FROM THE FARTHER **NEWS**

PRESCOTT, Ariz., April 6 .- (Special.)-"I think it unnecessary for any one in Arizona and New Mexico to remark that the agent of prosperity arrived in this region some months ago," said ex-Senator John E. Baxter a few days ago. "The agent's work is all about us. The sheep and wool business has never been better, all things considered, in the territories than in the lest six months, and the cattle business has not been so prosperous since 1888-perhaps 1886. The increase in valuations in the sheep and cattle industries of Arizona and New Mexico in the last ten months is at least \$20,000,000. It is simply wonderful the way the values of sheep and wool have gone up, and it is astonishing ily climbing up in value without a setback every week for nearly a year."

From the Colorado river, on the west of Arizona, to the Raton mountains, on the norticeast of New Mexico, the change in the condition of affairs and the appearance of \$500 which belongs to the state and should condition of affairs and the appearance of things compared with them a year ago is strikingly apparent. All the towns in the territories are as bustling and lively as they had been sleepy and eccely for five years previous to 1897. There is more building going on, commercial businesses are being more enlarged and capital is coming into the territories. There is more building going on, commercial businesses are being more enlarged and capital is coming into the territories. enlarged and capital is coming into the territories for investment more this winter than
in any season in a long time. The Atchison.
Topeka & Santa Fe railfoad, which runs
straight through Arizons and New Mexico,
thas been doing a big business for months,
and for weeks during leaf fall it had a dearth
of cattle cars. The cowboys are coming back
from the costern cities and are going out
on the ranges again. The community in the
familiar faky story that awoke from its
drowsiness when the fairy waved its wand
has its actual counterpart in the rousing of
the territories during the last half year.

ADVANCE IN VALUES.

Tanks were received on July 29, August 2,
October 28, December 28, in 1877, and January 29 and March 24 of this year. One of
these was inspected in July or August by a
sample furnished by the agent and on notification of the receipt of other tanks the
inspector asked that samples be mailed him.
He was requested to furnish mailing tubes
for this purpose, but neglected. From remarks
of those who know something of the progress
of the investigation a similar policy has been
followed at other points. Whether the report will show more than carelessness or
not is yet to be learned, but it is certain ADVANCE IN VALUES.

It is doubtful if any industry has re-spended so quickly and marvelously to the Dingley tariff legislation of last summer as wool-growing. The value of the total wool product of New Mexico alone advanced from \$1,834,000 in 1896 to \$7,650,000 in 1897. figures of the wool industry are not attaina-ble for Arizona, but it is estimated that the wool clip of 1896 in Arizona sold for about \$1,730,000, while that of 1897 recently sold for about \$6,400,000. There is a boom in sheep and sheep ranges all over the southwest. Go where one will in the territories these days and he will hear men talking about the extraordinary change that has come over the sheep and wool industries. From the fall of 1892 to June, 1897, over two-thirds of the people engaged in wool growing in Arizona and New Mexico failed. In the year 1894 judgments to the the year 1894 judgments to the amount over \$600,000 were docketed in Santa Fe, of over \$600,000 were docketed in Sana re,

M. M., against wool growers who had once
been rich. In Navajo county, A. T., two
sheep ranch companies and seven individuals
went into insolvency in 1893. A few years
previous they had been very wealthy and
employed scores of laborers. The flocks in
New Mexico decreased over 60 per cent between the years 1892 and 1897; ranges that east small fortunes were abandoned and tens of thousands of sheep were transported to market by the Santa Fe railroad for mutton. The Holbrook Wool company, that once had

market by the Santa Fe railroad for mutton. The Holbrook Wool company, that once had over \$400,000 invested in sheep and range, went out of business in 1896, after losing over \$200,000 in four years. Wool sold between 1892 and 1897 for prices varying from 3 to 5 cents a pound. Some sheep herders did not clip their fleecy crops for a year or two because the proceeds from wool did not justify the expense. So the flocks with their weight of wool were loaded on cars and sent to the eastern butchers. Since last July the price for wool in the very same localities has fluctuated from 10 to 12½ cents a pound. The average throughout the southwest has been 11 cents a pound for wool.

The revival in the wool market has helped everyone out here. There are wool merchants at Las Vegas, Albuquerque, Holbrook, Flagstaff and Prescott who, convinced that wool would not always be on the free import list, horrowed money and kept buying and storing wool during the years that the industry was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united stated that settlers was floundering in distress. This seals are the united for the received from the commissioner at Washington, in which it is stated that settlers who have not a sufficient supply of timber lands for domestic uses may procure timber free of charge from unoccupied, unreserved, non-mineral lands within said state of affairs, have taken hold of their require farm work with renewed vigor, and will line a few works with renewed vigor, and will line a few years become wealthy.

GOOD BUSINESS AT LAND OFFICE.

ABERDEEN, S. D., April 6.—(Special.)—
Business at the United States land office during the month of Ma get \$1.75 and \$2 for the animals. PROSPECTS AHEAD.

In his last annual report to the president Governor Miguel A. Otero of New Mexico deals exhaustively with the wool industry in the territory. He shows how the year 1897 has been the most successful for wool growers throughout New Mexico for a dozen years. He cites scores of instances of sheep-herders who have been living along from herders who have been living along from hand to mouth for five years and have at last sold both sheep and wool at prices that have made them financially independent once more. He shows how, if the present price of wool may be maintained, the greater part of the 650,000,000 pounds of the product consumed in the United States every year will soon be grown in New Mexico and the adjacent Colorado and Arizona.

"Oh, we cattle men who have managed to keep affoat for the last seven years," said ex-Congressman J. W. Rayner the other day, "are all right now, but no one knows what awful losses there have been among cattle snen from Kansas to California in the years of financial depression. It is no exaggeration

of financial depression. It is no exaggeration to say that at least \$15,000,000 was dropped by cattlemen and cattle companies right there in Arizona between 1891 and 1897. Four English cattle companies, capitalized at \$500,000 cach, went to the wall in northern Arizona in one year. I saw in 1894 and 1895 Arizona in one year. I saw in 1894 and 1895 tary; W. H. Frost, treasurer. May 15 was bunches of the fluest steers that ever rol- fixed as the time of the spring round-up, Arizona in one year. I saw in 1894 and 1895 bunches of the fluest steers that ever rollicked over a range sell for \$7 a head. They would be snapped up at \$25 a head today. I could mention a long string of names of men who were cich in 1890 and had made their all in cattle. They went flat broke in cattle in 1896. But now we're on our feet again. Three years more like 1897 and we'll have cattle kings as of old." CATTLE BUSINESS.

characteristic scenes in cattle towns in the west a dozen years ago are being re-enacted. There has been a graveyard quiet in such towns as Williams, Holbrook, Ash considered. There has been a graveyard quiet in such towns as Williams, Holbrook, Ash Fork, Gallup and Prescott for several years. A score of the smaller towns have literally dried up in the era of hard times, and are now coming to life once more. In 1891 one two or three-year-old cattle varied in price from \$8 to \$17 a head. Failures of cattlemen were common, and a half dozen banks that loaned money to sheep and cattle herders and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid, went, down in the crash. Over \$40,000 access of cattlements and had been reckoned very solid.

SHEEP IN TWO TERRITORIES

Holbrook in May, 1896, at \$6,50 a head. Now similar cattle are sought by the agents of the Kansas City and Chicago stock yards at prices ranging from \$16 to \$24 a head. The Astec Cattle company, which was fortunately able to weather the financial storm until the sunshine of prosperity came, receasily sold in Kansas City a herd of 2,000 for \$41,500 that they could not sell for \$17,000 a year ago. Buyers for the stock yards and the gambling question [\$31,500 that they could not sell for \$17,000 a year ago. Buyers for the stock yards and the gambling question [\$31,500 that they could not sell for \$17,000 a year ago. Buyers for the stock yards in which was a title republicans and the gambling question [\$31,500 that they could not sell for \$17,000 a year ago. Buyers for the stock yards and a majority over\$\frac{1}{2} \text{lowSTONE HAS A RIVAL} and a majority over\$\frac{1}{2} \text{low and a majority over\$\frac{1}{2} \t tew months. The railroad companies have been at their wits' ends for months to pro-vide cars for hauling the cattle to market, and there have not been such gay, lively branding and round-up scenes on the ranges in this country for a decade as in the last season. In 1894, 1895 and 1896 no more than 30,000 head of cattle were shipped from Hol-brook station in any season. In 1897 the brook station in any season. In 1897 the shipments of cattle from Holbrook amounted to 73,600.

> DISCOVER SOME IRREGULARITIES. South Dakota Oll Inspector Neglects

His Duty. PIERRE, S. D., April 6.-(Special.)-While the report of the public examiner on the investigation of Oil Inspector Dowdell will not be filed for several days and just what it will say cannot certainly be learned until it is presented, it has leaked out here that there is a great deal to account for on the

not is yet to be learned, but it is certain that the inspector that placed himself in a position that he can thardly expect to inspect oil for the state for another year. INCREASE IN DAKOTA CREAMERIES. Present Promises to Be a Banner Year

for Them. CHAMBERLAIN, S. D., April 6,-(Special.) -Last year the increase in the number of South Dakota creameries was enormous, but the record this season promises to surpass it. A new creamery at Pukwana is expected to be in running order by the 15th inst. The contract has been let for another at Gann Valley, Buffalo county. The contract provides that the plant must be completed and in running order not later than June I. At Castalia, Charles Mix county, creamery buildings are now being built, and the ma-chinery will be placed in position as soon as possible. At several other points cream-eries are either in course of construction or contemplated, and altogether the outlook is

as pastor of the Congregational church, in-stead of removing to North Yakima, Wash.. as was his intention a few weeks ago.

Canton Incorporates as a City. CANTON. S. D., April 6 .- (Special.)-At the city election here a vote was taken

upon the proposition to organize the city

under the general law of the state for organ-

ization of cities. The proposition carried, and Canton is now deemed organized under the general law. This makes the election of city officers, held at the same time, invalid.

In two weeks another election will have to be held. The new charter law gives the

be held. The new charter law gives the mayor the appointment of city auditor, city

assessors, city attorney, city engineer and the police force. Under the old charter every

officer was elected, and the election was held each year. There was a hard fight for the offices, which the mayor will now fill by ap-pointment, and the fellows knocked out of office are doing tall hustling now for ap-

Missouri Stock Growers.

PIERRE, S. D., April 6,-(Special Tele

gram.)-At a meeting of the Missouri Stock

Growers' association, held at Fort Pierre

last evening, the officers elected for the en-

suing year are: J. O. Thomas, president; J. D. Hilger, vice president; John Hays, secre-

when seven wagons will start. The commit-tee to confer with the Black Hills associa-tion on round-up matters is James Phillips

and Noah S. Newbanks. There was a large attendance and all report the best of pros-

Order of United Workmen officially reports that this jurisdiction has won the \$2,000 prize offered by the supreme lodge for increase in membership during the last year. This is the first jurisdiction thus far able to report having made the necessary gain in the United States.

pects for this year.

Mary's lake also show good surface rock running well in copper, with a truce of gold Silver and lead have been found in the greatest quantities at the head of Cut Bank river, ten miles south of Upper St. Mary's contemplated, and altogether the outlook is decidedly encouraging for this important industry. Many farmers, who when creamerles were first talked of were skeptical as to the benefits and profits to be derived from them, have purchased additional cows, and are now able to make a living, if necessary; from the sale of milk alone. These lake, while a lower grade of the same ore, carrying large deposits of zinc, abounds in farmers, by reason of the encouragement re-ceived from this changed and gratifying state of affairs, have taken hold of their

timbered mountains.

The second choice of site is just east of McDermott Lake falls, on Swift Current river, and contains about 150 acres of rolling prairie.

He Wins Two Exhibition thames from prairie.

The third is at old McCarthyville, between the Great Northern railway line and Echo Veil falls, and contains in the neighborhood of 100 acres. This site will be the lumber center and capital has been raised to erect BEAUTIFUL SCENERY.

The scenery of the strip rivale that of Yellowstone National park. In the northern portion are located the Culver, Grinnell, Blackfeet, Split and Sun glaciers, all huge mountains of ice, that the year round, under the rays of the sun, reflect all the colors of the rainbow. Mountains towering toward the rainbow. Mountains towering toward the heavens end picturesque canyons 5,000 to 6,000 feet deep, to be found in the neighborhood of Glacier lake, all go to make up a sight not to be found at any other point in the

United States.
For a month hundreds have been gathered. with their supplies, at Dupuyer, Cut Bank and across the international boundary, await. ing the order to move. There are but four rasses—Summit, 5,200 feet; Cut Bank, 7,849; Gunsight and Ahern's, 5,000—all of which until late in August are choked with ice. Blackfoot station at present is the starting point for St Mary's region. The route is by wagon road to Norris, forty-seven miles, the last nine of which at all times are very had and wagons must be loaded light. By pack enimals alone the lakes can be reached from Blackfoot by a thirty-mile trail. From Shelby Junction to Blackfoot the Great Northern operates daily trains. From Cut Bank to Blackfoot there is a good wagon road, more or less sandy and fully. There is plenty of grass along the route and numerous small lakes furnish water. All wagon roads end at Upper St. Mary's lake country. From this date no white man not entitled by intermarriage to live on the strip will be

allowed to femain thereon, prior to its open-ing, and to this end Agent Fuller has been supplied with sufficient forces to execute the

Wyoming and the Exposition CHEYENNE, Wyo., April 6.-(Special Telegram.)-An important meeting was held here tonight to device plans by which Wyoming shall be represented by an exhibit of the state's resources at the Transmississippi Exposition at Omaha. Governor-Richards, State Engineer Mead, President Richards, State Engineer Mead, President Graves of the State university and a num-ber of business men were present. It was decided that the governor chould at once send a committee to each county in the state for the purpose of raising by subscrip-tion sufficient funds to form a nucleus of an exhibit and that individuals and corporations in the state be invited to exhibit the resources in which they are interested in the space reserved for the state. As coon as the amount deemed necessary is secured the governor will appoint a commissioner to take charge of the work of arranging and caring for Wyoming's exhibit at the

Actress After a Divorce. SALT LAKE, Utah., April 6 .- (Special.)-Jennie Hawley Woodrow, the understudy of Jessie Bartlett Davis in the Bostonians, has brought suit here against her husband for divorce. The latter, Colonel Howard Cromwell Woodrow, is at present engaged in mising in California. They were married here on February 15, 1893. In her bill Mrs. Woodrow says she was driven to the operatic stage through her husband's failure to maintain her. Only a divorce is asked, neither allimony nor the customary attorney's fees alimony nor the customary attorney's fees being prayed for. It is understood from friends that Colonel Woodrow will not oppose the petition.

Elections in Montana. HELENA, Mont., April 6 .- (Special.)-Frank J. Edwards, republican, was elected mayor of this city Monday after a hot fight, in which the democrats brought in mee

BOISE, Idaho, April 6 .- (Special.)-The checks for the long due payment of \$150,000 and interest for the Nez Perces Indians are anxiously expected by the officials at the Indian agency. The pay rolls for this install-ment were made up and forwarded from the agency on February 18, and the present delay is uncommonly long, even for the gov-ernment. This will be the sixth installment of the purchase money due the Nez Perces and it amounts to \$167,109.58. It was due August 15 of last year and has been over-taken by another payment of \$150,000 and interest that became due February 15 last. The present payment is a per capita of \$99.94 and shows that 1,672 Indians of all ages are now on the Nez Perces census roll. This is a startling decrease in the enumeration of the tribe, as the rolls for the first payment in 1895 contained 2,069 names. Excluding the 110 Joseph Indians who are now on the Colthe etrip and using its every endeavor to dead of winter, when only those possessed ville reservation, the actual number of allot-ments in force in 1895 was 1,387, while the prezent population of 1,672 shows a decrease of 215 in three years. The rolls are entitled to absolute verity, as all births are promptly reported in order to get the new arrival on the pay roll and all deaths are as diligently reported by neighbors who profit somewhat by the reduced enumeration. After the present expected payment is made there will still be six more installments to come, each of \$150,000 and interest on deferred amounts

> DEEPER TINGE OF BLUE REQUIRED. Increase Qualifications for Horses to

Be Registered. CHICAGO, April 6.—The American Trotting Register association met in anual session this afternoon and decided that in the future a deeper tinge of blue must characterize the blooded applicants for registry upon its books as standard trotting or pac upon its books as standard trotting or pacing stock. The qualifications of both antecedents and "get" were made more rigid than has heretofore been the case. Five seconds were clipped from the record, which must be reached by the "get" of both pacers and trotters, the former being placed at 2:25 and the latter at 2:30.

The treasurer's report showed the association to have passed a successful year financially. The registration of last year compared favorably with the years preceding.

miles, at its narrowest point nine miles and at the extreme south seventeen miles. The total length is sixty-six miles. Not one por-tion of this area but has been most thorcompared favorably with the years preceding.

The following officers were elected: President, W. R. Allen, Pittsfield, Mass.; vice president, Samuel Baker, Chicago; secretary, J. H. Steiner, Chicago; treasurer, F. S. Gorton, Chicago; directors for three years, F. S. Gorton, Chicago; M. H. Garcolon, Lewiston, Me.; C. J. Hamlin, Buffalo; W. I. Hayes, Clinton, In.; W. H. C. Hill, Dallas, Tex.; G. W. Hooker, Brattleboro, Vt.; W. P. Ijams, Terre Haute, Ind.; M. J. Jones, Red Oak, Ja.; H. D. McKinney, Janesville; H. C. McDowell, Lexington, Ky. oughly prospected by mining experts from all over the United States, and while a very few rich ores have been discovered, the great majority has been found to be low grade ary. Citadel mountain, the Dome and that section lying just southwest of Upper St.

BREAK UNPACED TANDEM RECORD

Denver Wheelmen Distinguish Themselves on a New Track.
DENVER, April 6-William F. Sage and E. S. Wanbrough, both of ver, today broke all unpaced tanden carrying large deposits of zinc, abounds in the mountains to the south and west. Traces of gold are to be found in nearly all the mountains in the northern portion of the strip, but the most valuable leads have been discovered on the St. Mary's river and streams heading in Chief mountain. Quartz rock predominates, with some small placer ground.

There have been but three townsites talked of. In fact, the strip contains locations for but this number, and the principal town will be at Upper St. Mary's lake. Fuel is plentiful, both coal and wood, and the attraction for sportsmen unexcelled. This site contains about 300 acres of fine prairie land, lying at the foot of the lake, and surrounded on three sides by high and heavily timbered mountains.

IVES PLAYING IN BETTER FORM.

St. LOUIS, April 6.-"Napoleon" Ive played two exhibition games of billiards with the "Wizard," Jake Schaeffer, at Grand billiard hall tonight and won both, in addition to making a record. Both the experts played up to form, much to the delight of the spectators, who had been disappointed with last night's work. The first game was one of cushion caroms, with 200 points. Ites ran out his 200 to Schaeffer's 149 and his average, 5 5-39, was declared by the referee to be a record breaker.

Schaeffer had all but won the three cushion game, having but one more to score, when Ives, who was eight counts behind, made two runs that carried him out. Score: Ives, 40; Schaeffer, 23; six innings.

Charles Neeland acted as referee and Charles Vandike as marker. played up to form, much to the delight of

Bright-faced, happy, rollicking, playful babies, thousands of them all over the broad land, have in their bodies the seeds of serious diseases, and while they laugh and play are facing death. The mother, in the majority of cases, is unconsciously re-sponsible for this sad state of affairs. Where the mother, during the anxious period, suf-fers from weakness and disease of the disfers from weakness and disease of the distinctly feminine organism, it is useless to expect a sound and healthy baby. Every woman may be strong in a womanly way, and have robust, happy children.

A wonderful medicine for women is Dr. Pierce's Favorite Prescription. It is the discovery of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It is a medicine that acts directly and only on those delicate and important organs that bear the burdens of maternity. It makes them strong, healthy and elastic. It allays inflammation, heals ulceration,

It allays inflammation, heals ulceration, stops debilitating drains and soothes pain. It gives rest and tone to the tired nerves. It fits for wifehood and motherhood. It does away with the discomforts of the expectant period and makes baby's coming casy and comparatively painless. Honest druggists will not offer an inferior substitute for the sake of a little extra profit.

"I suffered for years from displacement, debili-tating drains, inflammation and weak back," writes Mrs. Bessie McPherson, of 38 So. Main St., Providence, R. I. "I traveled with my husband, and first noticed my weaknesses coming on when the joit of the cars became unbearable. I stop-ped traveling but the trouble steadily grew worse. I suffered so that I became despondent and wish-ed for death. I took only a few bottles of Dr. Pierce's Pavorite Prescription and was perma-nently cured."

A Delight to the Eye

The Bee has arranged to supply it's readers with a set of PORTFOLIOS which answer many important questions they have been asking themselves and their friends for some time past. The Bee prints the news concerning CUBA, the HAWAHAN IS-LANDS and the AMERICAN NAVY, but where is the reader that would not like to know more? How did the MAINE look before she was blown up-how

after? How many other vessels have we like the Maine, or larger, and better? Where is Morro Castle (not Moro, as is often incorrectly written, and how big a chunk of its frowning masonry would be knocked out by every discharge of the Indiana's mighty

13-inch guns-each as long as a sawlog and hurling a projectile bigger than a beer keg from a distance of more than ten miles? Then, too, one would like to see some of the one would like to see some of the common sights of Havana, the city which will be the objective point of our Key West squadron in case of the work of the work of the work of the common sights of Havana, the city which will be the objective point of our Key West squadron in case of war with Spain. Moreover, there

is much talk of annexing the Hawaiian Islands, and it is a good idea to get acquainted with a thing before annexing it. Where are these islands and what are they good for? What has President Dole done to excite the ire of Hawaii's polysyllabic queen-Queen Lil for short? These and many other

questionscare answered, and striking pictures of the persons, places and

Ten Portfolios of Photographic Reproductions

presenting 160 views, accompanied by concise explanatory text. They furnish much valuable information about

HAWAII, CUBA,

THE AMERICAN NAVY

which will figure prominently in the protecting. Naturally every American wants to know what sort of ships Uncle Sam uses in arguing nautical ques-

tions, and The Bee's offer affords the means of knowing the strength of his logic in heated disputes.

THE FIRST THREE PARTS ARE NOW READY.

Send in your order early and thus guard against

missing a single number of these Graphic Descriptions of things all Americans are interested in now

and are anxious to learn about Grand Illustrations

These were prepared at great cost from originals he d at \$200, and the reproductions are superior to the original photographs, and yet they are offered to The Bee's readers at the low price of TENCENT's for each PORTED LIO. delivered to any address in the United States, Canada or Mexico. The size is 101x14 inches, and the number of views contained in each is sixteen, printed on fine enameled paper which admits of the most artistic finish and accurate delineation.

HOW TO GET THEM.

Fill out the annexed coupon Fill out the annexed coupon legibly stating how many you wish, and bring (or send) it to The Bee with 10 cents in coin for each PORTFOLIO wanted. It will be more convenient to send \$1.00 at the outset, as you can thereby avoid writing a letter and enclosing a dime for each of the successive issues. They will be zent out as fast as they come from the presses.

Get One for a Dime: 10 for a Dollar.

On sale at the Business Office of The Omaha Bee.

were abandoned in a few years, and the cow-boys were discharged by the wholesale when the herds had been sent to the eastern stock yards for any price they would bring. The gross fallures of cattlemen and companies in Arizona in 1894 and 1895 amounted to \$5.850,000.

Telephone Company Incorporates. CANTON, S. D., April 6.—(Special.)— \$5.850,000.

Today one-year-old steers bring in these territories from \$10 to \$14, two-year-olds has been organized here. The company will from \$16 to \$19 and three-year-olds from \$21 to \$24. The great Crescent company herd of 4,000 cattle was sold by the sheriff at of Moe, Alcester and Beresford.

Fish Hatchery in Washington. TACOMA, Wash., April 6.—(Special.)—J. W. Blackwell, who has had charge of the People apparently well and happy today, tomorrow are stricken down, and in ninety-nine cases out of every hundred the heart is the cause. The king of heart remedies—Dr. Agnew's Cure for the Heart is within the reach of all, and if there are symptoms of heart disorder is should be used without delay. It relieves in 30 minutes, and cures most chronic cases—35. Kuhn & Co., 15th and Douglas St. Sherman & McConell Drug Co., 1512 Dodge Sta.

TACOMA, Wash., April 6.—(Special.)—J. W. Blackwell, who has had charge of the state hatchery at Chinook river this season, has returned home for a brief visit and reports the work of the hatchery for the season is were hatched all told, and although the capacity of the batchery is 4,000,000 fish, the manner in which spawning fish are secured makes the season's output very large.

GREAT FALLS, Mont., April 6 .- (Special.)

-While no date has been definitely settled

it is semi-officially given out that the presi-

dent's proclamation, giving thirty days' no-

tice of the throwing open for location of the

ceded portion of the Blackfeet reservation,

known as the mineral strip, will be issued

shortly after April 1. The recent change

in the plan of having the strip thrown open

upon the receipt of the United States sur-

vey maps at the land office in Kalispell,

meets with general approval and does away

with the advantages possessed by a ring that

for two years past has been prospecting on

have the ceded portion thrown open in the

of a knowledge of the mineral leads would be able to locate and file.

It is just thirty years since the land of the Blackfeet and Plegans has been known to contain rich deposits of gold, silver, cop-per, lead and zinc. It was in 1867 when a

of yellow dust to old Fort Benton, where I

was traded for a gallon jug of whisky. A few years later army officers on duty in the

vicinity of the divide, on the western bound-ary of the reserve, made discovery of pay

rock, since which time more or less prospecting and mining have been carried on. Fo several years negotiations for its purchas-

by the government have been in course and mainly through the efforts of Dr. Sperry of

the Adirondack club and Colonel G. B. Grin-nell of Forest and Stream was the deal closed two years ago. Then followed the official survey, which, owing to the heavy

EXTENT OF THE STRIP.

The ceded strip comprises a little over

1,000 square miles of the most picturesque

country ever opened to settlement. It is the

wastern pertion of the reservation to the

main divide of the Rocky mountains. At the

international boundary line it is twenty miles wide, at the center of the strip twenty-three

pay rock in large quantities. Copper has been found in greatest quanti-

ties near the headwaters of the Watertop,

sixteen miles south of the Canadian bound-

Belly and Swift Current rivers from six

snowfalls, occupied two seasons.
