

OUTLINE THE COLOR SCHEME

How the Glare of the White Will Be Overcome by Tinting.

ARCHITECTS-IN-CHIEF SUBMIT THEIR PLAN

Transmississippi Exposition Buildings to Present a Beautiful and Varied Arrangement of Warm Tones and Rich Tints.

Visitors to the exposition grounds during the last few days whose eyes have been dazzled by the glare of the sunlight reflected from the white buildings will be gratified to learn that preparations are now making for painting the buildings and modifying the harsh tone by the use of a soft tint which will be more agreeable to the eye while adding greatly to the effectiveness of the architectural beauty of the scene.

The entire exterior of the buildings in the main court will be painted a rich cream or old ivory tint, and the architectural adornment will be accentuated by the use of colors.

Bids have been opened at the office of the Department of Buildings and Grounds for coloring the buildings with this tint of old ivory, and the work of bringing out the ornaments by the use of color has been placed in the hands of Walker & Kimball, the architects-in-chief.

The use of color as an adjunct to the architecture of the building will mark a departure from the methods which have obtained in previous exhibitions in this country. By this means the architectural buildings will give a festival appearance in keeping with the uses to which they are devoted, and the monotony which would otherwise prevail will be relieved by the moderate use of subdued tones.

The Agriculture building will be the most elaborately decorated of any in the main court, for the reason that its architecture depends upon the use of color.

The colonnades will be treated in tones harmonizing with the buildings and the domes of the pavilions of the colonnades will be gilded.

AFRO-AMERICAN VILLAGE PLANS

Promoters Expect to Surprize the Public with Their Show.

County Commissioner Hector and J. P. Finley, who have the concession for the Afro-American village at the exposition, have their plans complete and will begin work next Monday morning with a large force of men.

The village will be upon the Esat Midway and will be located directly opposite the Moorish village.

Mr. Hector says: "We will put on a show that will surprise the amusement-seeking people who come to the exposition and at the same time will show the past and present conditions of the colored people."

There will be the old plantation cabins, built of logs and chinked with mud. These will represent the life of the negro as it existed thirty-five years ago.

"We do not propose to have northern colored people, but instead we will have the genuine articles from the plantations of the south. We have arranged to bring 150 colored people in the village, where they will render the southern songs and all of the plantation dances. There will be cotton and tobacco fields, all of which will be worked by colored people."

The Afro-American village will cover a tract of ground 170x170 feet. Aside from the cabins the buildings will be neat and attractive structures, covered with staff.

Louisiana's Prospects.

Reports from Louisiana show that Commissioner J. G. Lee of the Bureau of Agriculture and Immigration, who is charged with the duty of preparing a state exhibit for the exposition, is making a fine collection of the resources of the state.

Settles for Elliott's Forgery.

The loss to the banks of St. Louis on account of the forged drafts on Omaha parties presented to the banks by a man calling himself William Elliott, who was in St. Louis last fall as a representative of the exposition, has been made good by the full payment of the amount secured by Elliott.

Still at His Sandbagging Tactics.

Malignant Attack Upon the Executive Committee of the Exposition Proves Boomerang Name for Exposition Hotel.

The board of directors of the exposition association held an adjourned session yesterday afternoon which was attended by a bare quorum of the members.

When the meeting opened Mr. Rosewater brought up the subject of hotel accommodations, calling the attention of the directors to the necessity for increased accommodations in view of the large numbers of people who will visit the city and who will demand first-class accommodations.

Mr. Rosewater said that not a cent had ever been expended by him in connection with the exposition for which vouchers were not on file with the name of the person to whom it was paid, but he challenged Mr. Hitchcock to say the same for the affairs of the department which had been under his charge, asking what had been done with a certain \$200 which Mr. Hitchcock had drawn and retained for his own use.

Mr. Hitchcock turned white with ill-concealed rage and excitedly exclaimed that the president of the board had failed to state what had been done with the money.

Mr. Rosewater asked if the resolution would be retroactive if the president ruled that the resolution would not be retroactive.

A motion to refer the resolution to the executive committee was followed by a request from Chairman Lindsey that the board act on the matter, instead of referring it to the committee.

The matter was finally put to a vote, after it had been amended to provide that the words "without advertising for bids" should be added, and the resolution was adopted.

PITS HITCHCOCK IN A HOLE

PUBLISH DEEDS, NOT CREEDS

Local Leaders and Laymen Take Hold of the Scheme of Ignorance.

WYOMING AUTHORITIES TAKE ACTION

At a recent meeting held in Cheyenne, Wyo., at which there were present Governor Richards, State Engineer Mead, President Graves of the Wyoming university and a number of prominent business men, it was decided that the governor should at once send a committee to each county of the state for the purpose of raising by subscription sufficient funds to form a nucleus for an action which would interest a very large number in the transmississippi region and might be made the leading feature of the congress work. It was the opinion of those in charge that the product of the religious spirit. This is peculiarly a western notion, for here we emphasize deeds more than creeds. It was decided by those who conferred that such a congress would interest a very large number in the transmississippi region and might be made the leading feature of the congress work. BOSTON STORE, OMAHA, 15th and Douglas streets.

HYMENEAL

Hunter-Urban.

The first church wedding of the post-Lenten season in Omaha was that of Miss Perle Elizabeth Uria, daughter of Mr. and Mrs. Frederick G. Uria of this city, to Mr. Charles Ambrose Hunter at Trinity cathedral last evening at 8 o'clock.

The bride, who is an attractive young woman of the brunette type, tall and slender, wore a handsome wedding gown of white brocade satin, with train and veil. She carried a bunch of bride's white roses. The maid of honor was Miss Mabel Stubi, daughter of the bride's father, Mr. Charles Uria. The bridesmaids were Misses Ernest Stubi, Edna Ward L. Bradley, Edna Clark, Edward and N. H. Nelson, all of Omaha. The bride was given away by her father. The chancel and altar of the church were beautifully decorated with palms, lilies and other Easter flowers. The cathedral was well filled with the numerous friends of the bride and groom, and the assembly included a number of out of town guests.

Following the wedding there was a reception tendered Mr. and Mrs. Hunter at the residence of the bride's father, 570 North Twenty-fifth avenue. Besides the members of the bridal party only the relatives and a few intimate friends were present at the reception. The bride and groom were received by the bride and groom. They will leave today for an extended wedding trip. The bride is favorably known among a large circle of friends. Her father, Mr. Charles Uria, is one of the oldest families of Omaha. The groom is soliciting freight agent for the Chicago, Rock Island & Pacific railroad in this city.

Mr. and Mrs. Taylor will be at home Wednesdays during May at 1326 G street, Lincoln.

Daughter of Senator Teller-Taylor.
