week. In regard to coarse and heavy callie there was an easier tendency all the latter part of the week, and a growing inclina-tion on the part of the buyers to discrim-inate against them. Cows, heifers, bulls, calves, etc., were good sellers all the week at good, strong prices. In fact cow sluff has been selling high right along, and the condition of the market on every day of the week was en-tirely satisfactory to the selling interests. Good cows sold up to \$4.60 and as high as \$4.60 was paid for choice fat yearling heifers. No great change was noted in the feeder trade during the week, as there was so little coming that the trade did not attract any great attention. Regular operators on the market say that the country demand is all right and that a good many cattle could be sold if the right kind was to be had. Fewer

day's market. The sheep trade has been in very good condi-tion all the week. The demand has been good right along for sheep and yearlings, while 'te market has had a strong isokery, owing to the light supply. There are some who have been paying very close attention to the course of the trade that predict a gradual upward tendenty of the market on mutton sheep, basing their opinion upon the admitted fact that a very large propor-tion of the country holdings of such sheep 12s been marketed, and that the number still to come forward is very small. While mutton sheep have been strong, owing to the light marketings, himbs have declined bio2s for the week, owing to the very large supply at all market points.

CHICAGO LIVE STOCK MARKET.

Small Receipts of Hogs Result in Ad-vance of Prices.

CHICAGO, April 9.-Today's cattle market was of the usual Saturday character. Offerings were confined to a few scattered lots of medium grade cattle, which were disposed of at yesterday's ruling prices.

The small receipts of hogs made buyers more eager to take hold and prices moved up 5c, the offerings being well taken at an early hour. Hogs sold at from \$3.75 to \$4.10, chiefly at from \$3.10 to \$4.05, and pigs sold largely at from \$3.80

35.19 to 34.05, and pigs sold largely at from 33.80 to 43.85, Prime heavy hogs sold 15c above prime heavy hogs sold 15c above prime blight. Boars sold at from \$1.75 to \$2.25 and stags at from \$2.75 to \$3.25. The offerings of sheep and lambs that came on the market sold at steady prices, sheep being salable at from \$3.90 to \$4.75 for shorn and at from \$5.10 to \$5.80 for wooled. Feeding lambs were soliable at from \$5.15 to \$5.36. The offer wooled. Feeding lambs were bominal at from \$5.15 to \$5.30 head; hogs, 12.00 head; head; head; hogs, 12.00 head; Receipts: Cattle heep, 4,000 head.

OATS-Market lower; No. 2 white, 26c. RYE-Market steady; No. 2 white, 26c. RYE-Market steady; No. 2 46c. HAY-Market steady; No. 2 46c. associated banks of New York city for the week ending April 9, were heavler than week ending April 9, were heavier than usual, but desipte the fact that the opera-tions which brought them about were of a nature to decrease the cash in banks, the excess reserve at the end of the week stood only \$58,325 lower than at the close of the previous week. The largest increase was in the deposit item, which fell off \$12,329,900. The loss in deposits was due to the contin-ued interior movement, and to liquidation in loans, although the shrinkage of \$5,067,-900 in this item was undoubtedly in part with sterling exchange transactions, by which the gold import movement is sus-tained. The higher rates for money have also operated to reduce the loan account, and every decrease counts, since the banks are doing very little business in mercantile channels. The movement toward the inte-rior assumed heavy proportions during the week, and the banks also lost through the sub-treasury. The decrease of \$3,789,300 in rash was even less than expected, but while the receipts of gold for the current week were nearly \$5,000,000, the increase was but \$1,430,800. The banks which is the larger ex-porter of specie appears to have reduced its gold holdings over \$4,000,000, and its deposits about \$5,000,000, the latter being one-half the total loss reported by the sixty-five clearing house institutions. The coming week will decide to a great extent the future rates for money. Under present conditions the movement to the Interior will continue, and as the banks have been usual, but desipte the fact that the opera-

Manchester Textile Fabrics Manchester Textile Fabrics. MANCHESTER. April 10.-The market last week was quiet, but strong all around. with yarns 1-16 higher, and the week's out-put fully so'd. Various spinnings are en-gaged to the end of June. Indian demands for shirtings continue and some lines were heavily sold yesterday. The other markets show the usual heliday quietness, but the engagements are heavy for the home trade, and the monthly export returns are unex-pectedly good from India, South America and Japan. The position in Germany and France is unchanged and continues quiet.
