Baltimore Market.

ADVANCING VALUES ORDER OF THE DAY

Weather Too Cold for an Active Move ment of Goods in a Retail Way-Prospects Favorable for a Continuance.

The last week was not productive of any especially new features in trade circles. Current business moved along in the well beaten path without material change and was for the most part of an entirely satis-

factory character.

Jobbers as a rule give very favorable reports and it is a rare thing to find one who is not entirely satisfied with the volume of business doing at this season. As a matter of course some departments of trade show more activity than ofners dependent upon whether the present happens to be the active season or not in that particular line. In retail circles a fair volume of business was disposed of the last week, but as a matter of fact the weather was too cool to make spring goods move readily. In the first place the weather was so cally a great part of the week that shoppers were not attracted forth in as great numbers as might have been anticipated had the as might have been anticipated had the weather been milder, and those who did venture forth could hardly be expected to buy freely of spring goods while the wind was blowing chill from the north and there were lee and snow on the ground. Sill retailers generally appear to be well pleased with the trade situation and no complaints are heard from them any more than from the jobbers.

increased consumption anticipated for the berry season. Then, too, prices have been lower than usual for some time past. Dried apricots and peaches have also taken an upward jump. This is the result of the heavy frosts of last week, which seriously damaged the fruit crop of California. The seport is that the almond crop is almost entirely destroyed.

Steady prices and a good demand are the leading features of the wholesale hardware trade. Little change from last week's condition is reported, the volume of business remaining about stationary. The jobbers, however, will be pretty well satisfied if the conditions prevailing at the present time shall continue.

The boot and shoe jobbers also make a

Rents agents in the month just passed have had a demand for all sorts of houses, more active than at any time since the early spring of 1893. The largest demand in the last week has been for small houses of from four to five rooms ranging in price from \$12 downwards. The inquiry is especially active for houses of this description between South Tenth and South Twenty-gighth streets north of Vinton. The supply of houses close to the center of town and of flats is not equal to the demand and the result has been a general rise of rents of from 15 to 25 per cent, varying with their accessibility. No inside houses have stood empty for more than two or three days this past week and the demand for houses of all sorts is general and steady, with the prospect of advanced rents being permanent. Building And Building Material.

Contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard standard of the contractors and architects say that delays are dangerous for parties who contains a standard of the contractors and architects say that delays are dangerous for parties who contains a standard of the contractors and architects say that delays are dangerous for parties who contains a standard of the contractors and architects are standard of the contractors and architects ar prospect of advanced rents being permanent. BUILDING AND BUILDING MATERIAL. Contractors and architects say that delays are dangerous for parties who contemplate building the coming summer, as they are more than likely to be costly. Many kinds of building material have already advanced very materially over what they were a year ago. On an average it would be safe to say that values are at least 10 per cent higher than one year ago, and still tending upward. In some lines, building papers for instance, it is considerably more than that. Common brick are away up and likely to remain there or even go higher. Lumber on an average has advanced \$1.50 per thousand. Glass is worth 40 per cent more than it was six months ago. Paint has also climbed, Last season oil could be bought for at least 15 cents a gailon under the present price. Nails, too, are showing that sprightliness which is wont to mark the action of an article when a trust gets under it.

It will be strange if the labor market does not feel the effects of the changed conditions, and that item will have to be figured up somewhat. In fact, it would seem that there is hardly a possibility of a lowering of prices at any point and almost a certainty of further advances all along the line.

BUSINESS BRIEFS.

BUSINESS BRIEFS. BUSINESS BRIEFS.

The Carpenter Paper company is gradually moving surplus stock into the adjoining building, which was leased recently as an addition to the company's jobbing house at the corner of Howard and Twelfth streets. The additional space will give them a total of 88x132 feet, five floors and basement. There are probably few people who are aware of the fact that Omaha is the ingrest paper market west of Chicago and St. Louis, and that there is no other western city that has such a large house engaged in that particular department of trade. Newspapers published at such distant points as Los Angeles, Portland and Beattle come to Omaha to buy fneir print paper.

Beattle come to Omana to buy their print paper.

P. P. Kirkendall & Co. have rented the store building at the corner of Harney and Eleventh streets, formerly occupied by the Kilpatrick-Koch Dry Goods company, and will move their stock of boots and shoes into it from across the street, the change being made necessary by the growth of the business, which demands more space.

with the trade situation and no complaints are heard from them any more than from the jobbers.

WHAT JOBBERS ARE DOING.
Reports of local dealers, as well as advices from the larger distributing points, all seem to point to a good lumber business. Nebraska, and tributary time to the larger distributing the last three or four years have not been in a condition to build barns and sheds to store their grain, or house their live stock and farm machinery have more money it is only reasonable to expect that many of them will make at least some of the most needed improvements. It looks now as if prices on both dry and green lumber would start out at the beginning of the season with prices from all points where lumber is produced indicate a strong state of the country are said to be light and there would used the season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would used the season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would used the season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would used the season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would be season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would light the season. Advices from all points where lumber is produced indicate a strong state of the market. Stocks in all the markets of the country are said to be light and there would be season. Advices from all points where lumber is not always of the country are said to be light and there would be season. Advices from all poin ments. It looks now as if prices on both dry and green lumber would start out at the beginning of the season with prices comparatively high, with no prospect of any immediate drop and with but slight chance of any drop during the season. Address of the country are said to be light and there would seem to be no reason for anticipating any surplus that might become burdensome during the season.

Omaha as a wholesale paper market is making steady progress and that department is becoming of great importance in the season.

Omaha as a wholesale paper market is making steady progress and that department is becoming of great importance in the season.

Omaha is a question if there on allis city and it is a question if there in all so the pacific coast the whole country is scoured by the Omaha paper men. Business in this department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the past week. News, book, wrapping, and, in fact, almost all kinds of paper, his department has been very satisfactory during the large numbrs, and as a kind of the wholesale dry goods business during the week. The volume of trade remains about stationary and prices are steady. Country m

conditions prevailing at the present time shall continue.

The boot and shoe jobbers also make a favorable report. They say that while they are not swamped with orders, still they are coming fast enough to make it interesting. The fact that one jobber is going to move into larger quarters is an indication of the condition of business existing at the present time. The boot and shoe men as well as the dry goods men are more or less affected by the cool weather.

The jobbers of rubber goods are waiting for prices to be fixed. Their traveling men are holding themselves in readiness to start on the road at any time. The volume of business done thus far has been fairly satisfactory, but a decided improvement is hoped for as soon as the spring rains come.

RENTS RISING.

Rentals agents in the month just passed have lead a demand for all sorts of bouses, more active than at any time since the early spring of 1893. The largest demand in the last week has been for small houses of from four to five rooms ranging in price.

COMMERCIAL AND FINANCIAL

War News Becomes a Bull Factor in the Wheat Market

LEITER WITHDRAWS ALL HIS OFFERINGS

There is Also a Sharp Advance in Price at Liverpool and an Increase in the Demand from Great Britain.

CHICAGO, April 2.-War news, instead of weakening the wheat market, was today decisively a bull factor. The result was the advance of 14c a bushel, which marked the close. Apparently the belief that war is unavoidable was the cause of the withdrawals of all offerings of wheat by Leiter, a sharp advance at Liverpool, and a greatly increased demand from Great Britain. There was a general covering movement by shorts. Coarse grain and provisions were also strong. Corn closed 3,6 4c higher oats 14@14c bigher and provisions 714@1214c

Wheat opened almost at call price, July starting at 83%@83%c, against yesterday's closing price of 82%@83c, and selling up in a short time to 84%c. The demand from

week. CATTLE—Omaha did not have cattle

is apt to be the case on the last day of the week.

CATTLE—Omaha did not have cattle enough to make very much of a showing, less than fortf fresh loads being reported in the yards, but at the same time there were more here than at either Kansas City or Chicago. In other words it was a Saturday and the number of cattle on sale at all market points was extremely light.

The most of the cattle here were cornfed steers and there was quite a sprinkling of pretty decent cattle among the offerings, that is cattle good enough to bring \$4.90. The buyers had use for all the cattle here and the market was both stronger and very active, a condition rather unusual for the last day of the week. The pens were zoon cleared and the trade came to an end for the want of more cattle to sell, with some buying orders unfilled.

Cowg and heifers, as well as bulls, calves, etc., sold at fully steady prices and the few head in the yards met with ready takers.

As usual on a Saturday, the offerings of stockers and feeders were light and the amount of business doing in consequence very limited.

The cattle market of the past week was decidedly in favor of the selling interests. Practically on every day of the week there was a good export, and shipping demand for cornfed cattle, which helped to sustain values and gave the market an upward tendency. On some days the receipts were short of the demand and the market developed into a sort of scramble among the buyers to see which could get the most cattle. Under such conditions it was not surprising that values showed considerable improvement. For the week it would be safe to say that good heavy cattle are up all of 10c, which handy light cattle are 15620c higher; buyers would say 30c higher.

New / York Dry Goods Market.

NEW YORK, April 2.—Dry goods closed finsatisfactory in all lines. The week has been a
discouraging one for seilers. The war situation
has made trading impossible in most cases, and
sellers have practically ceared to seek business.
The situation in print cloths continued unsatisfactory. The sales of odd goods /during the
week has been very light. Other staple cottons
and printed goods present unbroken records of
dullness.

California Dried Fruits." NEW YORK, April 2.—CALIFORNIA DRIED FRUITS—Quiet but firm. Evaporated apples, common, 567% per lb.; prime wire tray. 84,0 wood dried, prime. 84c; choice, 84,684c; fancy, 5670c. Prunes, 24,67%. Apricots, Royal, 54,670; Moor Park, 84,600c. Peachus, unpecied, 569c; pecied, 11616. SHEEP-Of the sheep her today a large proportion were consigned direct to packers and were not for sale, so that the actual efferings were comparatively light. The market was strong and active, with the demand brisk and everything for sale changed hands in good season.

everything for sale changed hands in good season.

The sheep market was in very satisfactory condition all the past week, so far as the selling interests were concerned. The receipts were very large, taking the week as a whole, but at the same time there was a large demand which was equal to the consumption of everything received. Under the influence of the good buying demand values gradually tended upward and at the close of the week the market was considerably stronger. The best grades of lambs, such as have been coming from Fort Collins, sold 25c higher than last week, but the common kinds did not show much improvement. On the other hand, mutton sheep, yearlings, etc., could safely be quoted 10415c higher. Representative sales:

No.
224 Mexican lambs .
608 Mexican lambs .
167 western ewes ...
23 western wethers .
58 western yearlings
360 western wethers

CHICAGO LIVE STOCK MARKET. Demand for Cattle is Nominal with

CHICAGO, April 2.—The market for cattle today, as is usual at the end of the week, was alford the most a nominal one. The small receipts were composed simost entirely of medium grade cattle, which were disposed of at prices unchanged from year the small receipts were the small receipts were the small receipts were to the small receipts were to the small receipts were to the small receipts and prices.
