Procession as Usual.

PART OF THE MONEY ALREADY SECURED

Festival of Seni-Om-Sed Will Come Off on Schedule Time This Fall at the Hawkeye State Capital.

DES MOINES, April 9 .- (Special.)-The citizens' committee which has been soliciting funds to guarantee \$5,000 to the State Agricultural society as an inducement for holding the State fair as usual and also soliciting funds for the holding of the Seni-Om-Sed carnival in this city this fall, have been very successful and have already secured pledges for \$5,000 of the \$15,000 which it will be necessary to raise. President Polk of the Des Moines street railway has announced that he will give \$1,000 to the fund and several other prominent citizens have signified their intention of giving large sums, so that there is now little doubt but that the State fair and the Seni-Om-Sed carnival will be beld as usual.

Large sums of money were wagered on the recent city election and most of the bets were made upon the question of whether MacVicar would have 1,200 majority for mayor or not. The first returns showed Mar-Vicar's election by 1,239 majority, but it was afterword found that the clerks had made a mistake of 118 in footing the returns from one precinct, thus cutting the majority down to 1,121. This played hot with the bets on 1,200 majority and there committee has been appointed by the mer who have wagers posted, for the purpose of personally looking over the poll books and reaching a decision, which all have agreed

Commissioners Raymond and Godfrey of the Iowa Soldiers' home have been in the city consulting with the State Board of Control relative to the new "old people's build-ing," which is to be erected at the Soldiers home at a cost of \$15,000. The Board of Control does not take charge of the state inatitutions until July 1 and if they so de-sired the commissioners could go ahead and erect the building without conferring with the board. The commissioners felt, however, that it would be wise to consult the board and came here to hold the conference and ask for suggestions. The new home will be a two-story brick and will accommodate twenty-five veterans and their wives, the idea being to make it possible for the wiver of the veterans of extreme age to come to the home and be with their husbands in

their rapidly declining years.

The railroads entering Des Moines have immense improvements under way which will call for the expenditure this year of over \$250,000. The improvements have been summarized as follows: Des Moines Union railway: Union depot, with train sheds, the laying of five parallel trecks through the yards, the paving of the for a half mile each way from the Union depot with scores of arc lights and improvements in switch yards aggregating over \$150,000. Great Western railway: Gravity switch yard for quickly making up big freight trains, relaying the tracks through the city with much heavier steel, enlarging the yards and improving the shops, aggregating an expenditure of \$80,000. Chicago, Rock Island & Pacific: Paving yards with brick and improving yards, twenty-five stall round house at Valley Junction, aggregating an expenditure of \$30,-000. Keokuk & Western: Building a round house and improving yards at a cost of \$10,-

The supreme court handed down thirty three decisions today and then adjourned its special session. The decisions were mostly in cases of no great public interest, the most important being that in the case of the American Emigrant company against Isabella M. Long, appellant, involving a large tract of land. The case grew out of the title to certain lands which the American Emigrant company claimed under the swamp land act. In reversing the decision of the lower court the supreme court says the case is similar to the one already taken to the supreme court of the United States, in which it was de-cided that the Rogers Locomotive company held title to these lands, which took priority to the title held by the American Emigran company, for the reason that the same had been deeded to it by the secretary of the in-terior. The supreme court of lows must, therefore, make its decision to conform to the one rendered by the higher court.

NEW MEDICAL DISCOVERY.

A Positive Cure for Dyspensia

This may read as though we were putting It a little strong because it is generally thought by the majority of people that Dyspepsia in its chronic form is incurable, or practically so. But we have long since shown that dyspepsia is curable, nor is it such a difficult matter as it first appears.

The trouble with dyspepties is that they are continually dieting, starving themselves, or going to opposite extremes or else deluging the already overburdened stomach with "bitters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sus-

regardless of condition of stomach. The sufferer from dyspepsia according to directions is to eat an abundance of good, wholesome food and use the tablets before and after each meal and the result will be the food will be digested no matter how bad your dyspersia may be, because as before stated, the tabets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees. put with it one of Stuart's Dyspepaia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed

The stomach may be ever so weak. these tablets will perform the work of diproperly nourished and at the same time a radical, justing cure of dyspepsia will be made because the much abused stomach will be given, to some extent, a much need d rest. Your druggist will tell you that of the many remedies advertised to cure dys-pepsia none of them has given so complete and general satisfaction as Stuart's Dys-pepsia Tablets and not least in importance in those hard times is the fact that they

are also the cheapest and give the most good for the least money.

The with Finley Burke, attorney for the Streets and also attorney for the Northwestern Rail and also attorney for the Northwestern Rain-way company in the suit brought by the com-pany to prevent the city collecting taxes on a tract of lots near the Broadway depot. The report was to the effect that Mr. Burke was willing to compromise in all of the cases, but would not compromise the Street cases unless the city was willing to pursue the same course in the railroad case. The situation was discussed at some length, and the devas discussed at some length, and the de-cision was reached to instruct the city at-torney to have all of the cases continued indefinitely. This action will be taken when the cases are called for hearing tomorrow morning, and the city will be obliged to pay the \$10 penalty that is attached now to all continuances of cases in the district court. The approuncement in the Chicago dispatches that George Decker will not be allowed to come to Canaha was received with unconcealed indignation by the local base ball enthusiasts. The circumstances are such as to warrant the most vigorous expression of that sentiment, for no more contemptible outrage was ever perpetrated on a ball club than this. St. Louis wants Decker, but does not propose to pay for him. Omaha wants him and is ready to plank down the cash at a minute's notice. Consequently, it is proposed that neither club shall have him, but that he will be compelled to warm the bench for another season in Chicago. That this program is a monstrous injustice both to Decker and the Omaha club is apparent on its face. If St. Louis was ready to buy Decker it certainly is entitled to the first call on his services. But since that city has absolutely refused to psy a dollar for him it is absurd to assume that Omaha is not fairly entitled him. President Hart's alleged refusal to he might lay himself open to criticism, is too ridiculous o deserve consideration. If he con-cludes to assist the St. Louis pirates to execute this piece of base ball chicanery he is certainly entitled to criticism to the full limit of the English vocabulary. The tactics of the St. Louis magnates have been a standing menace to the prosperity of base bail for years. But it passes comprehension that a man like President Hart should allow such a bare-faced injustice to stand. It is about time that the Chicago magnates

who are directly and indirectly responsible for the affairs of the Omaha club should understand that their present course of pro-cedure is eminently calculated to kill off the base ball sentiment that has up to this time promised success to the local enterprise. That the city was ripe for a good ball team this year is certain, but that the dilatory tactics that are being pursued tend to discount the enthusiasm that was apparent a couple of weeks ago is equally evident.

INFORMATION IS WANTED. Omaha has been cold-decked on every deal since the game began. Every one knows that Tucker was taken away by a mere subterfuge, invented as a vehicle by which the stronger league could impose on the weaker. Since then not the slightest reliable intimation has proceeded from President Johnson in regard to the make-up of the Omaha team. We have been taking such left-handed infor-mation as trickled out at Chicago, and hoping for the best. But the Omaha people are not so slow as they are apparently to be. They cannot understand why Mc-Auley, Eustace, Roaf and others are paying board somewhere else if they expect to play in Omaha. They have digested with the best possible grace the semi-efficial assurances that this and that player would be in Omaha, but with the opening game only ten days away and the other Western league clubs at practice with nearly full teams it has come to a pass where they want to be shown something. even develops that Griffin has not b signed and Hageman, McKinney and Bian-ford are the only really strong players that are actually in sight. It is well known that Manager O'Brien is not responsible for this state of affairs. He has nothing to do with signing the players under the present arrangements, and the circumstances that are aggravating to the public are that are aggravating to the public are doubly so to him. Both the press and the public have given every possible support to the enterprise, but it is time that it was understood that enthusiasm cannot subsist on wind. It is time that some more subhoped that President Johnson will get action before the local fans become completely dis-

Increases Naval Appropriation. WASHINGTON, April 9 .- Secretary Long was before the naval sub-committee of the senste on appropriations today and in reapouse to a request for his opinion recom-mended that three or four harbor defense vessels be provided for in addition to the other items carried by that bill as it passed the house. He said he thought the vessels could be completed for \$2,000,000 each. The sub-committee concludes consideration of the bill before adjournment. The principal additions to the portion of the bill providing for the increase of the navy, were the following: Four monitors for coast and harbor defense, \$5.000,000; four torpedo boat destroyers, \$1,200,000. These appropriations are for the vessels without arms or armament and it is hoped that they will be sufficient for it is hoped that they will be sufficient for the purposes indicated. The monitors are to be somewhat smaller than existing types.

Tommy White Gets a Decision.

CHICAGO, April 9.—Tommy White was given the decision over Henry Lyons, the colored featherweight of this city, at the end of six rounds tonight. The decision was not entirely satisfactory to the crowd, many calling loudly for a draw. White had the best of it early in the fight, but Lyons came strong in the last three rounds and evened matters. White's margin to the good was exceedingly small.

Sturdy Americanism.

No man can read the history of the United States as told in Ridpath's History of the World without increased respect and affection for "Old Glory." Dr. Ridpath is intensely American and patriotic. Without vain boasting he recounts the achievements and deeds of our countrymen on land and sca in sentences and word pictures that stir the blood.

There is no sentiment more desirable to instill into the minds of our young men and women than love of country. There is no better way to do this than to make plain the reasons for being proud of America and American citizenship. This Dr. Ridpath has done better than any other historian.
