

FROM THE FARTHER WEST

HALT VEINS OF UTAH

Two Concerns Struggling for Control of the Gilaonite Beds.

MOON TO BECOME PUBLIC PROPERTY

Deposits of Gilaonite on the Uncompahgre Reservation Estimated to be Worth Millions.

SALT LAKE, Utah, March 30.—(Special).—The contest going on in congress over the amendment to the Indian appropriation bill providing for the leasing of the gilaonite beds on the Uncompahgre reservation, soon to be thrown open for settlement, is really a fight between two concerns for control of what beds estimated to be worth hundreds of millions of dollars.

Senator Sherman, the United States geological expert, has estimated in a report to the government that not less than 23,000,000 tons of asphaltum can be mined in the section in controversy.

The fight over the gilaonite beds has been waged through three sessions of congress and bids fair to go over a fourth.

A great many plans have been presented for the disposition of the lands. The latest proposition is contained in a bill introduced by Senator Rawlins.

The bill divides the land into claims and bids to the highest bidder, no person to have more than one claim.

As to the value of the lands, most of the estimates made are purely conjectural.

The reports of Mr. Eldridge, the government expert, are respectful of the value of the gilaonite beds.

Eldridge was first sent out by the government in 1892, and in the spring of 1893 he made an exhaustive report in which he said:

"The most important locality of unaltered gilaonite is in the region immediately north and south of the Uncompahgre reservation.

The veins are known as the Little Bonanza, the Big Bonanza and the Cowboy. None of these veins is exposed to view.

The Little Bonanza vein is about 14 miles long and is worked for nearly the entire distance.

The Cowboy vein is about 10 miles long and is worked for nearly the entire distance.

The Big Bonanza vein is about 10 miles long and is worked for nearly the entire distance.

The veins are all of the same thickness at all points. Near the summit of the ridge extending along the White river canyon on the north the Little Bonanza attains a maximum observed width of ten feet six inches.

On the greater part of the vein to the north-west shows a width somewhat less, perhaps an average of six to eight feet.

The Big Bonanza vein is about 14 miles long and is worked for nearly the entire distance.

The Cowboy vein is about 10 miles long and is worked for nearly the entire distance.

The Big Bonanza vein is about 10 miles long and is worked for nearly the entire distance.

AT WORK AND \$500 OF THE \$1,500 NECESSARY

included was, at the time of Mr. Eldridge's report, about \$30, and the price for the beds at the point and St. Louis was from \$40 to \$50, leaving a net profit of \$10 to \$20 a ton.

Under the law as it stands the reservation would be thrown open to settlement April 1, but it will be impossible to open the reservation at that time the law will probably be changed before congress adjourns.

LOOMIS BACK FROM ELKWOOD

Crack Trap Shot Returns from the Great Eastern Tournament.

TALKS MODESTLY OF HIS FINE RECORD

Man Who Shot Pufford Almost to a Standstill in the Great Handicap Race Tails of the Meeting.

George W. Loomis returned yesterday from the east, where he had such a narrow escape from winning the biggest shooting event that has ever occurred in the world.

The match was the "Great American Handicap" shot on the 19th of February at the country club in New York.

Loomis was one of the nine men who killed their twenty-five birds straight, and he was the only one who kept pace with the winner until the last bird was killed.

After killing forty-seven straight he went down before misfortune in the shape of a peculiarly hard bird, and E. D. Pufford, his only remaining competitor, killed his forty-eighth and won the trophy.

While Loomis is somewhat modest in discussing his own very remarkable record, he is most enthusiastic in his description of the general features of the shoot.

He asserts that the grounds at Elkwood Park are the most beautiful he has ever seen, and is equipped in every respect for the most adequate even for the tremendous crowd of marksmen the big event brought out.

The arrangements were as nearly perfect as possible, and the only interference was that of the wind, which was very light, and the arrangement of the grounds was so convenient that the minimum of discomfort was experienced.

In regard to the big match Mr. Loomis says the scores were exceptional, considering the very fast birds that were shot.

The first eleven birds were reserved for this match, and particularly in the shoot-off the marksmen were given some very knotty propositions.

Seven of the nine men were eliminated by the shoot-off missed on the first eleven birds, and the interest was intense.

It was at least an element of hard luck that gave Mr. Pufford the victory, as he was the only one who kept pace with the winner until the last bird was killed.

James Thompson and his aged wife were burned to death in a shanty near Fresno, Cal., last night.

A Stockton firm has one year, 75,000 sacks of wheat, for which it received a check for \$115,000.

A bonus will be offered to outside capitalists for the best sugar factory at Franklin if the co-operation plan now being agitated is successful.

Governor Budd has appointed Mayor James D. Phelan a regent of the State university for the full term of six years.

The discovery has been made that there is a deposit of \$2,000 to the credit of Martin DeWitt in an eastern bank, where she deposited it before she became insane.

Robert A. Spencer, a pioneer and a member of Captain John Grigsby's company of Fremont's battalion during the Bear Flag war, died last night at his home in Utah.

To prevent the spread of consumption the cows in all the dairy herds at Santa Rosa are being inspected and subjected to the tuberculin test.

The members of the San Francisco Board of Health.

The farmer, the mechanic and the bicycle rider are liable to unexpected cuts and bruises.

DeWitt's Witch Hazel Salve is the best thing to keep on hand. It heals quickly, and is a well known cure for piles.

OHIO RIVER BEGINS TO REcede.

Worst of the Flood is Believed to be Past.

CINCINNATI, March 30.—The Ohio river is falling everywhere above Louisville except at Pittsburg, where the latest reports predict it will be at least a foot higher shortly after.

At Morgan's Landing, the Monongahela, and at Brownville that the river is falling rapidly.

The great Kenawha is falling at Charleston, but rising below, yet at Point Pleasant, where it empties into the Ohio, the latter is rising.

The river here at Pittsburg is not rising, but is falling.

DAUGHTERS OF THE REVOLUTION.

Daughters of the Revolution will meet in Boston April 25 and 26, as the guests of the Society of the Daughters of the Revolution.

On Tuesday, April 26, the state society will entertain the officers and members of the general society.

A reception will be given on Wednesday, April 27, at 10 o'clock, on the occasion of the meeting of the delegates.

Excursions will be made to places of historic interest in and about Boston.

On Sunday School Lessons.

CHICAGO, March 30.—The International Sunday School Lesson committee was in session in this city today and will continue its work tomorrow on selecting the lessons for the month of April.

The committee is the thirty-fifth since the appointment of the first committee at Indianapolis in 1872.

Most of the members are in attendance. Most of the work today was the consideration of suggestions by corresponding members.

Colonel Kavanaugh Reinstated.

CHICAGO, March 30.—Colonel Marcus Kavanaugh, who was removed as commanding officer of the Seventh regiment, Illinois National Guard, by Governor Tanner and placed under military arrest for parading on St. Patrick's day with organizations not having the permission of Governor Tanner, was today reinstated.

The order reinstating Colonel Kavanaugh is signed by Adjutant General Reace. It gives no explanation of the reinstatement, merely directing that Colonel Kavanaugh be released from arrest and that he resume his command.

Burn the President in 1893.

RICHMOND, Va., March 30.—President McKinley and Senator Mark Hanna were hanged and burned in effigy tonight by a crowd of men who assembled on the corner of the city.

William Hattess, a well known democratic worker, made a speech denouncing the Cuban policy of the administration.

The speech was cheered and at its conclusion Hattess drew a revolver and fired at the effigies.

Excursing Gold for Import.

NEW YORK, March 30.—Mueller, Schall & Co. have engaged \$250,000 for import of a dispatch from Boston says that Kidder, Peabody & Co. have \$300,000 in gold engaged for import.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation.

Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50 cent bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
