### OUTGOING STEWARDS REPORT

Change of Administration Brings About an Official Accounting.

CITY AFFAIRS IN GOOD SHAPE AT PRESENT

ants Make a Showing of What Has Been Done and What is to Do.

The meeting of the city council last evening was full of interest to the large number of people who crowded themselves into all of the space set apart in the council chamber for the use of the citizens. It was the first time in six years that there has been a complete change of administration and there was expectant curlosity on the part of the public to see how the thing was done. After the convening of the old council and laundry that can please so many hundreds the brief work necessary to close its official of customers? Well—that's the "Eagle," 724 existence Mayor Carson delivered his approach existence Mayor Carson delivered his annual address. The message dealt with the past and present condition of the city and summarized the reports of the heads of departments. Considerably stress was laid upon the excellent showing that the net total debt of the city on April 1 was \$549,524.76, will be the attraction at the Donary will be the attraction at the Donary will be the attraction at the Donary will be constant at this rate of decrease that the constant of hearing Herr Theodor Hoch, the great cornetist who won fame in the musical world at the exposition at Berlin in 1896, where he played a cornet solo in a balloon wise legislation absolutely prohibits warrants being drawn in excess of the actual income during subsequent fiscal years. All supplies will be obtained at actual cost and the lesses we have suffered in the past by reason of discounts, will be avoided and the saving in interest will be great. The administration of all departments for the two fiscal years last past, has been provident, and all have heartly joined in the desire to reduce expenses to the minimum.

This spirit has not obtained to cripple the service in any department, but all are in efficient condition."

DEPARTMENTS IN GOOD CONDITION. The condition of the fire department, po-

efficient condition.

The condition of the fire department, police, health, sever and engineer's departicular and the condition of the fire department, police, health, sever and engineer's departicular and the condition of the fire department, police, health, sever and engineer's departicular and the condition of the gradient of of the gradi

Gid Stillwell of New Sharon kest week sold to Oskaloose buyers ten horses, for which he received \$1,050.

Jacob Braustine of Shenandoah has sold to James Poindexter 680 acres of land in Page issued for the purpose of refunding other bonds and stopping the ruinous rates of in-terest they were drawing. Many of the original bonds drew 10 per cent interest. These have all been refunded, but at a time when the interest charge was 7 per cent. The committee calls attention to the fact that within the last thirty years the city has paid in interest many times the cost of the original work for which the bonds were issued when the debt was created. If these bonds had been wisely drawn, they could have been refunded several years ago at says that if all creamery men did as well it would increase the value of their output over \$1,000,000 annually.

J. C. Webster's tow mill at Cresco was started with two machines in June last. over \$1,000,000 annually.

J. C. Webster's tow mill at Cresco was started with two machines in June last. Since then it has paid \$60 per week in wages, paid \$4,375 for farmers' flax straw, otherwise valueless, and shipped out as product seventy-seven cars of baled tow, besides having on band a like amount, which it expects to ship before the first of June, or within its business year.

At a sale of Aberdeen-Angus cattle near Wall Lake about 200 persons were present, many of them from distant points. Sixteen bulls were sold for an aggregate of \$2,305, bulls were sold for an aggregate of \$ october 1 of this year. By that time the sinking fund to provide for the payment will amount to about \$40,000, and the balance must be provided for by a temporary loan. The report shows that during the year \$13,000 of intersection paying bonds have been paid, and \$5,500 had been called, but not presented for payment. The total intersection paying and and second payment.

recover about \$25,000 of unpaid assessments.

The report shows that the water fund warrants outstanding amount to \$56,375, which have accumulated to pay the annual rental of hydrants for fire protection amounting to \$26,150 a year. To meet this a 5-mill levy only is permitted by faw, which has fallen short about \$3,600 a year.

The general fund of the city receives a good deal of attention in the report. The committee declares that this fund is worst abused of all the city funds, and that the 10-mill levy falls about \$25,000 short of realizing a sufficient sum to meet its expenses, and this deficiency has been provided for by issuing warrants, which now approximate \$132,241,29. The police fund is turned into this fund, and during the last year the receipts have been \$3,700 less than the expenses.

EXPOSITION PROPOSITIONS.

This year the Transmississippi Exposition, to be held in Omaha, will be the occasion for many persons to visit Council Bluffs.

We ought to prepare to receive them. The city should be attractive, healthy, clean and well kept, our streets should be kept clean and in repair, our parks should be so kept as to be a source of pride to our citizens and an object of admiration to our visitors. Let us urge our citizens to repair and beautify their property. To keep buildings and fences well painted and in repair, back yards well screaned, lawns well kept and flowers in cultivation will greatly ald to the beauty of the city. A little individual effort by our inhabitants in this direction will greatly add to the attractiveness of Council Bluffs.

Our people are proud of our system of water works. They are reasonably satisfactory for fire protection and the source of water works. They are reasonably satisfactory for fire protection and the source of supply is ample for domestic use, but at times unsatisfactory in quality. The cost of water service draws heavily from our city revenue, and we should at all times demand pure water for family use. and when reasonable complaints are made we should use the power of the city to correct the wrong and not breed disease by the use of unwholesome water.

The efficiency of the fire department the continue of the city to correct the wrong and not breed disease by the use of unwholesome water.

Cedar Rapids Republican: If there is a general call to arms, observed the million of confine the call in the state to the million of the state to the million of its dollars, in case of war, makes a fellow feel like jumping up in the air to crack his heels and shout "Bring on your Spaniards."

Keckuk Gate City: Good for our Iowa legislature! It appropriated \$500,000 to did in carrying on war with Spain if war shall come. That is an appropriation that will be endorsed by every man, woman and child in the state.

Waterloo Reporter: The appropriation of half million, to be EXPOSITION PROPOSITIONS.

comes. The Twenty-Seventh general assembly will probably go into history as one
of the best assemblies the state has held.

Cedar Rapids Republican: If there is a
general call to arms, Governor Shaw will
not confine the call in this state to the militta. Doubtless he reasons that it would
not be fair to those who are shouting for
war to begin, if he should refuse to give
them a chance to sign the muster roll.

the wrong and not breed disease by the use of unwholesome water.

The efficiency of the fire department should be kept up and we should do all in our power to raise his standard; every element of weakness should be removed and the strictest discipline should be observed. You should see that all of the apparatus to be used at fires are kept in the best condition i.e effective work.

The police department, which is one of the most important in the city, will recive my earnest attention. I will use my best judgment in the selection of competent, efficient and honest officers, and will make such changes from time to time as I shall deem advisable.

REVENUE.

been paid, and \$5.500 had been called, but not presented for payment. The total intersection paying, grading and sewer bonds outstanding made a net debt of \$219,294. The interest on these bonds amounts to \$13,300 armually, requiring a levy of 3 mills on the present valuation of city property. All of these bonds are optional and draw 6 per cent interest, except \$40,000 paying bonds, which draw only 4½ per cent. The committee recommendo that all of these 6 per cent bends be refunded whenever practicable. The report makes a much more Favorable showing than was anticipated, concerning the special assessment bends, showing that there is only outstanding a total of \$68,100 divided as follows: Paving, \$46,600; grading, \$17,300; sewer, \$4,200. This includes all of the unpaid as examents for previous paying and grading and all the recent street improvements. Under the system of issuing certificates instead of bonds this will seen begun suits to ferselows upon property to and other Iowa men will enlist as in any other state in proportion to population. In refusing to become "rattled" over the Spanish-Cuban war complications the Iowa legislature has conferred additional honor upon

The Contract of the Contract o

matter I commend to your early consideration.

I have not had access to the reports of the various city offices which have been recently filed. That you may gain a more accurate knowledge of our financial condition I refer to the last report of the finance committee and treasurer. I desire here to refer to an attempt which is being made in the courts to impair or ruin the credits of the city by a repudiation of a large part of the outstanding indebtedness, issued in the name of the city. This attempt is contrary to the desire of the taxpayers of the city and should be resisted in every way possible, to the end that the good name and credit of the city may be preserved.

The bond of the new mayor for \$3,000, filed SIOUX CITY, April 4 .- (Special.)-Now that the courts have appointed a Board of Trustees for the Sloux City waterworks the yet remains to be settled. It is a settled fact that the trustees take absolute charge of the affairs of the waterworks system The bond of the new mayor for \$3,000, filed and that the city council has nothing more by a surety company, was presented and approved. The bonds of the other officers were also presented and approved, with the exception of the \$100,000 bond submitted by Treasurer Reed, with two surety companies, each to do with it. But the courts say that they cannot also do the actual work of superintendent, secretary, etc., but must engage competent persons to do this part of the having one half. It was referred to a special committee for the purpose of examination. work entirely separate from the duties of the board of trustees. This was a sad blow to the trustece, as at least one had hoped that he would be placed in a position where up and the arrangements providing for a compromise were carried out. N. C. Philips was re-elected by the votes of all of the members for a term of two years. Mr. Philips was at once called upon to appoint his deputy, and named J. R. Dietrich, and the appointment was approved. The election of the chief of the fire department talls. he could put in all of his time and be paid accordingly. The courts decided in the question of the appointments in Sioux City that should any of the members of the board of trustees assume to perform any of the actual labor and be paid for it that it would be sufficient grounds for removal from office. All four judges of the Fourth the chief of the fire department followed. J. W. Bates, foreman of No. 1, received all judicial district have examined the Lothrop law, and this is the conclusion they have of the votes with the exception of that of Alderman Johnson, who voted for Charles reached in the questions involved.

Mayor-elect Quick of Sioux City has been Watts, A. E. Avery was elected street su-pervisor. Bartel Nelson was named as the custodian of the city building. James Kelcalled to Marshalltown to attend the funeral of his brother-in-law, Albert Dillon, who was killed on the Iowa Central on Saturday.

He will qualify on Tuesday night. THE CURSE OF INSOMNIA.

the police force, naming F. A. Bixby os chief and D. L. Weir, J. R. Taylor, S. Albro, An-Russian Woman Who Had Studied the drew Swanson, D. Denney, L. A. Bergman and Frank Fowler as patrolmen. The lat-Subject Writes a Book About It. A mine of information concerning various ter's name was greeted with hisses. Chief Bixby is authorized to retain such of the treatments prescribed for victims of inpresent force as he may desire. The new somnia is contained in a new scientific work by Marie de Menaceine, a Russian woman who has consulted hundreds of the highest authorities on the subject and who has made many original experiments. Her work has just been translated into English. The first copy to reach Washington, writes a cor-respondent of the Globe-Democrat, was rerespondent of the Globe-Democrat, was re-ceived at the library of the surgeon general Police and Health-Christianson, Johnson

of the army two days ago.
Cold-water bags applied to the forehead and hot ones to the back of the neck are recommended to produce sleep, since by their means the blood is driven from the brain. Hot baths increase the size of the blood vessels of the skin and produce the same effect. Another method of freeing the brain and causing sleep—one which will be found acceptable to every one—is the cating of a light supper just before retiring. The blood in this case is sent from the brain to the stomach, where it is needed in digestion. Experiments prove that monotony is an effective source of fatigue to the brain, which organ appears to automatically drain off its blood when fatigued to a normal degree. Almost every one has tried the experiment of counting himself to sleep. Men have been readily put to sleep by being made to hear water drop constantly. A watch tick-ing under the pillow will produce the same result, until one becomes so accustomed to According to the Russian authority, old-time nobles of her country were put by their servants, commanded to scratch their heels until lapse of consciousness oc-curred. The lullaby of the American mother produces eleep because of its monotony. A Papago Indian recently told the writer that the native doctors among his people sit at the bedsides of the sick and sing monotonous chants, repeated over and over, throughout the whole night. No additional treatment, eyond conjusting, is applied. Many patient are doubtless cured, the only virtue of the treatment being the relief of pain and the nourishment of the system by sleep pro-duced by monotony. Repeated rocking produces eleep, as does repeated brushing of the hair. Corean mothers put their infants to sleep by scratching them monotonously upon their abdomens. Spanish mothers accom-plish the same result by continuously stroking the spines of their infants. In the last two cases sleep is produced not only by monotony, but by the attraction of the blood to the body by the stimulus of touch.

The manipulations of the hypnotist tend to fatigue the mind through monotony. The writer has seen subjects hypnotized while counting their breaths. Hypnotic sleep, however, like sleep produced by narcotics, or anaesthetics, injures rather than refreshes the mind as a rule. Sufferers from insomnia should never court sleep in a lighted room. Experiments show that light falling upon the evides causes a rush of blood to the The manipulations of the hypnotist tend the eyelids causes a rush of blood to the brain. The head should not be kept too low,

lest gravity produce the same result.

Insomnia is found to be characteristic of persons who blush, laugh, or weep readily, and whose pulse is apt to quicken upon the slightest provocation. Loss of sleep most frequently results from overwork of either mind or body. Overstrain of either kind dilates the blood vessels of the brain and eventually paralyzes them. Extreme cold produces the same result. Experiments also buy cattle, and might go on to Chicago. He left Wall Lake for Chicago the same day and show that exercise of the emotions causes rush of blood to the brain and sleepless-

ness, if occurring near bedtime.

There is an interesting theory that we require sleep in proportion to the scarcity of red corpuscies in our blood. All people, therefore, do not correspond in their need of sleep. Many authorities agree that the degree to which sleep is needed depends upon the strength of consciousness. Children, sav-ages and idiots readily fall asleep because their consciousness is ill-developed, and therefore readily fatigued. Persons of strong will power and marked individuality require relatively little sleep. It is difficult to over-fatigue their consciousness.

Young infants are found to demand sleep the majority of the hours of the day, those Keokuk Gate City: Good for our Iowa legislature! It appropriated \$500,000 to aid in carrying on war with Spain if war shall come. That is an appropriation that will be endorsed by every man, woman and child in the state.

Waterloo Reporter: The appropriation plete growth from eight to six, and in middle age, even less, until feebleness begins when the sleeping hours should gradually increase. With increased intellectual growth however, insomnia naturally increases even during old age.

Too much sleep is thought to be harmful by some authorities. Since consciousness requires waking hours for development, too much sleep will rob it of its education. Dur-
