Excitement in Foreign Grain Circles Booms Local Markets.

WHEAT TOUCHES SEASON'S HIGH POINT

Ocean Rates Are Again Marked Up, Owing to the War, Making Export Sales Almost Impossible.

CHICAGO, April 26.-Excitement in foreign grain circles gave the markets on the Board of Trade a strong start today. But the heavy realizing sales checked the advances, ocean rates, which were again marked up made export sales almost impossible. May wheat started 54c higher, making : new record at \$1.25, but it settled back to \$1.23 and closed easy. July, which at one time was 31/2c higher than yesterday, closed at an advance of Wile. Corn and oats closed unchanged. Pork closed 7c higher,

lard 2%c higher, ribs 2%c lower. With the Liverpool wheat market in a state of violent excitement and the price of July delivery equal to %c a bu. higher than it closed last night, it was naturally some what surprising when July opened in this trarket today at an advance of only 23/67 23/4c. The buying fever was not entirely chilled, however, and after a moment's hest, tation another cent was added to the price. Leading bull operators unleaded millions of bushels on this tempting swell and a 2c break followed. The northwestern markets likewise gave evidence of an oversupply and tempted off 26:3c. Second Liverpool cables showed a good decline, but were fiset by advances on the continent equal to 65:46:c at Anhaerp. Bradstreet's report gave the world's visible supply at a decrease of 4.596, 699 but, and brought about a rally of 1c, but traders were overloaded and took every opportunity to lighten their leads. Chicago receipts were 180 cars while Minneapolis and Dubuth reported 331 cars, against 153 a week ago and 375 last year. Exports of wheat and flour from Atlantic ports were 566,690 but. An advance of 19:d in oc an freights, oringing the rate per bushel up to 13:2d from Nata York to United Kingdom ports, was the cause of the latest phase of the market here that brought it down to \$354 far July and prevented more than its fractional recovery. During the opening excellenced the state of the latest phase of the market here that brought it down to Leading bull operators unloaded millions of

wheat and corn, lost all the advance under free selling by longs, Sales of 35,000 bu, for expirt were reported. Local receipts amounted to 555 cars, July opened \$605c higher at 2556/2605c, declined and closed un-changed at 2556.

Prices Are Some Higher, but Trading

is Dull.

NEW YORK, April 28.—Prices of stocks ranged lazily upwards today, covering about the same range as in the downward course of yesterday, range as in the downward course of yesterday, It was a traders' market, as was that of yesterday. No operations on a large scale were ventured upon, nor is there any outside interests in the market askde from some desultory buying of small lots through commission houses. Today's advance soon put a stopte even these, as bidding of this character similes from barsain humers, whose orders are placed upon a scale of prices downward. The market was so marrow that the buying for London account was quite a conspicuous feature, though in itself small. But this buying is rather significent in spite of its small volume. It was induced by the declarations of neutrality on the part of Great Britain, France and Mexico and intimations of a similar attitude soon to be adopted by other powers. The demand for Americans in London was stimulated also by the strengts of the general markets, which were active and strong on the easier money conditions. The strength reflected from London was sufficient to induce the local traders to take

The bond market showed weakness early in the day and there were later recoveries in some cases, making the net changes mixed. Total sales, \$1,105,000. United States 4s declined 1½ per cent in the bid prices, while other issues were unchanged.

The Evening Post's London financial cable-gram says: "Today's markets were firm, led by consols and similar stocks, on the large revival in bonds. But for one feature the market might be described as healthy. After the recent sankeout the black spot is the West Australian mining market, where the difficulties of the operator referred to yesterday are so huge that the matter is not finally arranged and may invoive new failures. The differences to be met exceed £25,000. Spanish securities were comparatively neglected, but Canadian Pacifics and Grand Trunk have been bought on rumors of a speedy ending of the rate war. Americans closed firm. Spain is said to be buying silver in London, but I cannot confirm it. This week's arrival of gold from the Cape has not been fully dealt with. A tussie is going on between the Bank of England and the open market for it. The bank has further raised the price to 7ts 9%d, but £110,000 has been bought for New York. The remainder has not yet been dealt in. Gold has also gone directly from Germany to New York. The Paris market was steady, but it is believed here that the steadiness is deceptive and due to the French financiers making desperate efforts to face the severe losses catalled by the fall of Spanish stock. The Berlin market was squite nominal. Following ser the closing quotations of the leading stocks on the New York market today: Atchison 10% Hawaii C. C. 185

ter feeling all round and to that extent the trade was far more satisfactory to the selling interests.

The shippers as well as local packers were buyers of beef steers and when the trade was once under way the movement was fairly active, at least active to what it has been on most days the past week. Handy little cattle such as have been in demand all the time were the best sellers and it would be safe to quote the market on that kind as stronger. Heavy cattle when well finished and smooth were also fair sellers at fully steady prices, but coarse, heavy cattle were none too active. The most of the fat cattle changed hands in good season and operators were generally summing up the day's trading as a good steady to strong market.

liberal proportions and about on a par with the receipts, so that just about steady prices prevailed and most everything sold in good season.

Stockers and feeders did not show any material change. The demand was fair, but as usual of late of rather modest proportions. No one looks for much change in feeders so long as the beef market remains in the present condition, and while money continues so close. There is, however, a small demand all the time which, as the receipts are very light, just about keeps the supply cleaned up. Representative sales: D. Av. Pr. No. Av. weights.

The general condition of the market was somewhat improved over what it has been the past few days, that is there was a better feeling all round and to that extent the trade was far more satisfactory to the trade was far more satisfactory to the trade. with only a very slight sprinking of multonsheep. The lambs were westerns and Mexicans.
Nebraska fed, and while the quality was good
there were most too many heavy weights.
The demand for multon sheep was active and
the offerings sold readily at prices that were
a strong 5c higher.
The most of the lambs sold early and the
market was steady, though a little inclined to
be slow, especially on the big heavy weights.
Representative sales:
No.

Av. Pr.

Cows and heiters were in larger supply than for several days past, about twenty loads, in round numbers, being on sale. The market was devoid of any especialty new features. The demand appeared to be of liberal proportions and about on a par with liberal proportions and about on a par with large supply than the results. The results are the results and results are the results are the results and results are the Business in Hogs is Lively with
