called "Health and Beauty," mailed to women only.

WHITE PIQUE FROCKS.

Murray, a farmer from South Dakota, aged 50, while on a visit to Perry was introduced to Mrs. Belle Tidd, a widow. It was a case of love at first sight. Next day they were married.

Eight of the most remarkable marriages on record took place within a few weeks in the parish of St. Marie, Quebec. Two neighbors, named Morin and Rheume, have eight children, four sons and four daughters.

James G. Blaine, who is employed as a reporter on a New York paper, is said, will soon be married to Miss Kathie Beth, a girl who is now in Paris with her mother.

War rumors have little effect on the hearts of men-of-war's men. Ensign Carman of the battleship Indiana and Miss Carman of Old Point, Va., were married the other day and are to spend their honeymoon in the ancient fortress of Dry Tortugas.

The king of Sweden has bestowed upon the Scandinavian authoress, Clara Tschudi, the medal for art and science, it being the first time that a Scandinavian authoress has received this honor.

carry altogether over 100 cadets. Forty of these are on the four big passenger steamers of the American line, the New York, Paris, St. Louis and St. Paul. The positions on these boats are most coveted by the boys because the experience gained on them is of the best and makes it easy for the young officers to obtain places when their terms of apprenticeship expire.

The cadets are appointed by the marine superintendent. Most of them are selected from the boys on one of the school ships, though occasionally one is selected who has not had any previous training.

The largest policy of the Mutual Life Insurance company of New York, which was taken in the early '90s, and had been increased by dividend additions to \$46,448,000. During the year he surrendered a large portion of the dividends to pay premiums, but in less than four weeks after his death his son received that company's check for \$42,211 in settlement of the \$40,000 policy on his father's life.
