THE OMAHA DAILY BEE: THURSDAY, APRIL 7, 1898.

the Designers of the Great Temples.

The recent wet weather interfered some what with the rapid progress which was being made in the main court, but now that the moisture has somewhat disappeared, active work has been resumed in preparing the ground for the finishing touches. A large quantity of brick has been hauled to the large numbers. west end of the main court and the paving of the broad promenade which will surround the lagoon will be commenced as soon as of the branch of Scottish Rite Masons known the bed of rand is prepared.

The staff work on the west colonnades is as the Southern jurisdiction. The Arkansas almost completed and work will be commenced on the elaborate colonnades at the east end of the lagoon. The carpenters have about finished their work at the east and tant. and the casting of the staff for the colonnades and pavilions is well advanced.

Good headway is being made on the Art building, the last one in the main court to be finished. The interior is plastered, that part of the work having been completed first in order that it might be thoroughly dried before the picturet are placed in it. A large force of workmen are engaged in putting the exterior covering on the building, and this will be completed within a short

ion. Mrs. Bowser speaks with pride of the ten years of her early Nebraska life which was spent in a sod house and she says that Remarkable progress continues to be made on the Government building, and the great all the details of household economics of the early days will be faithfully portrayed. beauty of the ornamentation of this building is increasing with each addition to the staff decoration. The wings of the building are The sod from which the house will be con-structed will be brought from Rock county. practically finished and all work is being The building will be located on the bluff tract a short distance southeast of the Neconcentrated on the central portion of the building and the handsome dome. The dome is nearly finished and is already a landbraska building. mark from all parts of town.

The statuary for the Agriculture building to being put in position. The colossal figures of women and sturdy boys make a striking addition to this handsome building. On the bluff tract the Horticulture building is rapidly nearing completion. Staff Contractor Alexander has a large force of men at work and the elaborate decoration Staff of this handsome building is being rapidly put in position. The frieze which extends entirely around this building consists of a

succession of semi-nude figures of children bearing garlands of fruits and flowers. The artist who modelled these figures has achieved the most pleasing results. The wings of the building are about completed and the central mass is being rapidly de-veloped. The embellishment of this hand-

some building calls for a large number of groups of statuary and when these are in New Mexico's Minerals. place the Horticulture building will be one of the most elaborately decorated structures on the grounds. Architect Beindorff makes visits to the grounds to inspect the building and he is more than pleased with the manner in which the developmen of the structure is being carried out.

PAYING FOR SPACE PROMPTLY

Exhibitors Making Final Settlement with the Exposition.

The unrest in the business world incident to the war rumors has not had any appreciable effect upon the Department of Exhibits of the exposition. April 2 the department sent to all prospective exhibitors, whose applications for space had been accepted, a notice to the effect that the last 25 per cent of space money was due and payable at once, under the rules of the department. Returns from this notice began coming in almost immediately, and in the twenty-four hours ending at 5 p. m., of the 4th inst., there was received at exposition headquarters the sum of \$2.082.25 on account of this space charge. Since that time the money has been coming in at a correspondingly rapid rate, and facere has been no indication on the part of any

in the second story for the crew of the sta-tion. The posts for the side wall are in position and the roof is being put on. The building is a small cne, and but little time will be required for its construction. A mast will be erected about the center of the Mirror to represent the mast of a wrecked vessel, and this will be used to illustrate the practical operation of the life saving service. A track will be constructed from the door of the station through the colonnade to the edge of the Mirror, and the life boat will be launched from this point. Exhi-CASH FUND FOR PROMOTION Secretary Utt of the Commercial Club Evolves a Plan. INVESTMENT FOR EXPOSITION SURPLUS will be launched from this point. Exhi-bilicons will be given each afternoon, and these will form one of the most interesting features of the government exhibit. Proposes that Money Left at the Em of the Fair Be Used to Assist in Establishing New Bids on Arkansas Building ¥ Enterprises. Bids were received until noon today for the construction of the Arkansas building on the exposition grounds by Secretary W. A scheme to promote the introduction of D. Mathews of Little Rock. The lumber for manufacturing establishments in this city the building has been donated by several lumber firms of Arkansas.

after the exposition and in that way to continue the prosperity which has been started The sale of buttons containing a picture by the big show has been presented to the of the proposed Arkansas building is being executive committee of the Commercial pushed and they are being disposed of in club for approval. After some consideration One room in this building will be fitted up by the Free Masons of Arkansas as a it has been referred to a special committee for further investigation. This committee reception room in honor of the memory of the late General Albert Pike, the founder consists of Martin, McHugh, White, Baum

and Utt. The plan, as outlined in a report presented by Secretary Utt, provides for the employment in this direction of any moneys which may be in the hands of the exposition directors at the close of the exposition. The money will form a fund to be handled by

some board of governors similar to the exposition directory, to be elected by the stockholders. If advisable another company may be formed, the exposition subscribers holding stock in it pro rata, according to the amount of their subscriptions to the exposition. All of this stock shall be nonassessable. A subscriber will not be com-pelled to keep his money in the new company. He will be allowed to draw out his share of the profits if he desires. The plan has not been worked out in de-

all, but the outline has been given. It is proposed that the board of governors in charge of the money shall investigate man-ifacturing enterprises, with a view of inducng them to come to this city. None of the money will be given as a boous. It will be used in buying stock in such establish-ments, either as a matter of assistance or or the enlargement of the plant. No money vill be invested in any enterprise which has A telegram received at exposition headquarters yesterday afternoon from Topeka,

not been thoroughly investigated. The promoters of the plan look upon it as a good scheme of investment and as Kan., announced that five of the six memcertain to bring new manufacturing con-cerns to Omaha. The need of something of bers of the Kansas Exposition commission he kind is now being felt. For example here is at present a good businces proposition regarding a flouring mill offered. The mill is of considerable capacity, but addi-tional capital of \$60,000 is required to put on the desired basis. About half of this amount has been subscribed by Omaha moneyed men, but the remainder is still lacking. If there was some such company building and the spaces for the state exhibit as the proposed plan provides for the money would be available and the establishment eserved by Commissioners Greef and Lamb could be secured.

has been reported to the police. D. O. McPhail has returned from a thirty Sam'l Burns is offering for three days days' stay at Bethany Springs, Mo. 20 Libbeys' cut glass Easter vases, 10-inch. \$3.75; 12-inch, \$4.75; worth \$6.00 and \$7.00, prices for suits are from \$10 Simon S. Pingree of St. Louis, a brother of \$3.75; 12-inch. \$4.75; worth \$6. Governor Pingree of Michigan, is registered Offer only good for this week.

Today it's suits for the boys-the little lads 4 to 14. We want to say a word right here about prices. There are still a few deluded mothers who think a boy's suit is ever so much cheaper when it is advertised at some catchpenny figure like \$1.67 or \$2.98 or \$3.49. We don't use catchpenny methods here. All of our boys' suits are marked in straight figures and they are straight goods and whatever we tell you about them is straight. We sell a little Junior suit of good wearing flannel in navy blue color for one dollar and we know some places in Omaha where similar suits are marked \$1.39. We sell fancy little reefer suits at \$1,25, \$1.50 and \$2.00, for little boys under 8, and you will find suits that are nowhere near as good on alleged bargain counters marked \$1.47, \$1.73, \$2.49. Our lines of Novelty and Vestee and Reefer Suits at 2.25 to 3.50 are far Superior to any offered in Catchpenny establishments for almost double, and no in-telligent woman has ever claimed that she could find as grand a line of patterns in any kind of a store outside of here. We are after the trade of intelligent, thinking mothers who will compare and criticize, and we ask their attention this morning to the goods in our corner window. The prices are straight, the goods are straight, the values are straight and they will wear for straight because they are made first-rate.

will reach Omaha this morning on the Bur-lington train which arrives at 7 o'clock. They will be taken in charge by Dudley Smith, chairman of the Bureau of Public Comfort, who will officiate as host to the visitors in the absence of Major Clarkson. The Kansas commissioners come to view the progress which is being made on the exposiion and to inspect the location for a state

exhibitor to avoid compliance with his agreement.

The Exhibits department is beginning to forge ahead in the matter of bustle and ac-tivity. The approach of the time for the gates to open is making the work of the department more burdensome, and it has been found necessary to increase the office force in order to dispose of the work incident to the

closing up of the preliminary details. On the 15th of this month the marking of on the loth of this month the marking of the floors of the main buildings will be com-menced and it is expected at exhibits will commence arriving about that time. The great majority of exhibits will not arrive until about May 1, but many exhibitors pre fer to take a longer time for the arrangement of their display.

MISSOURI WORKS ON CASH PLAN.

Exposition Commissioners Take N Chances on Subscriptions. A meeting of the Missouri Exposition commission will be held in St. Louis Friday, April 8, to take final action to determine the exact extent of the display to be een formed recently. made by the state. At that meeting the treasurer will report the exact amount of hands and this money will be the guide in determining the extent of the exhibit. The commission has issued a notice that it will take no promises but must have the cash in hand. The money will be appor-tioned among the several departments of the commission, and no department will be allowed to exceed the amount at its command. In the meantime every commissioner is endeavoring to raise as much money in his district as possible in order to swell the fund at the command of the commission. The Missouri commission now numbers 120

mbers and every section of the state is well represented. The colored members of the commission

The colored members of the commission have been especially active in working among all the people of their race in the state. Each school teacher and each preacher in the state has been asked to contribute 25 cents to the cause and each pupil and each church member is asked to give 5 cents. With the fund thus created an ex-hibit is to be made of everything the col-ored neople have made that is worth show ored people have made that is worth show-
