tells an interesting story about them.

It appears there are twenty Indians living at that point. They have been there twelve or fourteen years. Two of them are Snake river Indians and the rest are supposed to be Nez Perces. Just why they located at that

BUSINESS

Conservatism on the Part of Bankers Does Not Injure Trade.

FAILURES CONTINUE TO BE SMALLER

Through Lack of Funds, and the Volume of General Business in Not Lensened.

NEW YORK, April 8 .- R. G. Dun & Co.'s weekly review of trade will say tomorrow: Weekly review of trade will say tomorrow:

When everybody is asking whether it is to be war or peace, the state of business is not easy to judge. Since nobody can judge just how wise tankers may be in an emergency, there is some uncertainty, but thus far scarcely any stoppage whatever of manufacturing concerns appears nor any indications that the producing force is likely to the diminished, nor is any such symptom to the seen in business reports.

ufacturing concerns appears nor any indications that the producing force is likely to the diminished, nor is any such symptom to the seen in business reports.

Evidence of existing conditions is not confusing nor unfavorable. So far banking conservatism has not caused failures, which continue smaller than for many years, as in March, nor has it caused stoppage of any manufacturing concerns, nor lessened the volume of business reported by railroads in tomage, or clearings at principal points.

The wheat outgo counts for much and continues. Attantic exports having been 2.241.217 bushels for the laveek, against 1.521, 1.122 bushels hast year, and Pacific 1.226.574 bushels, against 447.685 bushels last year. Since corn exports continue, 3.483.659 bushels, against 3.322.277 bushels last year, the strength of the demand is not to be attributed to speculative agencies.

It is for unate that twestern receipts of wheat do not fail short of the extraordinary gain, but are still 1.901.305 bushels, against 1.789.139 bushels last year, so that the stories of the nearly exhausted supplies of wheat, with corn 1 cent higher.

At the same time the exports of cotton are extraordinary, though just now deferred by the caution which causes larger shipments to New York instead of outside from any extraordinary, though just now deferred by the caution which causes larger shipments to New York instead of outside from gulf ports. For four weeks it has averaged nearly \$2,500,000 per week lower than in 1805, from the largest crop ever grown, in spite of the fall in price, twhich has not changed during the week, in spite of many reports from the largest crop ever grown, in spite of the fall in price, twhich has not changed during the week, in spite of many reports. For four weeks it has averaged nearly \$2,500,000 per week lower than in 1805, if the fall in price, twhich has not changed during the week, in spite of many reports to a decreased production.

In one branch of woolen manufactures two carpets milis have stopped or are about to s

mands greater than ever before from general sources, urgent orders from the government enlarge work, but do not advance

criment enlarge work, but do not advance prices.

Disasters in trade shown this week by separate branches of business for the month of March and also the first quarter of 1898, make the best report that has been cossible for five years. It is interesting to note that nearly all branches of business show surprising movement.

Meanwhile banks are extremely cautious and commercial loans are but 19 per cent of their aggregate. The belief that quick expansion in all branches would follow greater liberality and patriotism by the banks is not wholly unfounded and the heavy receipts of gold from Europe count for little compared with the greater of less liberality in loans by banks.

Disturbance does not yet appear, however, and failures for the week have been 232 in the United States, against 252 last year, and thirty-two in Canada, against thirty-six last year.

BRADSTREET'S REVIEW OF TRADE.

Cold Weather and War Prospects Interfere with Business. NEW YORK, April 8.-Bradstreet's to-

morrow will say:

A suitable demand for staple goods is perceptible in the various detailed trade reports coming to hand this week. At the east the drift of matters affecting our foreign, relations has been such as to discourage new business, but this tendency has been considerably accentuated by untimely cold weather, which has checked the usual Easter demand to a considerable extent.

timely cold weather, which has checked the usual Easter demand to a considerable extent.

Reports from the west are that the heavy rush of spring business is about over and that brders coming in now are of a fillinging in character. Here, again, reports of unseasonable weather are met with.

A fairly good business is reported at the south, but a slight check to our export trade is reported growing out of the raising of freight and insurance rates consequent on the disturbed foreign outlook. Frist is reported to have done considerable damage to the peach and other fruit crops of the south and to early planted tobacco.

A fairly satisfactory trade is reported at the northwest, Lake navigation is now open and anticipations are that a prosperous year's business will be done.

Rather less activity is noted in most of the country's great staples. Cotton goods have showed fairly well, ginghams especially being in excellent demand, and except for low grade cotton print cloths.

cent for low grade cotton print cloths, which have made a new price record of 2 cents per yard this week, the situation is as fayorable as could be expected.

Wool is dull, reflecting uncertainty as to future business and unsatisfactory margins of profit.

of profit.

The iron trade continues to report a large volume of business done, but it is becoming evident that this is chiefly on orders previously booked. Engagements for future work have diminished alike in number and quality, particularly in the east, pending the outcome of foreign complications.

A feature of trading at leading cities this week is the active business in bicycles in Chicago and New York, where sales are the largest on record. St. Louis reports boot and shoe shipments as heavier than ever before at this time.

Wheat shipments, including flour, this week are slightly larger than those of last week and considerably in excess of last year, aggregating 3,773,725 bushels for that period, against 3,4 0,664 bushels last week, 2,035,000 bushels in the week a year ago, 1,764,000 bushels in 1896 and 2,934,000 bushels in 1895.

Corn exports have fallen off sharply, aggregating 3,557,000 bushels, against 4,507,000 bushels against 4,507,000 bushels in the week a year ago, 1,331,000 bushels in 1895 and 814,000 bushels in 1895.

Business failures in the United States this week numbered 220, against 226 last week, 232 in the corresponding week of 1897, 230 in 1896 and 225 in 1895.

Business failures this week in the Dominion of Canada numbered thirty-eight, against thirty-eight last week, thirty-two in the corresponding week of 1897, thirty in 1896, twenty-six in 1895 and thirty-eight in 1894.

REVIEW OF THE STOCK MARKET. Speculation is Extremely Nervous and

Irregular. NEW YORK, April 8 .- Bradstreet's Financial Review tomorrow will say:

Speculation has been extremely nervous critical appearance of our relations with Spain. The situation in this respect keeps the public out of the market and specu-

PROSPERING

Istors have been cautious and quick to change their position. Liquidation has apparently been thorough and complete and stocks are apparently in strong hands, so the supply is apparently small.

On the other hand, successive covering movements on reports of settlement or compromise of the differences between Spain and the United States have reduced the short interest, which was quite large last week.

London has done little here, but our market situation is watched with close attention, as indeed it is by the local public, and the resistance of the bears from time to time creates the impression that the latent

the resistance of the bears from time to time creates the impression that the latent purchasing power is large and requires only the development of the general situation to assert itself with some force.

At the time prices during the latter part of the week suffered from the feeling of suspense caused by the withholding of the president's message on Cuban affairs and the tendency of the market, in spite of railles on the short interest, was to sag ir regularly lower,

regularly lower.

The feeling of uncertainty about the possible developments and their effect is shown by the fact that the usual decision to close the Stock exchange for Good Friday was rescinded and the market was in session for the first time on that day in a generation.

tion.

No attention has been paid to developments in regard to railroad earnings or other matters of importance and the tendency of prices was influenced but little either by the conservatism of lenders or the high figures at which time money is held by the decided break in exchange.

Attorney General Smyth replied that the

WEEKLY CLEARING HOUSE TOTALS.

Aggregate of Business Transactions by the Associated Banks.

NEW YORK, April 8.—The following table compiled by Brads reet's shows the bank clearings at eighty-eight cities for the week ended April 7, with the per-centage of increase and decrease as com-pared with the corresponding week last year: year:

NOT ALL FAVORABLE TO FUSION Ante-Convention Scheming in South

HURON. S. D., April 8 .- (Special.)-The fusion wing of the democratic party in this county is not favorable to the calling of a convention, unless it can be so arranged beforehand that fusion will be accomplished It is hoped that a full understanding may be had with populist leaders whereby the democrats will be given some of the candi-dates for office in return for services in the way of helping elect a pop-democratic ticket.
The straight-out populists will discourage
the scheme, as will also the gold democrats.
There is now being made an earnest effort to have the populists name a ticket com-posed wholly of middle-of-the-road men, and let other parties endorse it if they choose, but in no way to compromise the advocates of true populist principles. True blue democrats also desire to go it alone, but there is little probability that their hopes will be realized.

Writ of Mandamus Issued. PIERRE, S. D., April 8 .- (Special Telegram.)-The supreme court today granted a writ of error in the case of Carrington, the

New Trial for Kenneth McRae. CASPER, Wyo., April 8 .- (Special Telegram.)-The district court has granted Kenneth McRae a new trial on the grounds that a justice of the peace acted as a juror. McRae was convicted of murder in the first degree at the January term of court. A change of venue to Carbon county was granted and the case will come up for Dr. Agnew's Catarrhal Powder will cure

Attorney General Called Into the Firs Governor McConnell, United States Indian in-Insurance Controversy.

HE IS ASKED TO GIVE A LEGAL OPINION

Right of the Unlicensed Companies to Do Business in This State is Questioned by the Local Agents.

The fire insurance controversy moved on apace yesterday, when Attorney General Smyth was requested to take a hand in the affair. During the day a committee representing the fire insurance agents of Omaha called upon Attorney General Smyth and re-

question was a most important one and one that he would willingly investigate. He said, however, before going into the matter he would have to insist upon a formal request from State Auditor Cornell to give an opinion in the matter before he expressed any opinion whatsoever. With this statement from the attorney general the committee withdrew and later addressed a lengthy document to State Auditor Cornell. In this the state auditor, who is the head of the state's insurance department, was requested to ask the near there and the Indians often work for attorney general for a legal opinion regard-ing the rights of companies not paying taxes into the treasury of the state to transact, or attempt to transact, business in Nebraska, An opinion from Attorney General Smyth, in answer to the request of Auditor Cornell. is expected by the insurance men within a

INSURANCE MEN TALK.

The insurance men say that they are as-

It has been brought to the attention of this department that many of the insurance companies legally authorized to do business in this state have been writing insurance on Nebraska property from New York and Calcago and reporting the premiums for taxation to the states of New York and Illinois, instead of to Nebraska, where the tax really belongs, thus defrauding Nebraska out of its rightful due in this regard. While this department is not prepared to say at this time that it would revoke the license of any company writing business on Nebraska property from agencies outside of the state, nevertheless we wish to lay before you the ward. By the property from agencies outside of fae state, nevertheless we wish to lay before you the views of this department on this question, hoping that in the future you will not write any insurance on Nebraska property, except through legally authorized Nebraska agents. We will faank you to acknowledge the receipt of this, so that we may have a record from each company and avoid any misunderstanding in the future.

LETTER SENT TO LITCHTY. The following is a copy of a letter re-cently sent to John F. Litchty, insurance deputy of the state, at Lincoln, by the local

Consolidated Statutes of Nebraska, 1891.)
It is but a just construction of the insurance laws of our state that a company admitted to do business in the state and derive a profit therefrom should conform to the spirit as well as the letter of the law under which it is granted such privilege, and it should therefore include in its annual statement to the insurance department every cent of income received from all its business transacted in the state or income derived from insurance written on property located in this state. This it cannot do unless it transacts all of its business in the state through agents authorized to act as such by the insurance department. (Secsuch by the insurance department. (Sec-tions 20, 24 and 25, Insurance Laws of Ne-

braska.)

To withhold any part if its income received from business transacted in this state under its license is a failure to comply with the requirements of the insurance laws and a misdemeanor. (Section 25, Insurance Laws of Nebraska.)

braska.)

With this letter the insurance men sub mitted a form of agreement, giving their ideas as to what each company should be required to do before receiving a new liense, or having its old license renewed.

LOCAL INCIDENT AS ILLUSTRATION. While the local committee of fire insur ance egents was making tries to Lincoln to consult with the state auditor about the matter in controversy, an incident occurred state convention at any point other than in this city that accentuated their phase of where the populists hold their nominating the matter. There was a small fice in one of the offices of the New York Life build-ing. In the building a cumber of fire insurance companies maintain offices. But the fire developed that not \$1 of the fire insurance on the building was placed with any of these companies. The officers of the Actna Fire Insurance company felt particularly grieved at the showing because that company maintains its general western de-partment in offices in the building, and it had none of the business. The insurance commissioner wrote to the New York Life in which the building here was insured. It turned out that five of these companies had not been admitted to do business in the state, nor were they paying taxes to the

> There was quite a hub-bub over the dis-losure within insurance circles. President John MacCall of the New York Life Insurance company was then en route homeward from the west. He was telegraphed the in-formation from the New York offices, and stopped over at Lincoln to explain the matter to State Auditor Cornell. As a result of the showing of facts brought out by the little fice in the New York Life building, the officers of the New York Life Insurance company have promised the insurance de-partment of the state that when the insurance on the Omeha building of the company runs out, which it does in May, all the new insurance will be placed with companies regularly licensed to do business the state of Nebraska.

Idaho Railroad Building.

LEWISTON, Idaho, April 8 .- (Special.)-Tracklaying on the Juliaetta extension has been completed to the mouth of the Little Potlatch, seven miles below Juliaetta. At hundred feet in length, at the completion of which tracklaying will again be pushed for-ward. By the present locating survey two trestles will be builf between the Little Potlatch and the Clearwater, and a considerable portion of the bed of the main creek bottom will be reclaimed by diverting the waters into a new channel. The contractors expect to complete the tracklaying to the Clearwater bridge site by April 15 or 20.

Irrigation Scheme in Idaho. BOISE CITY, Idaho, April 8 .- (Special.)-An important irrigation scheme has just been inaugurated here, the state land board mak-

LOS ANGELES, Cal., April 8.—(Special.)— Unusual attention will probably be given to river bed mining in California this season, as the very scant snow and rain fall will be in its favor. This sort of mining has had a more important development in this state than in any other part of the world, and it is here that the biggest and most expensive schemes have been prosecuted. Some of these have paid well, and others have been big failures. It is only in such extremely

profit is possible in river bed mining. Sale of a Fruit Farm. COLFAX, Wash., April 8 .- (Special.)-The fruit and farm lands of the Snake River Fruit Growers' association, to the amount of 503 acres, were sold under foreclosure. Land was purchased at from \$1 to \$25 an acre. The average price was \$24.45. The lands sold included fifty-eight acres of the appociation's fine fruit farm.

California News Notes. F. W. Blanchard, described as beautiful, graceful and gracious woman, will

be the Los Angeles fiesta queen. Wheat is badly burned in some countles and the chances for a crop are poor. In all counties the early fruit seems practically ruined.

Under Judge Hart's decision that the San Francisco police court has no legal existence habens corpus is being effectively used to Mrs. M. J. Hepburn of Chicago has bought

the Beliwether mine at Jackson, Amador county, for \$98,600, and is planning to develop it on an extensive scale. Madame Louise, a bilt dresser of San Jose, threw vitriol in the face of E. F. Robinson because he wanted her to move for non-payment of rent. His hands saved his

eyes, but he was terribly burned. Southern Pacific directors will soon meet in San Francisco. It is said to be conceded that C. P. Huntington and his associates will control about 382,381 shares of stock against probable 90,000 shares.

The Copper King mine of Fresno county has been under steady development for two years by a close English corporation, which now has on the dump over 15,000 tons of ore that averages 12 to 13 per cent copper and carries about \$10 in gold and a few ounces of eliver to the ton. A large smeller will be built this spring to run on this ore. At the 160-foot level there is a solid body of high-grade ore which runs into an adjoining

In the Esperanza, mine, Calaveras county the shaft is down 900 feet and will be sunk 100 feet further before the mill is started. At the 503-foot level the lend was found to be per ton in free gold! and sulphurets at the rate of \$50 per ton. At the 700-foot level the lead was wider, with ore of more value and sulphurets of a higher grade, while at the depth of 900 feet there is still more im-provement. This is the first mine in the northern part of Calamiras county to reach any depth, and its success will probably have a good deal of influence upon mine owners.

Idaho News Notes. The business men of the town of Albion want a bridge, constructed across Snake river at the Montgomery ferry.

It is entirely within the range of probabilities that the quarries at Kootenai may give employment to 100 men this summer. The indebtedness of the A. D. & M. company of Gibbonsville is given as \$270,000. Of this amount \$8,000 is for wages and \$5,000

An immigrant car filled with whole families of Pennsylvania Dutch farmers stopped over at Kendrick on Sunday night, enroute to the reservation, where they will take up farms.

James Odle, an Idaho pioneer, aged 74 years, died suddenly at his home in Lewiston. He was entering his house when he col-lapsed on the doorstep and expired almost instantly.

The Kendrick Times says tracklaying is under way and the road will reach the Clearwater in thirty days. Work on the piere for the bridge across the Clearwater is being pushed, and will be in shape for the bridge spans by the time the track is laid to that

Dr. Franklin Draws Comparisons Between

THINKS THEY HAVE A COMMON ORIGIN

In his address at Temple Israel last night

brace of temporary death dealt by the hand of winter. Rising from the grave in which ice and snow held her, nature, the God of the primeval man, springs into a glorious new life. This is the resurrection and the ife, for chakes are broken and earth, a prisoner through the winter months, is freed from thraidom. Birds and flowers driven away under the stern rule of frost have come again to join in earth's emancipation.

'Doubtless it was thoughts like these that moved savage breasts to the observance of the nature festivals, which were the great setting which has been grouped about these seasons. We would not depreciate the sacred significance with which the Jew has sur rounded the Passover or detract is any way from the beautiful conceptions which Christianity has lent to Easter, but it is plain that if the two festivals did not spring from that point a trestle is now being built several a common origin they at least arose from a "Although in their origin they have much

in common there has been such a multitude of additions at the hands of different churches that their identity is lost. Different dogmas and beliefs have so influenced them that they have worked alm at antithetically from their common source. Some one has made the well chosen distinction between them that the Passover is the emancipation fact and Easter is the resurrection myth. For if we strip from the former all that is not essen tially a part of it, all that is due to the Jewish atmosphere in which it has grown, we still have the fact of the long exile of the Jews and their eventual redemption under committee:

Again referring to the object of the visit of our committee to your office on February 23. Since that time our committee has had a number of meetings on tals matter and with your kind permission beg to submit for your consideration a brief idea of the law as we interpret it:

Legally, an insurance company, admitted to Nebraska, cannot write insurance on property located in the state except through a resident agent, holding a certificate from the insurance commission, because such action would remove the premium from the state and taus property subject to taxation under the law would escape. (Section 334, Consolidated Statutes of Nebraska, 1891.)

It is but a just construction of the insurance of the Energy age that the under the Carey age. (Section 334, Consolidated Statutes of Nebraska, 1891.)

It is but a just construction of the insurance of the Energy age that the under the carey age to the withdrawal of 17,000 acres of land on the north side of the Payette, near Emett, under the Carey age. The withdrawal is nade at the instance of Dr. J. B. Puckett of Runnells, Ia., whe is planning to locate and low to be accounted to the energy of the ercessing of the Red sea is exactly accurate in fact it is true that the song of the insurance of the fact that a large expenditure will be needed to get out the water. The river will have to be dammed.

River Hed Mining.

LOS ANGELES, Cal., April S.—(Special.)—

The specific of the crossing of the exact is respectively to the crossing of the exact is respectively to the crossing of the exact is respectively.

The specific of the control of the insurance of the fact that is not the third ventual redemption under the north state in and on the withdrawal of 17,000 acres of land on the north state is not of the fact is verified not only be Jewish history, but by the records of othe meets of the fact is verified not only be Jewish history, but by the records of othe fact is verified nor only by Jewish history, but by the relics and on the fact of the fact is verified ing application at the United States land office for the withdrawal of 17,000 acres of land on Jewish history, but by the records of other

the two religions. Judaism is founded on nothing supernatural or that cannot be proved to the satisfaction of the intellect and Christianity is based on a myth, although the greatest of all myths. But after all, this difference is a theological one and theology is not an essential part of religion, for has done more than anything else to estrange men and drive them from truth When all these differences of dogma and creed are ignored and all men join on a basis of the purpose of religion rather than the origin of different beliefs then will the mil lennium be close upon us. Would it not be possible even now to lay aside all theological distinctions and to see in these two festivaltiful can never die? Let the Jew remembe the history of his race and the Christian the mythical basis of his religion, but aside from sectarianism may the present reason be the symbol of dead hopes revived and old sym-pathles resurrected."

Dismisses Sixty-Four Cadets CHARLESTON, S. C., April 8.-The board of visitors of the South Carolina Military academy today expelled the sixty-four cadets who participated in the rebellion which took place at the academy on April 3

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50 cent bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

A JOYFUL MOTHER OF CHILDREN.

Mrs. Pinkham Declares that in the Light of Modern Science no Woman Need Despair.

There are many curable causes for sterility in women. One of the most common is general debility, accompanied by a peculiar condition of the blood. Care and tonic treatment of the fe-

male organs relieve more cases of supposed incurable barrenness than any other known method. This is why Lydia E. Pinkham's Vegetable Compound has effected so many cures; A its tonic properties are directed especially to the nerves which supply the uterine system. Among other causes for sterility or barrenness are displacements of the womb. These displacements are caused by lack of strength in the ligaments supporting the womb and the ovaries; restore these, and the difficulty ceases,. Here,

again, the Vegetable Compound works wonders. See Mrs. Lytle's letter, which follows in this column. Go to the root of the matter, restore the strength of the nerves and the tone of the parts, and nature will do the rest. Nature has no better ally than this Compound, made of

her own healing and restoring herbs. Write freely and fully to Mrs. Pinkham. Her address is Lynn, Mass. She will tell you, free of charge, the cause of your trouble and what course to take. Believe me, under right conditions, you have a fair chance to become the joyful mother of children. The woman whose letter is here published certainly

"I am more than proud of Lydia E. Pinkham's Vegetable Compound, and cannot find words to express the good it has done me. I was troubled very badly with the leucorrhea and severe womb pains. From the time I was married, in 1882, until last year, I was under the doctor's care. We had no children. I have had nearly every doctor in Jersey City, and have been to Belvin Hospital, but all to no avail. I saw Mrs. Pinkham's advertisement in the paper, and have used five bottles of her medicine. It has done more for me than all the doctors I ever had. It has stopped my pains and has brought me a fine little girl. I have been well ever since my baby was born. I heartily recommend Mrs. Pinkham's medicine to all women suffering from sterility."-MRS. LUCY LYTLE, 255 Henderson St., Jersey City, N. J.
