### RELLY OUTLINES HIS PLAN

Tells What is Expected of the Exposition

ONLY WORKERS TO BE CARRIED ON ROLLS

Those Who Do Not Intend to Stay with the Organization Will Be Barred from Puture Rehenrania.

There is a surprise in store for some of the parties who have signed the contract to sing in the Exposition chorus and who have not carried out their part of the agreement. It has come to the knowledge of Choral Director Kelly that there are several persons who have signed this contract and who have indicated that they intend to attend rehearsals and get all the instruction and amusement possible out of the proceedings. with the intention of dropping out when the time comes for the public appearance of the

Mr. Kelly says he knows of several persons who have an intention of doing this and he characterizes their actions as dishoncet in the extreme. A number of members of the chorus have been excused from rehearsals on account of illness and on account of reading clubs, musical clubs, etc. and these are not included in the category of those who are charged with taking an unfair advantage of the situation, as they have notified the conductor of their intended ab

It is announced with authority that if it is necessary to reduce the number of the chorus to 100 voices this will be done, in order to weed out this element.

WORK PROGRESSING RAPIDLY. Director Kelly urges all members of the chorus who can possibly do so to call at his studio Monday or Tuesday and present their receipt for any money paid to Secretary Wakefield on account of the chorus and receive in return a pass to all rehearsals. At the rehearsal Tuesday night a full list of all members will be made and all who are not present will be dropped from the roll unless they shall have notified the conductor of their absence and given a sufficient reason

The work of the chorus is progressing so rapidly that Mr. Kelly says he will not keep the whole chorus back any longer on account of delinquent members. The "Daughter o Jairus" has been laid aside, so far as the chorus is concerned and will be taken up only occasionally for a little polish, but Mr Kelly says it is now thoroughly learned. The "Rose Maiden" will be next taken up. There is a great demand for copies of this work and if enough copies are at hand Tuesday night this will be put in rehearsal. Members of other choruses having well preserved copies of this work can dispose of them to

members of the Exposition chorus.

Tuesday night the chorus will be divided in two parts and every member will be deficitely assigned to one or the other of the semi-choruses. In several of the works which will be sung by the organization there are two choruses, as in the Easter hymn from "Cavalleria Rusticana," the "Daughter of Jairus," etc. In several cases choruses of women's voices are required and these will be selected at the meeting Tuesday night. It is highly probable that Muscial Director Kimball and Choral Director Kelly will each take one of these choruses and both will be in rehearsal at the same time.

No visitors will be admitted to rehearsals and after Tuesday night admission will be strictly by card, the latter being given upon presentation of a receipt from Secretary Wakefield showing a whole or partial pay-ment of the \$5 assessed upon each member of the chorus.

OUTSIDE SINGERS COMING. Musical Director Kimball appeared before Among other things, full authority was given to the musical director to close all arrangements with the Apollo club of Chicago, sev the closing of the contract having been ar ranged to the satisfaction of the executive committee and the Apollo club. Mr. Kimball was considerably elated over his success i securing this organization, as it is regarded as one of the best musical organizations in

During a recent visit to St. Louis Mr. Kim ball met the management of the St. Louis Apollo club and negotiations were opened looking to the appearance of this organiza-tion at the exposition. The St. Louis club composed of about eighty men, all singer of a high order, and it ranks very high among the musical organizations of the coun try. Mr. Kimball says the management of the club expressed a desire to have the or-ganization visit Omaha and the exposition and it is expected that acrongements for their doing so will be concluded in the near

An exposition chorus book is being pre-pared by the Musical department. It will be issued at once and will probably be placed in the hands of the members of the chorus within the next ten days. The book wil twenty choruses covering a wide range of selection.

The importance of taking a good Spring Medicine is well known-in fact, its necessity is universally admitted. To argue this point is useless-takes up your time and wastes our space. The real question is, what to take? Of course, you want the best. For your blood you want a medicine which cures blood diseases. For your appetite, stomach-weakness, and dyspeptic symptoms you want a medicine containing appetite-giving, stomach-toning, dyspepsiacuring qualities. For that tired feeling, dull headache, miserable, all run down condition, you want a true tonicnot a stimulant, opiate or nerve compound.

'I have taken Hood's Saysaparilla and Hood's Pills and consider them superior to all others. I first took Hood's Sarsaparilla for indigestion and weakness and a run down system, and it did me a great deal of good. Governor Urges Citizens of the State to Make an Exhibit. Special Commissioner R. W. Richardson eturned yesterday from a trip to Indiana and Ohio in the interest of the exposition. He reports that a great deal of interest is being manifested in both states regarding the matter of state participation in the exposition. In Indiana, especially, a great in-terest has been aroused and Governor Mount has given notice of his intention of appointing a state commission of about fifteen or twenty members. Before Mr. Richardson left Indianapolis Governor Mount gave him the following document:

"EXECUTIVE DEPARTMENT, INDIAN-APOLIS, Ind., March 30, 1898.—Hon. R. W. School Boy Wants Stamps. A request for exposition postage stamps

has been received by Secretary Wakefield from a school boy in England. The letter is dated "The Park, Harrow-on-Hill," a school town not far from London. The letter is as follows: "I am an American boy staying in Eng-

land. Could you send me some of the exposition postage stamps, used or unused? I of the boys here are trying to get them. They had hardly heard of Omaha until the stamps came out."

The letter was written in a straggling, school-boy hand and was signed "L. W. Bates, ir." Carefully pasted on the sheet below the letter was a 10-cent stamp and eight 2-cent stamps, all United States nps, presumably in payment for the exposition stamps.

Secretary Wakefield notified the youthful collector that the exposition stamps are not yet issued, but promised to keep his letter at hand and forward a set of the stamps as soon as they are issued.

Pennsylvania Club's Meeting. The Pennsylvania club met at exposition headquarters at noon and discussed plans for carrying out the purpose of the organization which is to arrange for the entertainment of visiting Pennsylvanians. After some dis-cussion it was decided to appoint a com-mittee of five to see if the old Liberty bell now in independence hall in Philadelphia, cannot be brought to Omaha and placed on exhibition. ## IOWA COMMISSION AT WORK

Getting Ready to Expend Money Gi v er f Exposition Purposes.

BUSY PLANNING ITS STATE BUILDING

Secretary Chase Writes Briefly to the Department of Exhibits Concerning the Plans for Hawk-

eye Participation.

The first communication received by the exposition management from the Iowa Exposition commission since the passage of the bill appropriating \$25,000 for a state exhibit was received yesterday by the Exhibits department. This communication was a letter from Secretary Chase, dated at Cedar Rapids, Ia., and was very brief. It stated that the Iowa commission still has about will immediately appoint a commission to represent Indiana at your approaching exposition. The people of this commonwealth wish for you abundant success. Very truly, "JAMES A. MOUNT, Governor."

Up to this time Iowa has applied for very

space. No formal application of any aind has been made for any space, nor has any written request for space been made. When a delegation of the commissioners visited Omaha about a year ago they made a verbal request that 1,200 square feet of space in the Agriculture building, 1,200 feet in the Horticulture building and one of the most desirable spaces for state building on the bluff tract be held n reserve for Iowa. This space has been neld in accordance with this unofficial request on the part of individual members of he commission, notwithstanding the clamore f numerous state delegations, which were ready and anxious to take the space and pay the full price for it. The space reserved in the Agriculture and Horticulture buildings by Iowa is very small, compared with the space which will be occupied by other and ess important states, but the demand which has been made for space in these and all of the other main buildings will preclude any additional space being granted, unless it be in the galleries of the buildings in the main

Frank W. Gunsaulus, president of

the Armour institute of Chicago, has applied to the Woman's Board of Managers for space in the Educational building for an extensive exhibit to be made by the institute. The first consignment of a picture for the art exhibit has been received at exposition headquarters. It is a small box, presumably containing a picture, and was shipped by Art Director Griffiths from Bradshaw, Neb.

Leniency toward the newer offender is one of the most important of these. It would be a travesty on justice for instance, to fine a woman who has just entered upon a disorderly life in a sum equal to that which an old offender was entitled to. In this court all cases must go through the regular form and they will be disposeof in the customary manner. There will be no standing cases against any person where the accused will be allowed to step up to the clerk's desk once a month and pay a fine for the sake of protection from the police and this court in the pursuit of crime."

Chief of Police Gallagher was asked for an opinion on the stand that Police Judge Gor don has taken. He said that while there was a state law governing disorderly places and the keepers and inmates thereof, there is also a city ordinance under which, in the wisdom of the Board of Fire and Police Commissioners, the city council and the mayor such places, keeper and inmates should be regulated. Nobody is asking Judge Gordon to violate his oath of office, but only to vie with the other city officials in bringing about a regulation that is for the best interests of the law and order of Omaha. All that the police department can do is to obey the order of the board and bring the keepers and in-mates into court, and then if Judge Gordon will not countenance the fine system the pur pose of the movement is defeated.

NEBRASKA AS A FRUIT STATE.

Trees in the Irrigated Districts Are Prolific Bearers. W. H. Love of Tekamah has great faith in the future of fruit raising in Nebraska. Mr. Love is an expert fruit man and has been in the business eleven years in No-braska. He says that there are fifty times as many fruit trees planted in the state as there were when he first came here, and many varieties which no one dreamed of trying at that time are found to be thrifty Mr. Love thinks the irrigated parts of the state are destined to become the greatest fruit producers. Along the Platte and Loup rivers peaches, plums, pears, apples and in fact all hardy fruits are raised with great success and are found to be superior to fruits raised in the far western irrigated country. One trouble with the fruit trees throughou the entire United States has been that the freeze up dry in the fall and dry freezing shortens the life of a tree more than any other one influence. Frost in the spring has always been found to be harder on the buds when the season was dry and the trees were suffering for lack of moisture. Where irrigation is employed the trees can be watered at these times and the crop can be made

ractically certain. In Nebraska little effort has been made to bring fruit raising to the scientific basis it has been reduced to in California and other fruit countries, but when irrigation comes into general use on fruit farms it will be necessary to pluck off part of the buds and give strict attention to the care of developing fruit. Irrigated trees produce so many buds that they would be broken all to pieces by the growing fruit and the fruit would not be choice unless carefully watched. Mr. Love thinks it is only a question of years till little fruit will be shipped to Nebraska by other states.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "DeWitt's Little Early Risers." and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles.

Some of the business men walked up to the treasurer's office and settled without making any protest, but the great majority never paid. This ordinance ill for some time, was reported considerably was passed in 1892, but the records show that no attempt was ever made to enforce it, the Police Judge Gordon has declared his atti-ude in the matter of levying stated fines and month upon the keepers and inmates of disorderly houses. He says that under no consideration will be enter into an arrangement with the Board of Figure and an arrangement with the Board of Figure and an effort will be made to have the taxes paid

As no record was made of any one filing a written protest against the payment of the tax, it appears doubtful if the amounts paid can be recovered, still the attempt will be made shortly after election. Two years ago an attempt was made to pass a similar ordinance in order to recoup the treasury, but when the ordinance came up for final passage it was

ng at Koutsky's hall in the Second ward last night. Speeches wee made by nearly ill of the candidates. Herman Seveke was arrested yesterday for

assaulting H. Lews, a saloon porter. Seveke was released on his own recognizance to appear for trial later. The stamp sales at the postoffice during March amounted to \$4,270.31. This is the largest emount of stamps sold during any one month since the establishment of the

Nearly every week or month brings be record breaker in the matter of the local sheep trade. March broke all records for receipts and the week which closed yesterday shattered the previous record for six days' receipts. Last week's receipts num-bered 36,660 head, while 168,171 head have

seen received since January 1. Miss Gertrude V. Smith, Thirteenth and f streets, entertained a number M streets, entertained a number of her friends from Papillion, Gilmore and this city at her home Friday evening. Among those present were: Misses Nellie and Susie Mc-Carty, Lorena Johnson, Edna McCarty, James and Gates Lilly, Clarence and Walter McCarty, J. E. Lush, Frank and Leslie Mor-

rison, Clarence Simpson and Eldon J. Smith. The building which has occupied the ground purchased by the government for a postoffice building was removed yesterday afternoon and it is expected that the work of grading will commence Monday. Custodian McMillan notified Superintendent Faram yesterday afternoon that the building had been hauled away and the notice was forwarded to the contractors with the request that they be prepared to commence perations at once.

The managers of the republican campaign kept a close watch at the registration pre-cincts yesterday to prevent any imported subjects from registering. It was reported on the streets that enemies of the republican party were making an attempt to colonize and this rumor induced friends of Barrett to keep an especially watchful eye on all newcomers who registered. As far as known no arrests were made, but the republicans are prepared to put a stop to any attempts at illegal voting.

lake. A fund has been subscribed and it is proposed to arrest and prosecute every person found seining or otherwise violating the fish laws of the state. An attorney has been employed and a man has been hired to patrol the banks of the lake, both night and day. The money for carrying on the work is furnished by the sportsmen of Omaha East Omaka and Canael Fuffe. ery at Sloane & Co.'s, 25th and N streets. of Omaha, East Omaha and Council Bluffs.

eport recommending a board of directors MRS. COLLINS UNDER DETENTION. Husband Charges that She is Insane

and Secures Her Restraint. Michael Collins, president of the Frontier steam laundry, filed complaint against his wife last night, charging her with insanity. He says that Mrs. Collins has been acting wildly for several days and that he hus found it necessary to watch her at night. She left the house yesterday afternoon pro-vided with a hatchet, with which she promised to force her way in if she found the door locked on her return. Although the door was not locked when she came back, she assumed that such was the case and demolished it with the hatchet. Mr. Collins says that she with the hatchet members of the family with

also threatened members of the family with similar treatment and that he thereupon telephoned for an officer. At the station Mrs. Collins appeared quite rational and denied having any violent intentions. The farmer, the mechanic and the bicycle rider are liable to unexpected cuts and bruises. DeWitt's Witch Hazel Salve is the best thing to keep on hand. It heals quickly,

and is a well known cure for piles. PERSONAL PARAGRAPHS.
